recognition of his work both in South Africa and Canada This publication is unique in that apart from relevant disciplinary perspectives biographical and autobiographical narrative and anecdote all constitute a necessary means through which the authors illuminate Kloppers compositional process and its creative outcomes In this regard Kloppers generously dedicated his time to the project to make information on his life and work available often in complex ways This retrospective input supports the work offered as an authentic self reflective recounting of a life of dedicated service in music The construct of nostalgia as an overarching theme to this volume on some level denotes Kloppers position of cultural and religious insidedness and outsidedness However apart from representing a return to a lost and challenging past the composer s creative work affirms his individuality sense of artistic self and propensity for spiritual acceptance and tolerance Moreover nostalgia in his oeuvre takes on importance as a rhetorical artistic practice by which continuity is as central as discontinuity
