

YOUR PREDICAMENT

When the game begins, you find yourself on a strange planet in a strange universe with a strong desire to return to your own home. Luckily, the local gods are friendly and make available to you a spaceship, a gun and an unending pool of energy. (Look around the planet for them!)

Additionally, they come to an agreement to return you to your own universe if you travel to the various planets in their universe and acquire for them the many treasures to be found. You must, therefore, (1) find your gun, (2) board your spaceship and (3) find, Land on and conquer other planets. A planet is conquered after you capture that planet's treasure (prize) and return it to your ship. After all planets have been conquered, return to the original planet and convince the gods to keep their end of the bargain and send you home.

MOVING YOUR PLAYER

Your player appears only on planet surfaces and can be moved left or right by corresponding joystick movement. Up and down joystick directions usually are not required, but in special cases they may prove useful.

Each planet has five separate scenes. Walking off the TV screen in one direction automatically places you in the adjacent scene. When the edge of a planet is reached, you will be stopped from going any further . . . so don't worry about falling off the edge of a world.

GUN CONTROL

Once your gun is picked up, it remains with you for the entire game. Aim your gun by pressing the joystick button and keeping it pressed. The gun can then be pointed in one of three directions. Pressing the joystick up points the gun up. Pressing the joystick in the direction you are facing points the gun at an upward angle of 45 degrees. Pressing the joystick down points the gun horizontally. You cannot make the gun point downwards. To fire the gun, release the joystick button.
