Textiles and Clothing Mohd Shabbir, 2019-07-12. This timely and important book aims to help achieve a more sustainable textile industry. Researchers from both textile and environmental domains will benefit from reading it. Since it is imperative to rehabilitate our damaged environmental ecosystems, there is a pressing demand for more sustainable green processes in the textile and clothing industry. As a consequence, greater emphasis needs to be placed on research into eco-friendly processes particularly suited for this industry. With this goal in mind, all environmental aspects relating to the textile and clothing industry are discussed in this book in four broad areas: Highlights the negative impact on the environment by textile industries; Discusses textiles finishing by natural or eco-friendly means; Promotes natural dyes as environment-friendly alternatives to synthetics; Reviews textile effluents remediation via chemical, physical and bioremediation. Included in the 11 informative chapters are topics covering the correlation between the environment and the processing and utilization of textiles and clothing. The book opens with a discussion on the direct impact that the textile industry has on the environment. The hazardous environmental consequences that synthetic dyes used to color textiles have on the environment are highlighted in the next chapter. Greener alternatives to dyeing are discussed in detail in the next chapters, followed by a discussion of eco-friendly ways of finishing textiles. The book concludes with a section of chapters providing solutions to address the environmental hazards associated with the textile industry.

Innovation and Recent Advancement in Fashion and Textile Dr. Reema Varshney, Ms. Nimisha Rana Chaudhary, 2023-05-27. Recycling from Waste in Fashion and Textiles Pintu Pandit, Shakeel Ahmed, Kunal Singha, Sanjay

Shrivastava, 2020-07-15. The alarming level of greenhouse gases in the environment, fast depleting natural resources and the increasing level of industrial effluents have made every single manufacturing activity come under the scrutiny of sustainability. When all kinds of waste such as clothes, furniture, carpets, televisions, shoes, paper, food wastes etc. end up in the

landfill only a few of them are naturally decomposed and thus a large majority remains as non biodegradable It is for this reason efforts are concentrated to reduce the burden on earth by this waste and as far as used textile products are concerned there are now attempts to recycle or up cycle This book addresses the role of sustainability by using textile waste in fashion and textiles with respect to manufacturing materials as well as the economic and business challenges and opportunities it poses This wide ranging book comprises 19 chapters on the various topics including Solutions for sustainable fashion and textile industry Agro and bio waste in the fashion industry Innovating fashion brands by using textile waste Waste in handloom textiles Business paradigm shifting 21st century fashion from recycling and upcycling Utilization of natural waste for sustainable textile coloration Circular economy in fashion and textile from waste Future pathways of waste utilization for fashion Sustainable encapsulation of natural dyes from Plant waste for textiles Agro waste applications for bio remediation of textile effluent

The author unravels the intricate web of connections within upcycling through diverse practices, methods, and insightful interviews. By critically questioning established norms and scrutinizing the actions of fashion designers, the book makes significant contributions to existing literature. Additionally, it offers practical recommendations for sustainable fashion education, making it an indispensable resource for individuals involved in the textile and fashion field. Enhanced with visual aids such as images and illustrations, this book ensures an engaging reading experience that immerses readers in the research-based discourse.

World Textiles Mary Schoeser, 2022-10-06 The history of textiles more than that of any other artefact is a history of human ingenuity. From the very earliest needles of 50 000 years ago to the smart textiles of today, textiles have been fundamental to human existence and enjoyed, prized, and valued by every culture. Silks from China, cottons from India, tapestries from Flanders, dyes from South America: the appeal of different weaves, colours, and patterns was long a motivation for trade, the exchange of ideas, and sometimes even war. Mary Schoeser's groundbreaking book, now revised and updated to incorporate new research, presents a chronological survey of textiles around the world from prehistory to the present. It explores how they are made, what they are made from, how they function in society, and the ways in which they are valued and given meaning, as well as reflecting on the environmental challenges they present today. World Textiles offers an invaluable introduction to this vast and fascinating subject for makers, designers, textile and fashion professionals, collectors, and students alike.
