into something more active open and democratic by inviting spectators into new and unexpected encounters with works of art and institutions This practice was sharply critical of the ingrained characteristics long associated with art institutions and conventional exhibition making and yet Voorhies finds over time the critique has been diluted by efforts of the very institutions that now gravitate to the participatory Beyond Objecthood focuses on innovative figures artworks and institutions that pioneered the exhibition as a critical form tracing its evolution through the activities of curator Harald Szeemann relational art and New Institutionalism Voorhies examines recent artistic and curatorial work by Liam Gillick Thomas Hirschhorn Carsten Holler Maria Lind Apolonija Uter i and others at such institutions as Documenta e flux Manifesta and Office for Contemporary Art Norway and he considers the continued potential of the exhibition as a critical form in a time when the differences between art and entertainment increasingly blur **Frieze Art Fair** ,2007 **The New Art** Andrew Hunt,2006 Contemporary British Art Grant Pooke,2012-11-12 The last few decades have been among the most dynamic within recent British cultural history Artists across all genres and media have developed and re fashioned their practice against a radically changing social and cultural landscape both national and global This book takes a fresh look at some of the themes ideas and directions which have informed British art since the later 1980s through to the first decade of the new millennium In addition to discussing some iconic images and examples it also looks more broadly at the contexts in which a new post conceptual generation of artists those typically born since the late 1950s and 1960s have approached and developed aspects of their professional practice Contemporary British Art is an ideal introduction to the field To guide the reader the book is organised around genres or related practices painting sculpture and installation and film video and performance The first chapter explores aspects of the contemporary art market and some of the contexts within which art is made supported and exhibited The chapters that discuss various genres of art practice also mention books that may be useful to support further reading Extensively illustrated with a wide range of work both known and less well known from artists such as Chris Ofili Rachel Whiteread Damien Hirst Banksy Anthony Gormley Jack Vettriano Sam Taylor Wood Steve McQueen and Tracey Emin and many more Holidays Around the World, 6th Ed.
