**The Waltons** Mike Chopra-Gant, 2013-04-16 The period in which The Waltons appeared on television screens was socially and politically volatile a testing time in which Americans grappled with stagflation rising oil prices defeat in Vietnam political corruption at the highest levels and the aftermath of the seismic political shifts that originated in the countercultural movements of the preceding decade In this fascinating book Mike Chopra Gant demonstrates how the Waltons offered 1970s America a reassuring vision of itself at this turbulent time and displayed a nostalgic desire for a return to traditional conservative and paternalistic family values in the face of the shifts taking place in society He examines its deployment of key myths of Americanness and positions the vision of family life offered by the show in the context of changing images of the family on television from the conformity of the 1950s family in shows like Father Knows Best through the strange families of the 1960s such as The Munsters and The Addams Family and through to contemporary representations exemplified by the dysfunctional families of The Simpsons Family Guy and American Dad He also explores the show's representations of masculinity through three generations of men and its ambiguous depiction of strong women whose demands for equality are met by apparent concessions that actually amount to a regressive restoration of female domesticity

*A Philosophy of Prayer* George Pattison, 2024-07-02 Exploring the silence of prayer in Post Kantian philosophy and traditional spirituality A Philosophy of Prayer explores prayer within the perspective of post Kantian philosophy Against a background of traditional sources including Augustine The Cloud of Unknowing and the seventeenth century French school of spirituality the book uses Schleiermacher Kierkegaard Dostoevsky Heidegger Berdyaev Tillich Marcel Simone Weil Emmanuel Levinas and Jean Louis Chr tien to provide an interpretation of what is meant by the passivity and self annihilation of the praying self suggesting an apophatics of the personality Pattison pays particular attention to the question of language and the implications of the role given to silence in traditional texts arguing that language remains a defining element of the human God relationship and that silence is not to be construed as the negation of language but as the revelation of the depth of language itself The basic structure of prayer is shown to be implicitly eschatological oriented toward a coming kingdom of justice and peace while at the same time expressing a deep desire for ontological homecoming a tension manifest in respectively Levinas and Heidegger On Pattison s reading prayer calls for and develops a particular orientation of the self toward existence corresponding to the virtue of humility long understood as the basic Christian virtue This is shown to be in tension with modernity s commitment to strong versions of autonomy However the choice of humility is not presented as the reinstatement of religious heteronomy but as a free choice of the praying self

**The Sentimental in Chinese Cinema** Hui Miao, 2022-03-30 This book explores manifestations and perpetuations of the sentimental in Mainland Chinese cinema from the 1990s to the 2000s A sentimental Chinese cinema one that articulates notions of homecoming and belonging emerged in the 1990s with its distinctive styles The representations

and configurations of this evolving style of Chinese cinematic expression are not only thought provoking in their own right but also in the way they contrast with past forms of Chinese sentimental cinema and with sentimental aesthetics elsewhere in the world. These new representations have transformed established family centred expressions of the sentimental in Chinese cinema. The new sentimental emphasises togetherness and a yearning for belonging which often appear in the themes of homecoming and home longing. This also forms a cultural resistance towards the increasingly alienating and isolating forces of globalisation and urbanisation. This book analyses the sociocultural conditions that have allowed for a renewed understanding of the sentimental and the cultural identity markers that are perpetually under contestation.
