Juan De La Rosa:

Wounds of Love Frank Graziano, 2004 St Rose of Lima Isabel Flores y Oliva 1586 1617 was canonized in 1671 as the first saint of the New World and Patron of the Americas In this engrossing new biography Frank Graziano offers the most comprehensive examination of the life of Rose to appear in any language An obscure self mortifying mystic Rose seems a strange choice for the distinction of first American saint Graziano argues that the cult that grew up around St Rose during her life and greatly expanded after her death was seen by both Church and State as a challenge and even a threat to authority For that reason he contends the Church acted quickly to render her harmless by bringing her into the fold Graziano goes on to consider Rose s ascetic Christianity in its cultural context He seeks to discover why the severe austerities and mortifications of female piety that today are regarded as psychopathological were lauded as exemplary means of worship in the seventeenth century In fact he shows St Rose s behavior and experiences were initially regarded as pathological by many significant observers within her own culture but such assessments were gradually dismissed as her saintly image was constructed Drawing on key archival sources and the insights offered by psychoanalytic theory Graziano constructs a compelling portrait of one of the Catholic Church s most beloved saints

Unexpected Voices in Imperial Parliaments Josep M. Fradera, José María Portillo, Teresa Segura-Garcia, 2021-06-03 This collection follows the extraordinary careers of nine colonial subjects who won seats in high level parliamentary institutions of the imperial powers that ruled over them Revealing an unexplored dimension of the complex political organisation of modern empires the essays show how early imperial constitutions allowed for the emergence of these unexpected members of parliament asks how their presence was possible and unveils the reactions across metropolitan circles local communities and the voters who brought them to office Unearthing the entanglements between political life in metropolitan and non European societies it illuminates the ambiguous zones the margins for negotiation and the emerging forms of leadership in colonial societies From a Hispanicised Inca nobleman to recently emancipated slaves and African colonial subjects in linking these individuals and their political careers together Unexpected Voices in Imperial Parliaments argues that the political organisation of modern empires incorporated the voices of the colonised and the non European in an ambiguous relationship that led to a widening of political participation and action throughout the imperial world In doing so this book offers a comprehensive but nuanced reassessment of the making and unmaking of modern empires

Arbitration Guatemala,1932 Indigenous Autocracy Jaclyn Sumner,2023-11-14 When General Porfirio Díaz assumed power in 1876 he ushered in Mexico's first prolonged period of political stability and national economic growth though progress came at the cost of democracy Indigenous Autocracy presents a new story about how regional actors negotiated between national authoritarian rule and local circumstances by explaining how an Indigenous person held state level power in Mexico during the thirty five year dictatorship that preceded the Mexican Revolution the Porfiriato and the apogee of scientific racism across Latin America Although he was one of few recognizably Indigenous persons in office Próspero Cahuantzi of Tlaxcala kept his position 1885-1911 longer than any other gubernatorial appointee under Porfirio Díaz's transformative but highly oppressive dictatorship 1876-1911 Cahuantzi leveraged his identity and his region's Indigenous heritage to ingratiate himself to Díaz and other nation building elites Locally Cahuantzi navigated between national directives aimed at modernizing Mexico often at the expense of the impoverished rural majority and strategic management of Tlaxcala's natural resources in particular balancing growing industrial demand for water with the needs of the local population Jaclyn Ann Sumner shows how this intermediary actor brokered national expectations and local conditions to maintain state power challenging the idea that governors during the Porfirian dictatorship were little more than provincial stewards who repressed dissent Drawing upon documentation from more than a dozen Mexican archives the book brings Porfirian era Mexico into critical conversations about race and environmental politics in Latin America **Catalog of Copyright Entries** Library of Congress.
