Judgement Of Jupiter:

Judgement of Jupiter Richard A. Tilms,1980 A learned astronomical discourse of the judgement of Nativities ...
Translated from the Latin by F. Kelway Auger FERRIER,1642 **Fake Physics: Spoofs, Hoaxes and Fictitious Science**
Andrew May,2019-04-12 People are used to seeing fake physics in science fiction concepts like faster than light travel
antigravity and time travel to name a few The fiction label ought to be a giveaway but some SF writers especially those with a
background in professional science are so adept at technobabble that it can be difficult to work out what is fake and what is
real To confuse matters further Isaac Asimov s 1948 piece about the fictitious time travelling substance thiotimoline was
written not as a short story but in the form of a spoof research paper The boundaries between fact and fiction can also be
blurred by physicists themselves sometimes unintentionally sometimes with tongue in cheek sometimes to satirize perceived
weaknesses in research practices Examples range from hoaxes aimed at exposing poor editorial standards in academic
publications through thought experiments that sound like the plot of a sci fi movie to April Fools jokes Even the latter may
carry a serious message whether about the sociology of science or poking fun at legitimate but far out scientific hypotheses
This entertaining book is a joyous romp exploring the whole spectrum of fake physics from science to fiction and back again

The Black Death, 2013-01-01 This series provides texts central to medieval studies courses and focuses upon the diverse cultural, social and political conditions that affected the functioning of all levels of medieval society. Translations are accompanied by introductory and explanatory material and each volume includes a comprehensive guide to the sources, interpretation including discussion of critical linguistic problems and an assessment of recent research on the topics covered. From 1348 to 1350 Europe was devastated by an epidemic that left between a third and one half of the population dead. This source book traces through contemporary writings the calamitous impact of the Black Death in Europe with a particular emphasis on its spread across England from 1348 to 1349. Rosemary Horrox surveys contemporary attempts to explain the plague which was universally regarded as an expression of divine vengeance for the sins of humankind. Moralists all had their particular targets for criticism. However, this emphasis on divine chastisement did not preclude attempts to explain the plague in medical or scientific terms. Also, there was a widespread belief that human agencies had been involved and such scapegoats as foreigners, the poor and Jews were all accused of poisoning wells. The final section of the book charts the social and psychological impact of the plague and its effect on the late medieval economy.

Fate and the Hero in Virgil's Aeneid Graham Zanker,2023-04-13 This book explores how Virgil in his Aeneid incorporates the ancient Stoics thinking about how humans can exercise moral responsibility and how this can affect providential world fate The third century BC philosopher Chrysippus of Soli located this freedom in the way we can assent to courses of action and Graham Zanker innovatively demonstrates how Virgil appropriates this concept in the way that Jupiter and Aeneas can assent to the world fate in which they have discovered they must play a part or Juno and Dido can withhold their assent to it Indeed Virgil even offers the model to no one less than Augustus the emperor is invited to give his assent to ruling what was believed to be his world wide empire justly The book is accessible to both students and professional scholars of the Aeneid with all Greek and Latin translated into idiomatic English
