Beaty,W. Hugh Tucker,1987 *Ocular Proof and the Spectacled Detective in British Crime Fiction* Lisa Hopkins,2023-05-31 From Sherlock Holmes onwards fictional detectives use lenses Ocular Proof and the Spectacled Detective in British Crime Fiction argues that these visual aids are metaphors for ways of seeing and that they help us to understand not only individual detectives methods but also the kinds of cultural work detective fiction may do It is sometimes regarded as a socially conservative form and certainly the enduring popularity of Golden Age writers such as Christie Sayers Allingham and Marsh implies a strong element of nostalgia in the appeal of the genre The emphasis on visual aids however suggests that solving crime is not a simple matter of uncovering truth but a complex sophisticated and inherently subjective process and thus challenges any sense of comforting certainties Moreover the value of eye witness testimony is often troubled in detective fiction by use of the phrase the ocular proof whose origin in Shakespeare s Othello reminds us that Othello is manipulated by Iago into misinterpreting what he sees The act of seeing thus comes to seem ideological and

provisional and Lisa Hopkins argues that the kind of visual aid selected by each detective is an index of his particular propensities and biases
