Judicial Control In The European Union Procedures And Principles:

Judicial Control in the European Union Alicia Hinarejos Parga, 2009 The EU's activity under its intergovernmental pillars The Common Foreign and Security Policy and Justice and Home Affairs has traditionally been beyond the scope of judicial control offered by the central EC legal system The increasing importance of this activity and its growing intrusion into the lives of individuals has led to a sense that the level of judicial oversight and protection is insufficient and that the constitutional balance of the Union stands in urgent need of reform While the need for reform is widely recognised wholesale constitutional change has been stalled by the failure to ratify the Constitutional Treaty and the delay in ratifying the Treaty of Lisbon This book charts the attempts to develop more satisfactory judicial control over the intergovernmental pillars in the face of such constitutional inertia It examines the leading role played by the European Court of Justice in reforming its own jurisdiction and analyses the ECJ's development as a constitutional court in comparison with more established constitutional adjudicators Throughout the book the current constitutional position is compared extensively to the reforms introduced by the Treaty of Lisbon offering a timely snapshot of the EU's federal structure in a state of flux

Judicial Review Susana

Galera, Council of Europe, 2010-01-01 The traditional state model based on a domestic approach to rule of law is currently evolving towards a new one where international factors and relations play a prominent role This trend is also characterized by the pre eminence of executive powers along with a weakening of parliamentary balances and judicial controls This work seeks to answer two essential questions concerning the rule of law how can citizens challenge public decisions affecting them and what kinds of public decisions can be judicially controlled Two groups of legal regulations are considered in this analysis the so called European legal tradition covering nine national laws strongly influenced by Council of Europe legal standards since 1950 and the more recent body of European Union law The authors conclude that the issue of individual guarantees vis vis public powers should be carefully monitored in Europe

Procedural Rules in Tax Law in the Context of European Union and Domestic Law Michael Lang, 2010-01-01 EUCOTAX European Universities Cooperating on TAXes is a network of tax institutes currently consisting of eleven universities WU Vienna University of Economics and Business in Austria Katholieke Universiteit Leuven in Belgium Corvinus University of Budapest Hungary Universite Paris I Pantheon Sorbonne in France Universitat Osnabruck in Germany Libera Università Internazionale di Studi Sociali in Rome and Università degli Studi di Bologna for the research part in Italy Fiscaal Instituut Tilburg at Tilburg University in the Netherlands Universidad de Barcelona in Spain Uppsala University in Sweden Queen Mary and Westfield College at the University of London in the United Kingdom and Georgetown University in Washington DC United States of America This network aims at initiating and coordinating both comparative

education in taxation through the organisation of activities such as winter courses and guest lectures and comparative research in the field by means of joint research projects international conferences and exchange of researchers between various countries European Union law barely deals with procedural questions even though they are essential for proper implementation of European Union law The European Court of Justice has developed procedural principles in its rulings which also affect proceedings before national authorities This is due to the fact that the principle of procedural autonomy of the Member States finds its limits where European Union law might be infringed Therefore domestic procedural principles and rules of the EU countries need to be interpreted in the context of European Union law requirements This timely work seeks to identify the differences between the domestic procedural rules and principles of an array of EU and non EU countries and analyse them in the context of European Union law requirements Specific attention is paid to the impact of State aid rules on procedural law in tax matters on constitutional law requirements as well as tax treaty law issues Since customs law is already harmonized in the form of the Community Customs Code it serves as a starting point to examine the extent to which harmonized procedural law is possible Harmonized procedural law is also discussed in the context of a possible future Common Consolidated Corporate Tax Base as well as an EU tax levied at the European Union level

Judging Composite Decision-Making Filipe Brito Bastos,2024-11-14 This book examines the European Court of Justice s principles relating to composite decision making Through rigorous case law analysis it shows how these rely on national and Union observance of rule of law requirements under what the book calls the Unitary Protection doctrine It explores the theoretical dimension of this doctrine illustrating how it represents a departure from the EU s foundational federalist approach to administrative law This fills a long standing gap in the literature and in our full understanding of composite decision making a key tenet of EU law EU constitutional and administrative law scholars will be fascinated by this compelling study

Judicial Review in EU Law Alexander H. Türk,2010-01-01 Judicial review constitutes an important aspect of any legal system operating under the rule of law This book provides a comprehensive account of judicial review in EU law by assessing the vast and complex case

law of the European Court of Justice ECJ in this area and the academic opinion which has accompanied its rulings over the years It questions the prevalent view in academic literature that the Court's restrictive approach to allowing individuals direct access to the Community Courts in case of a challenge against normative acts amounts to a denial of an effective remedy The author argues that the emerging constitutional nature of the European Union and its federal structure requires a more balanced view While it will improve direct access for individuals to the Union's judiciary the Lisbon Treaty will not radically alter the system of judicial review in the European Union Judicial Review in EU Law will be of great interest to academics and given its detailed discussion of case law of the ECJ it will also appeal to postgraduate students of European law Dealing with an important aspect of legal practice it will be invaluable reading for practitioners in law firms and officials working in local regional and central government
