Introductory Papers precede the discussion Where possible verbatim accounts of the often lively exchanges have been retained The customary catalogue of high energy accelerators has been published separately The continuing world wide activities in accelerator research with its ever larger projects are reflected by the numerous contributions accepted for inclusion in these Proceedings which have reached the limit of what a single volume can manageably contain while making rapid publication even harder to achieve All the more reason to extend the gratitude of all concerned to those involved in the chain of production To the authors for their prompt handing in or timely posting of their papers Thanks also to their secretaries who followed the guidelines for the presentation of camera ready copy
