Travel and Transformation Garth Lean, Russell Staiff, 2016-02-24 Travel and tourism have a long association with the notion of transformation both in terms of self and social collectives What is surprising however is that this association has on the whole remained relatively underexplored and unchallenged with little in the way of a corpus of academic literature surrounding these themes Instead much of the literature to date has focused upon describing and categorising tourism and travel experiences from a supply side perspective with travellers themselves defined in terms of their motivations and interests While the tourism field can lay claim to several significant milestone contributions there have been few recent attempts at a rigorous re theorization of the issues arising from the travel transformation nexus The opportunity to explore the socio cultural dimensions of transformation through travel has thus far been missed Bringing together geographers sociologists cultural researchers philosophers anthropologists visual researchers literary scholars and heritage researchers this volume explores what it means to transform through travel in a modern mobile world In doing so it draws upon a wide variety of traveller perspectives including tourists backpackers lifestyle travellers migrants refugees nomads walkers writers poets virtual travellers and cosmetic surgery patients to unpack a cultural phenomenon that has captured the imagination since the very first works of Western literature

Humans Being Lou Ann Daly, 2009-07 Like asking the eagle to lumber or bear to fly you will never find your own graceful state of being by looking outward for direction Grace appears when you step inward to your unique essence and walk your own path Humans Being is a book dedicated to all who long to find their voice pursue their passion and live more fulfilling creative and healthier lives It offers a simple framework in the form of the Universal Soul Grid for reconnecting with unique purpose and voice and for recognizing unconscious choices that block creativity insight and lives of ease The exercises are designed to provide practice fields for readers to engage at their own pace and to reinforce what it means to live in grace listen to the heart and lead a life of clarity and courage The path to lives of ease and grace is available to all and yet not all of us have been engaging all aspects of this path But its influence and prompting in your life become clear when you look squarely at who you are becoming the results of your choices and the relative ease or difficulty of your life The simple truth in your heart in whatever form you recognize it serves your own unique journey As long as you remember that point faith and courage more easily follow The desire to open your eyes and see where you invest your energy to hold yourself back for whatever reason becomes a curiosity rather than a failure And the possibility of greatness and living your dreams emerges much more clearly
