*Judging Delinquents* Robert M. Emerson, 1969      Judging Delinquents Robert M. Emerson, Juvenile court has elicited the interest and criticism of lawyers social workers and criminologists but less attention from sociologists This book adds to growing sociological literature on the operations of legal institutions It describes some critical aspects of the functioning of the juvenile court an institution charged with judging and treating delinquents To this end it analyzes the nature of the court operation the handling of delinquents and the court s functions in relation to the wider social and legal system This study reflects two distinct sociological heritages First it presents an institutional analysis of a juvenile court One basic component of such an analysis involves description of the social context within which the juvenile court functions In this way this book considers the nature of the court s relations with the various local institutions in its working environment and the consequences of these relations for its internal operations Second this study grows out of the current societal reaction approach to deviance This approach views deviance as the product of the response of official agents of social control to perceived norm violations deviance involves acts and actors reacted to and labeled as such usually by these officials In line with this general perspective this study seeks to shed light on some of the processes by which youths come to be identified and officially labeled delinquents changing the legal and social status of those accused of wrongdoing This study focuses on how a particular legal institution defines reacts to and deals with the cases brought to its attention whatever the inherent biases of this sample and whatever the ultimate consequences for youths so handled It describes the processes that produce differential case outcomes outcomes whereby some delinquents emerge from their court encounter firmly identified as future criminals while others escape unharmed not regarded as really delinquent despite the formal adjudication to this effect

The Contexts of Juvenile Justice Decision Making Michael J. Leiber, 2012-02-01 An in depth examination of the contextual nature of decision making and the causes of disproportionate minority confinement in four relatively homogenous juvenile courts in Iowa this book explores the subjective social psychological processes of juvenile court officers and the factors that influence those processes Iowa although a state with a predominantly white population has one of the highest minority incarceration rates for juveniles Michael J Leiber focuses on the relationships between adherence to correctional orientations such as retribution and rehabilitation and decision makers views concerning race crime family and respect for authority with judgments and differential outcomes for youth Quantitative and qualitative methodologies are used to determine the extent to which correctional ideologies and decision makers stereotyping of minorities are fueled by a wide range of contingencies the impact of case processing and outcomes of whites African Americans and Native Americans and how it varies by jurisdiction      Judging Delinquents; Context and Process in Juvenile Court [by] Robert M. **Contextual Characteristics in Juvenile Sentencing** Rimonda Maroun, 2019-02-25 While there is extensive research published concerning juvenile justice and sentencing most of the research focuses on individual and extra legal factors such

as age race and gender with scant attention paid to the impact of macro level factors This book assesses how a specific contextual factor concentrated disadvantage impacts juvenile court outcomes and considers the relevant implications for the current state of juvenile justice processing Using case level data from a Southern state with a large diverse population and contextual level data from the 2010 US Census and American Community Survey Maroun assesses whether youth living in neighborhoods of concentrated disadvantage experience harsher outcomes than their counterparts from other types of neighborhoods Additionally she examines whether concentrated disadvantage interacts with individual race ethnicity to influence juvenile court outcomes Results suggested a direct impact of concentrated disadvantage on diversion adjudication and probation type Further race significantly interacted with concentrated disadvantage in impacting adjudication and probation outcomes while ethnicity significantly interacted with concentrated disadvantage in impacting disposition and commitment type This research expands the knowledge of macrolevel influences on juvenile court outcomes providing support for the notion that community context impacts juvenile justice processing Results also highlight the fact that judges use discretion as well as other legal and extralegal factors in exerting social control and do so differently at each stage of processing This monograph is essential reading for those engaged in youth and juvenile justice efforts and scholars interested in issues surrounding race class social policy and justice

*Courting Kids* Carla J. Barrett, 2013-01-01 Despite being labeled as adults the approximately 200 000 youth under the age of 18 who are now prosecuted as adults each year in criminal court are still adolescents and the contradiction of their legal labeling creates numerous problems and challenges In *Courting Kids* Carla Barrett takes us behind the scenes of a unique judicial experiment called the Manhattan Youth Part a specialized criminal court set aside for youth prosecuted as adults in New York City Focusing on the lives of those coming through and working in the courtroom Barrett s ethnography is a study of a microcosm that reflects the costs challenges and consequences the tough on crime age has had especially for male youth of color She demonstrates how the court through creative use of judicial discretion and the cultivation of an innovative courtroom culture developed a set of strategies for handling adult juvenile cases that embraced rather than denied defendants adolescence

**National Criminal Justice Information and Statistics Service** United States. Department of Justice, 1975 Language in the Judicial Process Judith N. Levi, Anne Graffam Walker, 2013-11-11 Legal realism is a powerful jurisprudential tradition which urges attention to social conditions and predicts their influence in the legal process The relatively recent social science in the law phenomenon in which social research is increasingly relied on to decide court cases is a direct result of realistic jurisprudence which accords much significance in law to empirical reports about social behavior The empirical research used by courts has not however commonly dealt with language as an influential variable This volume of essays coedited by Judith N Levi and Anne Graffam Walker will likely change that situation *Language in the Judicial Process* is a superb collection of original work which fits well into the realist tradition and by focusing on language as a key variable it establishes a new and provocative perspective on the legal process The perspective it offers and the data it presents make this volume a valuable source of information both for judges and lawyers who may be chiefly concerned with practice and for legal scholars and social scientists who do basic research about law
