Symphony in C: Carbon and the Evolution of (Almost) Everything Robert M. Hazen,2019-06-11 A Science News Favorite Book of 2019 An earth scientist reveals the dynamic biography of the most resonant and most necessary chemical element on Earth Carbon It s in the fibers in your hair the timbers in your walls the food that you eat and the air that you breathe It s worth billions of dollars as a luxury and half a trillion as a necessity but there are still mysteries about the element that can be both diamond and coal Where does it come from what does it do and why above all does life need it With poetic storytelling Robert M Hazen leads us on a global journey through the origin and evolution of life s most essential and ubiquitous element

Pyramids of the Dead Sarah Davis,AI,2025-02-20 Pyramids of the Dead explores why ancient cultures worldwide invested vast resources in pyramid construction linking them to death the afterlife and spiritual beliefs These structures weren t just tombs they were powerful symbols reflecting complex cosmological views and societal frameworks Intriguingly the book highlights that while pyramid construction varied across cultures like Egypt and Mesoamerica common threads reveal universal human concerns about mortality and the divine This book uniquely examines pyramids as a global phenomenon shaped by shared human preoccupations approached through a multidisciplinary lens including archaeology and comparative religious studies It emphasizes the historical and social contexts of pyramid construction delving into early civilizations religious systems and monumental architecture s role in asserting power The book progresses by first introducing pyramids as symbolic structures then exploring associated funerary rituals and finally synthesizing the evidence through comparative analysis
