un tema importante en este volumen [Romanticismo y desencanto en política](#), 2021-03-29 Romanticismo y desencanto en política surge de la experiencia del autor como candidato a la presidencia del Principado de Asturias en las elecciones de 2019 A partir del caudal de vivencias acumuladas lo que persigue en este ensayo es reflexionar sobre las pautas que dominan en la vida política en general y específicamente en el despliegue de una campaña electoral Hay igualmente un propósito de acercamiento al ambiente social y político de una poca vista por el protagonista de una singular experiencia personal y con una perspectiva infrecuente desde el lado ajeno al de la victoria que tantas veces resulta excluido en los relatos escritos habitualmente por los ganadores El libro trata además de indagar en un tema más inexplorado el de las fuerzas que se desatan cada vez que entran en contacto dos mundos el de la academia y el de la política entre los que se establecen abismos aparentemente insuperables que suelen condonar al fracaso los intentos de traspasar las barreras que los separan El ensayo escrito con prosa fluida y a caballo entre la crítica y la reflexión constituye en última instancia una reivindicación La de devolver la política al romanticismo de la esencia de sus ideales de servicio público y transformación social frente al desencanto el distanciamiento y el desinterés que han provocado las concepciones que la han reducido a una mera lucha por el poder Y responde en todo caso a una aspiración la de que el poder cuente con las ideas y las ideas cuenten con poder

proponer hermenéuticas y claves de lectura donde cada comprensión remite siempre a un ulterior nivel de complejidad conceptual que a su vez ha de ser explicado para conducir a nuevas interpretaciones y sucesivas explicaciones. Por eso entender el pensamiento de Maquiavelo es aprender a pensar políticamente.

Cambio 16, 2001. *Destilando la Cultura Política* Bonifacio Vuelvas Salazar, 2021-12-01. La obra que el lector tiene en sus manos plantea una cuestión clave: los estudiantes como un sector de la juventud mexicana configuran una categoría social por derecho propio lleno de aperturas y desafíos para la inclusión, la organización y la participación en el espacio público como lo es la institución educativa, espacio político para aprender a vivir con los otros con la intención de colaborar y convivir con otras personas diferentes pero iguales a nosotros. En esta circunstancia en la que una pandemia nos ha confinado al aislamiento queremos ser ciudadanos libres y responsables para pensar y actuar sobre la llamada nueva realidad. Una forma de comprender lo que piensan los jóvenes de la cultura civil, la cultura política y la ciudadanía es por medio del conocimiento de lo que ellos interpretan de su inserción como ciudadanos que han cumplido la mayoría de edad mediante su participación en las elecciones presidenciales del 6 de julio de 2018 y específicamente en las relaciones que establecen en su vida diaria con las diferentes figuras de poder en las instituciones públicas y privadas en las que participan. Las representaciones sociales constituyen una forma de conocimiento informado que auxilian para comprender de una manera racional lógica y coherente las construcciones sociales de los estudiantes de bachillerato de diversas instituciones educativas de la región oriente de la Ciudad de México que se caracterizan por ser personas informadas a través de diferentes medios electrónicos y redes sociales como en las sociedades modernas. La presente obra plantea la posibilidad de un aporte que contribuya al debate sobre el sentido de la participación política de los jóvenes convencidos de que esta categoría no agota la complejidad de garantías y necesidades que demandan los jóvenes con proyección en un horizonte cercano.
