internationally renowned historians and cultural theorists discuss landmark debates about the uses and abuses of the talking cure and map the diverse psychologies and therapeutic practices that have featured in and against tyrannical modern regimes These essays show both how the Freudian movement responded to and was transformed by the rise of fascism and communism the Second World War and the Cold War and how powerful new ideas about aggression destructiveness control obedience and psychological freedom were taken up in the investigation of politics They identify important intersections between clinical debate political analysis and theories of minds and groups and trace influential ideas about totalitarianism that took root in modern culture after 1918 and still resonate in the twenty first century At the same time they suggest how the emergent discourses of totalitarian society were permeated by visions of the unconscious Topics include the psychoanalytic theorizations of anti-Semitism the psychological origins and impact of Nazism the post war struggle to rebuild liberal democracy state funded experiments in mind control in Cold War America coercive re education programmes in Eastern Europe and the role of psychoanalysis in the politics of decolonization A concluding trio of chapters argues in various ways for the continuing relevance of psychoanalysis and of these mid century debates over the psychology of power submission and freedom in modern mass society Psychoanalysis in the Age of Totalitarianism will prove compelling for both specialists and readers with a general interest in modern psychology politics culture and society and in psychoanalysis The material is relevant for academics and post graduate students in the human social and political sciences the clinical professions the historical profession and the humanities more widely

The Facilitating Partnership Jeffrey S.

Applegate, Jennifer M. Bonovitz, 1995-04-01 A young mother suspected of abusing her toddler a severely behavior disordered teenager who faces expulsion from his community residence a depressed and illiterate homeless man who fears psychiatric evaluation These clients populate the caseloads of most mental health professionals who often view them as too crisis ridden deprived and overwhelmed with concrete needs to benefit from an in depth approach to their problems However without this kind of treatment such people continually reappear at social service agencies their core psychological issues left unaddressed and their life situations unraveling What can psychoanalytic theory offer practitioners working with these challenging clients Although the helping professions have enjoyed a long and fruitful association with psychoanalysis often the application of this theory has focused on treating motivated articulate financially secure clients in private practice In *The Facilitating Partnership* Jeffrey Applegate and Jennifer Bonovitz show how D W Winnicott's therapeutic ideas and technique are particularly relevant to a agency based psychodynamic treatment of clients whose histories of deprivation and trauma historically have made them unlikely and reluctant candidates for in depth clinical services Winnicott's concepts are especially powerful in capturing the silent supportive sustaining relationship based dimensions of clinical work and the authors provide an accessible language for explicating these invaluable activities Through extensive case vignettes Applegate and Bonovitz demonstrate that interventions emerging from Winnicott's key concepts the good enough mother the holding

environment can bolster clients ego strengths and coping capacities while promoting their psychosocial development in ways that help them profoundly alter maladaptive life patterns A Jason Aronson Book **In Search of the Real** Dodi

Goldman,1993 The originality of Winnicott s thought and his originality as a person as inseparable This book explores the way in which a search for an experiencing that feels real is evident in both Winnicott s life and work He believes deeply that individuals possess a unique innate authenticity One feels most alive and free when in touch with this core sense of real self

Winnicott and Labor's Eclipse of Life Nathan

Gerard, 2023-09-11 Nathan Gerard draws upon the pathbreaking insights of pediatrician and psychoanalyst D W Winnicott to offer a new set of ideas in the novel domain of contemporary work life and its discontents Locating Winnicott within a broad landscape of critical scholarship that dissects work's perils the book positions Winnicott as both a radical critic and creative advocate for building a different kind of work life one that might make room for the presence of self By shuffling the discourse on neoliberal subjectivity to reclaim what Winnicott calls unit status of the separate self Gerard differentiates Winnicott from the relational tradition by advocating for Winnicott's non relational aspects Through such analysis the book reveals how work and home have become two sides of the same impoverished coin each contributing to a legitimately bad environment that perpetuates self absence and annihilates one's unique sense of feeling real and alive Winnicott and Labor's Eclipse of Life will be of interest to readers of Winnicott and psychoanalysis organization and management studies and anyone hoping to deepen their engagement with the dynamics of contemporary work life

Psyche and Ethos Amanda

Anderson, 2018-03-21 We live in a psychological age Contemporary culture is saturated with psychological concepts and ideas from anxiety to narcissism to trauma While it might seem that concern over psychological conditions and challenges is intrinsically oriented toward moral questions about what promotes individual and collective well being it is striking that from the advent of Freudian psychoanalysis in the late nineteenth century up to recent findings in cognitive science psychology has posed a continuing challenge to traditional concepts of moral deliberation judgment and action all core components of moral philosophy and central to understandings of character and tragedy in literature Psyche and Ethos Moral Life After Psychology explores the nature of psychology's consequential effects on our understanding of the moral life Using a range of examples from literature and literary criticism alongside discussions of psychological literature from psychoanalysis to recent cognitive science and social psychology this study argues for a renewed look at the persistence of moral orientations toward life and the values of integrity fidelity and repair that they privilege Writings by Shakespeare Henry James and George Eliot and the powerful contributions of British object relations theorists in the post war period help to draw out the fundamental ways we experience moral time the forms of elusive duration that constitute loss grief regret and the desire for amends Acknowledging the power and necessity of psychological frameworks Psyche and Ethos aims to restore moral understanding

and moral experience to a more central place in our understanding of psychic life and the literary tradition **Discovering a Sermon** Robert C. Dykstra, 2001 *Finding Space* Ann Belford Ulanov, 2001-01-01 In *Finding Space* Ann Belford Ulanov argues that depth psychology in general and the work of D W Winnicott in particular offer vital new ways in which to apprehend religious life especially Christian religious life Her inspiration is rooted in Winnicott s influence on her work as an analyst and how his ideas have enriched her own Christian faith and religious understanding In addition Ulanov feels Winnicott s focus on the intensity of aliveness is an antidote to the plight of contemporary religion that it can be passionless or rote and thereby irrelevant to so many people She expands Winnicott s concept of transitional space between self and other to apply to the space between the human and divine She explores the importance of the illusionist element of God images in creative approaches to the divine Other topics include the paradox transitional reality holds with subjective and objective notions Christians have of God the inclusion of the body specifically sexuality and aggression and the struggle for integration within the self in the search for relationship with God and the importance of the feminine In an especially helpful appendix Ulanov includes Winnicott s thoughts on matters pertinent to religious life and thought Constructing Place Sarah Menin, 2004-02-24 This book is a cutting edge study exploring the field of the conception and the tectonic making of place as it impinges on and thus changes the site in which it is set **The Hidden Order of Intimacy** Avivah Gottlieb Zornberg, 2022-03-29 A masterly analysis of the Book of Leviticus the newest volume in the award winning series of commentaries on the Hebrew Bible by a celebrated biblical scholar keen on weaving together traditional Jewish exegesis psychoanalysis and postmodern criticism The New York Times Book Review The image of the Golden Calf haunts the commentaries that thread through Leviticus This catastrophic episode in which the Israelites freed from Egyptian slavery and forty days after their momentous encounter with God at Mount Sinai worship a pagan idol while Moses is receiving the Torah from God on the mountaintop gives the mostly legalistic text a unique depth and resonance According to midrashic tradition the post traumatic effects of the sin of the Golden Calf linger through the generations the sin to be paid off in small increments through time Post biblical perspectives view this as the diffusion of punishment as well as a way of addressing the on going phenomenon of idolatry itself These after effects of the Golden Calf incident are imaginatively explored in Avivah Zornberg s magnificent textual analysis She brings the rabbis of the Talmud medieval commentators Hasidic scholars philosophers psychoanalysts and literary masters from Aristotle and Rashi to the Baal Shem Tov Franz Rosenzweig Sigmund Freud and George Eliot into her pathbreaking discussion of the nature of reward and punishment good and evil Eros and Thanatos and humankind s intricate and ever fascinating encounter with the divine Treating Trauma Toni V.
