**Basic Training** Sandy Bell, 2020-04-29 In writing this manual it is my hope to deliver a clear understanding of the why and how the church is to minister to those in need of healing We need to have a better understanding of what healing may or may not look like This manual was written for the purpose of training Jesus's disciples in the ministry of healing Inside these pages are a toolbox that can be used anywhere at any time We must understand as Christ's disciples on the frontlines of life the key to all healing is not in anything we do except to flow with what Jesus is doing through our relationship with him His ways are not our ways He will go to any length to accomplish what

is needed to have a relationship with those He loves Every healing will be according to the will and purposes of God It is essential that the reader knows the One who is the source of all healing physical emotional mental and spiritual We become whole in body soul and spirit because it is God s desire and Jesus s sacrifice El Roi knows us and our troubles It was the great commission that Jesus commanded His disciples to preach the Gospel to all people Whoever believes the good news and is baptized will be saved and whoever does not believe will be condemned Miracle signs will accompany those who believe They will drive out demons speak in tongues protected from snakes and from drinking anything poisonous They will lay hands on the sick diseased and dis eased and heal them It is my prayer that you will be blessed with a deeper level of wisdom knowledge and revelation from God to minister wholeness to others as the Holy Spirit leads you in the ministry of healing

[Men-Tsee-Khang-ྐྱོག་ལྷ་མོ་] Dr. (Ms.) Tenzin Choying, HoD, BML Dept, TASP (Ms.) Sonam Tsamchoe, BML Dept, Dr. (Mr.) Tsultrim Namgyal, BML Dept, Mr. Tenzin Kalden, Translator, BML Dept,2020-03-23 MESSAGE OF HIS HOLINESS THE 14TH DALAI LAMA Leaving aside the complex question of the creation and evolution of our universe we can at least agree that each of us is the product of our own parents In general our conception took place not just in the context of sexual desire but from our parents decision to have a child Such decisions are founded on responsibility and altruism the parent s compassionate commitment to care of their child until it is able to take care of itself Thus from the very moment of our conception our parents love is directly in our creation Moreover we are completely dependent upon our mothers care from the earliest stages of our growth According to some scientists a pregnant woman s mental state be it calm or agitated has a direct physical effect on her unborn child The expression of love is also very important at the time of birth Since the very first thing we do is suck milk from our mothers breast we naturally feel close to her and she must feel love for us in order to feed us properly if she feels anger or resentment her milk may not flow freely Then there is the critical period of brain development from the time of birth up to at least the age of three or four during which time loving physical contact is the single most important factor for the normal growth of the child If the child is not held hugged cuddled or loved its development will be impaired and its brain will not mature properly Since a child cannot survive without the care of others love is its most important nourishment The happiness of childhood the allaying of the child s many fears and the healthy development of its self confidence all depend directly upon love Nowadays many children grow up in unhappy homes If they do not receive proper affection in later life they will rarely love their parents and not infrequently will find it hard to love others This is very sad As children grow older and enter school their need for support must be met by their teachers If a

teacher not only imparts academic education but also assumes responsibility for preparing students for life his or her pupils will feel trust and respect and what has been taught will leave an indelible impression on their minds On the other hand subjects taught by a teacher who does not show true concern for his or her students overall well being will be regarded as temporary and not retained for long Above is an excerpt from the section on Articles and messages relating to His Holiness the Dalai Lama s commitment to promote basic human values <https://www.dalailama.com/messages/compassion-and-human-values/compassion>      *Fundamentals of Complementary and Alternative Medicine - E-Book* Marc S.
