Farmer's Weekly, 1927 **Missouri Farmer**, 1913 **Southern Crossing** Edward L. Ayers, 1995-01-12 Edward L. Ayers monumental history *Promise of the New South* was praised by the eminent historian Bertram Wyatt Brown as A work of frequently stunning beauty who added The elegance and sensitivity that he achieves are typical of few historical works Winner of the James A Rawley Prize for Best Book on American Race Relations from the Organization of American Historians and the Frank Lawrence Owsley and Harriett Chappell Owsley Award from the Southern Historical Association and finalist for the 1992 National Book Award the 1992 Pulitzer Prize for History and the 1993 Southern Book Award *Promise of the New South* established Ayers as one of the foremost scholars of the American South Now in this newly revised edition Ayers has distilled this remarkable work to offer an even more readable account of the New South Ranging from the Georgia coast to the Tennessee mountains from the power brokers to tenant farmers Ayers depicts a land of startling contrasts a time of progress and repression of new industries and old ways Ayers takes us from remote Southern towns revolutionized by the spread of the railroads to the statehouses where Democratic Redeemers swept away the legacy of Reconstruction from the small farmers trapped into growing nothing but cotton to the new industries of Birmingham from abuse and intimacy in the family to tumultuous public meetings of the prohibitionists He explores every aspect of society politics and the economy detailing the importance of each in the emerging New South Here is the local Baptist congregation the country store the tobacco stained second class railroad car the rise of Populism the teeming nineteenth century South comes to life in these pages And central to the entire story is the role of race relations from alliances and friendships between blacks and whites to the spread of Jim Crow laws and disenfranchisement Ayers weaves all these details into the contradictory story of the New South showing how the region developed the patterns it was to follow for the next fifty years A vivid portrait of a society undergoing the sudden confrontation of the promises costs and consequences of modern life this is an unforgettable account of the New South a land with one foot in the future and the other in the past **Transforming the Countryside** Paul Brassley, Jeremy Burchardt, Karen Sayer, 2016-11-25 It is now almost impossible to conceive of life in western Europe either in the towns or the countryside without a reliable mains electricity supply By 1938 two thirds of rural dwellings had been connected to a centrally generated supply but the majority of farms in Britain were not linked to the mains until sometime between 1950 and 1970 Given the significance of electricity for modern life the difficulties of supplying it to isolated

communities and the parallels with current discussions over the provision of high speed broadband connections it is surprising that until now there has been little academic discussion of this vast and protracted undertaking This book fills that gap It is divided into three parts The first on the progress of electrification explores the timing and extent of electrification in rural England Wales and Scotland the second examines the effects of electrification on rural life and the rural landscape and the third makes comparisons over space and time looking at electrification in Canada and Sweden and comparing electrification with the current problems of rural broadband
