**William R. Pinch**

## **Homo Hierarchicus:**

*Homo Hierarchicus* Louis Dumont, 1980 Louis Dumont's modern classic here presented in an enlarged revised and corrected second edition simultaneously supplies that reader with the most cogent statement on the Indian caste system and its organizing principles and a provocative advance in the comparison of societies on the basis of their underlying ideologies Dumont moves gracefully from the ethnographic data to the level of the hierarchical ideology encrusted in ancient religious texts which are revealed as the governing conception of the contemporary caste structure On yet another plane of analysis homo hierarchicus is contrasted with his modern Western antithesis homo aequalis This edition includes a lengthy new Preface in which Dumont reviews the academic discussion inspired by *Homo Hierarchicus* and answers his critics A new Postface which sketches the theoretical and comparative aspects of the concept of hierarchy and three significant Appendixes previously omitted from the English translation complete this innovative and influential work **Homo**

To Take Place Jonathan Z. Smith, 1987 In this broad ranging inquiry into ritual and its relation to place Jonathan Z. Smith prepares the way for a new approach to the comparative study of religion Smith stresses the importance of place in particular constructed ritual environments to a proper understanding of the ways in which empty actions become rituals He structures his argument around the territories of the Tjilpa aborigines in Australia and two sites in Jerusalem the temple envisioned by Ezekiel and the Church of the Holy Sepulchre The first of these locales the focus of one of the more important contemporary theories of religious ritual allows Smith to raise questions concerning the enterprise of comparison His close examination of Eliade's influential interpretation of the Tjilpa tradition leads to a powerful critique of the approach to religion myth and ritual that begins with cosmology and the category of The Sacred In substance and in method *To Take Place* represents a significant advance toward a theory of ritual It is of great value not only to historians of religion and students of ritual but to all whether social scientists or humanists who are concerned with the nature of place This book is extraordinarily stimulating in prompting one to think about the ways in which space or place is perceived marked and utilized religiously A provocative example of the application of humanistic geography to our understanding of what takes place in religion Dale Goldsmith Interpretation *The Oxford Handbook of Caste* Surinder S. Perfect Order J. Stephen Lansing, 2012-09-16 Along rivers in Bali small groups of farmers meet regularly in water temples to manage their irrigation systems They have done so for a thousand years Over the centuries water temple networks have expanded to manage the ecology of rice terraces at the scale of whole watersheds Although each group focuses on its own problems a global solution nonetheless emerges that optimizes irrigation flows for everyone Did someone have to design Bali's water temple networks or could they have emerged from a self organizing process Perfect Order a groundbreaking work at the nexus of conservation complexity theory and anthropology describes a series of fieldwork projects triggered by this question ranging from the archaeology of the water temples to their ecological functions and their place in Balinese cosmology Stephen Lansing shows that the temple networks are fragile vulnerable to the cross currents produced by competition among male descent groups But the feminine rites of water temples mirror the farmers awareness that when they act in unison small miracles of order occur regularly as the jewel like perfection of the rice terraces produces general prosperity Much of this is barely visible from within the horizons of Western social theory The fruit of a decade of multidisciplinary research this absorbing book shows that even as researchers probe the foundations of cooperation in the water temple networks the very existence of the traditional farming techniques they represent is threatened by large scale development projects

Persisting Patriarchy Kochurani Abraham, 2019-08-08 This book examines the operational dynamics of patriarchy that is deeply woven into the Indian cultural fabric and its persistence in spite of women advancing in Human Development Indices In studying the situation of women of the Catholic Syrian Christian community of Kerala South India as a case of analysis Kochurani Abraham identifies caste consciousness and religious prescriptions of this community as the main factors that intersect with gendered identity construction and succeed in keeping women within its patriarchal confines While women do engage in negotiating patriarchy through what can be termed simulative tactical and agensic bargains this remains a politics of survival as it does not challenge the established gender order In this context making a shift from politics of survival to a politics of subversion is

Experiments in Holism Experiments in Holism Theory and Practice in Contemporary Anthropology presents a series of essays that critically examine the ongoing relevance of holism and its theoretical and methodological potential in today s world Contributions from a diverse collection of leading anthropologists reveal how recent critiques of the holistic approach have not led to its wholesale rejection but rather to a panoply of experiments that critically reassess and reemploy holism The essays focus on aspects of holism including its utilization in current ethnographic research holistic considerations in cultural anthropology the French structuralist tradition the predominantly English tradition of social anthropology and many others Collectively the essays show how holism is simultaneously central to and problematically a part of the theory and practice of anthropology Experiments in Holism reveals how contemporary attempts to rescale and retool anthropology entail new ways of coming to terms with anthropology s heritage of holism seeking to obviate its current excesses while recapturing its critical potential to meet the challenges of our contemporary world **Asian Perspectives On Human Rights** Claude Welch,2021-11-28 Analyzes Asian perspectives on human rights in terms of cultural traditions grassroots and regional organizations and economic constraints on the expression of rights The book asks are human rights western in their inception are they universal or do they differ by region and culture **Peasants and Monks in British India** William R. Pinch,1996-06-18 In this compelling social history William R Pinch tackles one of the most important but most neglected fields of the colonial history of India the relation between monasticism and caste The highly original inquiry yields rich insights into the central structure and dynamics of Hindu society insights that are not only of scholarly but also of great political significance Perhaps no two images are more associated with rural India than the peasant who labors in an oppressive inflexible social structure and the ascetic monk who denounces worldly concerns Pinch argues that contrary to these stereotypes North India s monks and peasants have not been passive observers of history they have often been engaged with questions of identity status and hierarchy particularly during the British period Pinch s work is especially concerned with the ways each group manipulated the rhetoric of religious devotion and caste to further its own agenda for social reform Although their aims may have been quite different Ramanandi monastics worked for social equity while peasants agitated for higher social status the strategies employed by these two communities shaped the popular political culture of Gangetic north India during and after the struggle for independence from the British Social Theory Peter Beilharz,2020-07-22 An alluvial goldfield of social theorists nuggets lying around all over the place Bob Connell Who s who in the social theory zoo This book introduces some of the leading social theorists in short lively entries by leading Australian scholars Social Theory covers thinkers from Althusser to Williams by locals from Alexander to Yeatman For beginner and enthusiast alike it gives a sense of the state of the art in classical and modern social theory Social Theory is an indispensable reference for undergraduates postgraduates academics and anyone else interested in the ideas behind social and political

theory and cultural studies today      *By Weapons Made Worthy* Jos Bazelmans,1999 In this book Jos Bazelmans offers a new perspective on the relationship between lord and retainer in early medieval society This perspective goes beyond established politico economic interpretations and aims for an interpretation of this relationship in ritual cosmological terms Drawing on recent developments within French structuralist anthropology and the anthropology of gift exchange Bazelmans develops a new model of early medieval socio political structure as represented in Old English Beowulf which explicitly deals with exchange relations between the living and the supernatural the commensurability of subject and object in gift exchange and the whole set of interdependent life cycle rituals of lords and their warrior followers The value of gifts is considered to be determined not only by their function within a competitive game about prestige status and power but also by its equivalence with a constituent The value of the gift is fundamental to the noble person and develops through a man s life time It is ultimately of a supernatural origin The model enables us to understand certain acts at Beowulf s funeral pyre which at first sight appear to be no more than an ethnographic curiosity Beowulf 3111b 3114a The warrior s contributions to his pyre form the concluding part of a grand ritual undertaking in which society as a whole is involved and in which the constitution of the noble person and the disarticulation of that person at his death is realized This ritual undertaking goes beyond the politico economic concerns of the participants which are central to established power based models of early medieval societal structure The volume includes an extensive overview of the anthropology of gift exchange      *Dumont on Religion* Ivan Strenski,2014-12-05 Louis Dumont was a prominent anthropologist and sociologist whose work notably on Indian society influenced the study of religion Dumont on Religion introduces Dumont s work on kinship studies structural theory and his views on idealism Subjects of particular interest to students of religion are highlighted including Dumont s concepts of the sacred and profane pure and impure transcendence values and hierarchy The book also presents the ethical implications of Dumont s ideas and his comparison between the world views of modern and traditional societies      **Models of Management** Mauro F. Guillén,1994-10-15 This work explores differing historical patterns in the adoption of the three major models of organizational management scientific management human relations and structural analysis The author takes a fresh look at how managers have used these models in four countries during the 20th century
