The Gold of the North Joan H. Parks, 2015-10-26. Alimah, torn between her love for Kalik and her need to develop her gifts for song and dance, stays in The Land of the One River. With her Uncle Bakiri and a small band of protectors, they stay near the school where she can learn more of her arts. Enemies lurk at the school, but neither she nor Bakiri can tell who they are or why Alimah is the target. At the school, she and The Golden One, who comes from the far north, are dazzled by each other and both shunned by the other students. They become friends. Attacked, he escapes to warn Alimah and her protectors of her danger. Still not knowing the reasons, Bakiri, The Golden One, and Alimah, and all their protectors, seek refuge in the homes of those who breed and protect the famous war mares. They are hunted by those who wish to capture them. Thrown together by violence and constantly on the move, Alimah and Havardr witness the savage forces let loose by the Great Destruction. They come together at the end of the late bronze age, where the world that they knew is being destroyed. These two lovers must make hard choices between the desires of their hearts and the duties that they owe to their own kin. If they part as it seems they must, they will never hold each other again. But unseen by others, deep in their hearts, the memories will endure.

Rough-Hewn Land Keith Heyer Meldahl, 2013-05 Rough Hewn Land tells the geologic story of the American West the story of its rocks rivers mountains earthquakes and mineral wealth including gold It tells it by taking you on a 1000 mile long field trip across the rough side of the continent from the California coast to the Rocky Mountains This book puts you on the outcrop geologic hammer in hand to explore the evidence for how the spectacular rough hewn lands of the West came to be When North America broke free from Eurasia and Africa some 200 million years ago it triggered a cascade of violent geologic events that shaped the West we see today As the west moving continent crunched across the seabed of the ancient Pacific islands and assorted pieces of ocean floor collected against its prow to build California and plant gold there too Meanwhile mountains squeezed upward from California to Colorado and vast quantities of molten rock seeded the crust with precious metals while spewing volcanic fire across the land Later the land stretched like an accordion to form the washboard like Basin and Range province and Great Basin within it while California began to crackle along the San Andreas fault Throughout the West today a near constant drumroll of earthquakes testifies to a world still reshaping itself in response to the ceaseless movements of the Earth s tectonic plates Rough Hewn Land weaves these stories into the human history of the West As we follow the adventures of John C Fr mont Mark Twain the Donner party and other historic characters we see how geologic forces have shaped human experience just as they direct the fate of the West today
