Back to the Land Dona Brown, 2011-06-01 For many going back to the land brings to mind the 1960s and 1970s hippie communes and the Summer of Love The Whole Earth Catalog and Mother Earth News More recently the movement has reemerged in a new enthusiasm for locally produced food and more sustainable energy paths But these latest back to the landers are part of a much larger story Americans have been dreaming of returning to the land ever since they started to leave it In *Back to the Land* Dona Brown explores the history of this recurring impulse Back to the landers have often been viewed as nostalgic escapists or romantic nature lovers But their own words reveal a more complex story In such projects as Gustav Stickley's Craftsman Farms Frank Lloyd Wright's Broadacre City and Helen and Scott Nearing's quest for the good life Brown finds that the return to the farm has meant less a going backwards than a going forwards a way to meet the challenges of the modern era Progressive reformers pushed for homesteading to help impoverished workers get out of unhealthy urban slums Depression era back to the landers wary of the centralizing power of the New Deal embraced a new third way politics of decentralism and regionalism Later still the movement merged with environmentalism To understand Americans response to these back to the land ideas Brown turns to the fan letters of ordinary readers retired teachers and overworked clerks recent immigrants and single women In seeking their rural roots Brown argues Americans have striven above all for the independence and self sufficiency they associate with the agrarian ideal Best Books for General Audiences selected by the American Association of School Librarians *At Home in Nature* Rebecca Kneale Gould, 2005-10-24 Gould's attention to the ironies and ambivalences that abound in the practice of homesteading provides fresh and insightful perspective Beth Blissman Oberlin College This luminously written ethnography of the worlds that homesteaders make significantly broadens our understanding of modern American religion In richly textured descriptions of the everyday lives and work of the homesteaders with whom she lived Gould helps us understand how the tasks of clearing land making bread and building a garden wall were ways of taking on the most urgent issues of meaning and ethics Robert A Orsi Harvard University This is a fascinating authoritative and accessible look at one of America's most important subcultures If you ever get around to building that cabin in the woods or especially if you don't you'll want this volume on the bookshelf Bill McKibben author of *Wandering Home A Long Walk Across America's Most Hopeful Landscape* Rebecca Gould's compelling book on American homesteading brings the study of the religion nature connection in the U S to a new place Catherine L Albanese author of *Nature Religion in America From the Algonkian Indians to the New Age* Gould provides brand new data and sheds new interpretive light on familiar figures and movements *At Home in Nature* is a model of how to seamlessly blend

ethnography and history Bron Taylor University of Florida editor of the Encyclopedia of Religion and Nature **Lived Religion in America** David D. Hall, 2020-09-01 At once historically and theoretically informed these essays invite the reader to think of religion dynamically reconsidering American religious history in terms of practices that are linked to specific social contexts The point of departure is the concept of lived religion Discussing such topics as gift exchange cremation hymn singing and women's spirituality a group of leading sociologists and historians of religion explore the many facets of how people carry out their religious beliefs on a daily basis As David Hall notes in his introduction a history of practices encompasses the tensions the ongoing struggle of definition that are constituted within every religious tradition and that are always present in how people choose to act Practice thus suggests that any synthesis is provisional The volume opens with two essays by Robert Orsi and Dani le Hervieu L ger that offer an overview of the rapidly growing study of lived religion with Hervieu L ger using the Catholic charismatic renewal movement in France as a window through which to explore the coexistence of regulation and spontaneity within religious practice Anne S Brown and David D Hall examine family strategies and church membership in early New England Leigh Eric Schmidt looks at the complex meanings of gift giving in America Stephen Prothero writes about the cremation movement in the late nineteenth century In an essay on the narrative structure of Mrs Cowman's Streams in the Desert Cheryl Forbes considers the devotional lives of everyday women Michael McNally uses the practice of hymn singing among the Ojibwa to reexamine the categories of native and Christian religion In essays centering on domestic life Rebecca Kneale Gould investigates modern homesteading as lived religion while R Marie Griffith treats home oriented spirituality in the Women's Aglow Fellowship In Golden Rule Christianity Nancy Ammerman talks about lived religion in the American mainstream *Letter to a Young Farmer* Gene Logsdon, 2017-01-26 In the midst of our epidemic fear of the future and its so far predicted emergencies and catastrophes here is Gene patiently quietly with the right touch of merriment talking about the small really possible ways of solving our one great problem how to live on the Earth without destroying it Wendell Berry from the foreword For more than four decades the self described contrary farmer and writer Gene Logsdon has commented on the state of American agriculture In *Letter to a Young Farmer* his final book of essays Logsdon addresses the next generation young people who are moving back to the land to enjoy a better way of life as small scale garden farmers It's a lifestyle that isn't defined by accumulating wealth or by the get big or get out agribusiness mindset Instead it's one that recognizes the beauty of nature cherishes the land respects our fellow creatures and values rural traditions It's one that also looks forward and embraces right technologies including new and innovative ways of working smarter not harder and avoiding premature burnout Completed only a few weeks before the author's death *Letter to a Young Farmer* is a remarkable testament to the life and wisdom of one of the greatest rural philosophers and writers of our time Gene's earthy wit and sometimes irreverent humor combines with his valuable perspectives on many wide ranging subjects everything from how to show a ram who's boss to enjoying the almost churchlike calmness of a well built livestock

barn Reading this book is like sitting down on the porch with a neighbor who has learned the ways of farming through years of long observation and practice Someone in short who has seen it all and has much to say and much to teach us if we only take the time to listen and learn And Gene Logsdon was the best kind of teacher equal parts storyteller idealist and rabble rouser His vision of a nation filled with garden farmers based in cities towns and countrysides will resonate with many people both young and old who long to create a more sustainable meaningful life for themselves and a better world for all of us Sagacious and sly practical and poetic Logsdon s voice may have been contrarian but it was never condescending Booklist

The Human-Powered Home Tamara Dean,2008-11-01 A complete guide to modern pedaled powered treadled and hand cranked devices for the home What if I could harness this energy An unusual question for anyone putting in a long stint on a treadmill perhaps and yet human power is a very old practical and empowering alternative to fossil fuels Replacing motors with muscles can be considered a political act an act of self sufficiency that gains you independence The Human Powered Home is a one of a kind compendium of human powered devices gathered from a unique collection of experts Enthusiasts point to the advantages of human power Portable and available on demand Close connection to the process or product offers more control Improved health and fitness The satisfaction of being able to make do with what is available This book discusses the science and history of human power and examines the common elements of human powered devices It offers plans for making specific devices grouped by area of use and features dozens of individuals who share technical details and photos of their inventions For those who want to apply their own ingenuity or for those who have never heard of human powered machines this book is a fine reference For those who are beginning to understand the importance of a life of reduced dependency on fossil fuels this book could be a catalyst for change Gene Everlasting Gene Logsdon,2014 Gene Everlasting contains Logsdon s reflections by turns both humorous and heart wrenching on nature death and eternity all from a contrary farmer s perspective He recounts joys and tragedies from his childhood in the 1930s and 40s spent on an Ohio farm through adulthood and child raising all the way up to his recent bout with cancer always with an eye toward the lessons that farming has taught him about life and its mysteries [www Amazon com](http://www.amazon.com) **Housing and Planning References** United States. Owings,1997 Ever since Henry David Thoreau penned his masterpiece Walden a chronicle of his two year sojourn in the woods of Concord Massachusetts Americans have yearned for a return to pastoral life to a place where the simplicities and beauty of nature dictate a quality of life not found in modern urban America The metaphor of Walden inspired many to seek out and write about country life and the back to the land movement in America This is the first book length study of that interesting genre the country book written primarily for urban dwellers It gives detailed content analyses of both country life essays and guides to country living from 1863 through 1995 **A Sanctuary of Trees** Gene

Logsdon,2012 Whether as an adolescent studying at a seminary or as a journalist living just outside Philadelphia s city limits Gene has always lived and worked close to the woods and his curiosity and keen sense of observation have taught him valuable lessons about a wide variety of trees their distinct characteristics and the multiple benefits and uses they have In addition to imparting many fascinating practical details of woods wisdom A Sanctuary of Trees is infused with a philosophy and descriptive lyricism that is born from the author s passionate and lifelong relationship with nature There is a point at which the tree shudders before it begins its descent Then slowly it tips picks up speed often with a kind of wailing death cry from rending wood fibers and hits the ground with a whump that literally shakes the earth underfoot The air in the aftermath seems to shimmy and shiver as if saturated with static electricity
