Homeless Students:

Homeless Students, 1989 *Serving Students Who Are Homeless* Ronald Hallett, Linda Skrla, 2016 Schools and districts are seeing unprecedented numbers of students and families living without residential stability. Although the McKinney Vento Act has been around for over two decades, many district and site level practitioners have a difficult time interpreting and implementing the Act's mandates within their local contexts. This book provides much needed guidance to help educational leaders support students who are homeless and highly mobile students who face significant barriers related to access and academic success. The authors employ several different strategies to help translate complex state and federal policies into effective practices. They include policy analysis, examples of successful approaches, tools for training staff, youth experiences, and address the role of school districts in serving marginalized students. *Serving Students Who Are Homeless* can be used as a professional development tool at the local and district level and as a textbook in higher education settings that prepare entry level and advanced credential administrators, counselors, school psychologists, and curriculum leaders. **Book Features:** Guidance for understanding and implementing the law and tools for training staff; Case studies that include the voices of students, families, and practitioners; Questions and activities to facilitate professional development discussions. I have worked in this realm for more than a decade and sadly the numbers of homeless families and children continue to rise. The information and strategies identified within the pages of this book will prove to be an invaluable resource to the work of counselors, school personnel, teachers, administrators, and advocates for homeless students. Melissa Schoonmaker, Los Angeles County Office of Education. Homelessness brings an array of daunting challenges to students, families, and schools. As more and more communities are experiencing these challenges throughout the US, Dr. Hallett and Dr. Skrla have skillfully developed a critical new resource that can help those in most need. I admire their work. Peter Miller, University of Wisconsin-Madison. Homelessness Comes to School Joseph Murphy, Kerri Tobin, 2011-03-23 This seminal work on homeless students and our responsibility to them provides far reaching research, effective intervention programs, and guidelines for teaching homeless students. **Student Engagement in Higher Education** Stephen John Quaye, Shaun R. Harper, 2014-08-15 *Student Engagement in Higher Education* fills a longstanding void in the higher education and student affairs literature. In the fully revised and updated edition of this important volume, the editors and chapter contributors explore how diverse populations of students experience college differently and encounter group specific barriers to success. Informed by relevant theories, each chapter focuses on engaging a different student population including low income students, students of color, international students, students with disabilities, LGBT students, religious minority students, student athletes, homeless students, transfer students, commuter and part time students, adult learners, student veterans, and graduate students. The forward thinking, practical strategies offered throughout the book are based on research and the collected professional wisdom of experienced educators and scholars at two year and four year institutions of higher education. Current and future

faculty administrators and student affairs staff will undoubtedly find this book complete with fresh ideas to reverse troubling engagement trends among various college student populations
