Gauvreau, Matthew Gerber**

From Absolutism To Revolution 2nd Edition:

Political Economy from Below Rob Knowles,2017-07-05 Communitarian anarchism is a generic form of socialism that denies the need for a state or any other authority over the individual from above and which requires absolute belief that the individual cannot exist outside of a community of others This book suggests that the communitarian anarchists of the nineteenth century developed and articulated a distinct tradition of economic thought The period of this study begins with the first major writing of the French communitarian anarchist Pierre Joseph Proudhon in 1840 and ends with the temporary burial of anarchist theorizing at the beginning of the First World War in 1914 However he tradition of communitarian anarchist economic thought did not end in 1914 The economic thought explored in this book provides a fresh perception of the fragmentation evident in many societies today especially where there is a substantial informal economy

An Introduction To Nineteenth-century Russian Slavophilism Peter K. Christoff,2019-03-07 This book is written based on vigorous and prolonged debates between the Slavophiles and proponents of Russian Slavophilism s principal ideological rival Westernism in the mid nineteenth century It presents the analysis and evaluation of Iu F Samarin s dissertation

In Pursuit of Wisdom Phillip Campbell III,2024-06-21 The relationship between the Catholic Church and science is one of the most misunderstood stories of Western civilization Merely repeating the mantra that there is no ultimate contradiction between faith and reason has not solved the crisis for millions of Catholics many of whom have abandoned the Faith over perceived discrepancies between the religious and scientific world In Pursuit of Wisdom moves beyond polemical and surface level approaches to glean a more accurate picture of the historical relationship between scientific inquiry and the Catholic Faith Beginning with the earliest days of the Church proceeding through the Middle Ages Renaissance and beyond Catholic history author Phillip Campbell tells the stories of brilliant individuals challenging controversies and awe inspiring discoveries that form the tapestry of the Church s rich engagement with science When we understand people and perspectives of the past we can better understand how we arrived at our current situation and be prepared to respond to the questions of those both within and outside the Church who believe that faith and reason are incompatible

The Shaping of Western Civilization, Volume II Michael Burger,2013-12-16 Michael Burger s goal in this inexpensive overview is to provide a brief historical narrative of Western civilization Not only does its length and price separate this text from the competition but its no frills uncluttered format and well written one authored approach make it a valuable asset for every history student The Shaping of Western Civilization From the Reformation to the Present begins with the Reformation and ends with globalization Unlike other textbooks that pile on dates and facts Shaping is a more coherent and interpretive presentation Burger s skills as writer and synthesizer will enable students to obtain the background required to ask meaningful questions of primary sources In addition to suggestions for further reading this overview includes over 20 images and 11 maps

The Rhyme and Reason of Politics in Early Modern Europe C.E. Harline,2012-12-06 Herbert Rowen has always insisted that

historians don't need biographers Outside a small circle of family friends and students what matters most is not the individual but his or her work Thus the main purpose of the present volume is to highlight Professor Rowen's contributions to the political history of early modern Europe Part I includes assessment of his work by others while Parts II-V contain examples of his best articles papers and reviews some published here for the first time most previously hard to get These essays not only add substantively to our understanding of early modern politics but treat both implicitly and explicitly the historian's task per se Hence this is not biography much less innocuous laudation or hagiography which Herb would not forgive Yet it is only fitting that someone who lays so much stress on the human side of History should by way of introduction have something said about his person as well as his work

Iran Homa Katouzian, 2013 This book offers a view of Iran through politics history and literature showing how the three angles combine Iran being a revolutionary society experienced two great revolutions within the short span of just seventy years from the 1900s to the 1970s Both were massive revolts of the society against the state the main objective of the first being to establish lawful government to make modernisation possible and the second to overthrow the absolute and arbitrary state though this time mainly under the banner of religion and Marxism Leninism and anti Westernism Neither of them succeeded in their lofty ideals for reasons that are explained and analysed within The author also offers a detailed description of Iran's short term society examining the political and intellectual lives of two of the most remarkable intellectuals cum politicians of the twentieth century This book provides an overview of modern Persian literature both poetry and prose and discusses the works of three of the most remarkable Persian poets and writers of the period It considers classical Persian literature through the great variety of its form and substance and neo classical literary developments in the nineteenth century covering the whole history of Persian literature This is crowned in the last chapter by the love poetry of one of the greatest Persian poets Iran will be of interest to students and scholars of Iranian studies and Middle East Politics

Karl Marx's Theory of Revolution Vol. II Hal Draper, 1978 This is the second installment of Hal Draper's incomparable treatment of Marx's political theory policy and practice In forceful and readable language Draper ranges through the development of the thought of Marx and Engels on the role of classes in society This series Karl Marx's Theory of Revolution represents an exhaustive and definitive treatment of Marx's political theory policy and practice Marx and Engels paid continuing attention to a host of problems of revolution in addition to constructing their grand theory All these political and social analyses are brought together in these volumes as the author draws not only on the original writings of Marx and Engels but also on the sources that they used in formulating their ideas and the many commentaries on their published work Draper's series is a massive and immensely valuable scholarly undertaking The bibliography alone will stand as a rich resource for years to come Yet despite the scholarly treatment the writing is direct forceful and unpedantic throughout and will appeal to the beginning student as much as the advanced reader

Modern Christian Thought, Second Edition James C. Livingston, Francis Schüssler Fiorenza, This widely

acclaimed introduction to modern Christian thought formerly published by Prentice Hall provides full scholarly accounts of the major movements and thinkers theologians and philosophers in the Christian tradition since the eighteenth century Enlightenment together with solid historical background and critical assessments **Paperbound Books in Print** ,1991

The Creation of the Austro-Hungarian Monarchy Gábor Gyáni,2021-09-30 Recent collection of essays discusses the historical event and the multifarious consequences of the 1867 Compromise Ausgleich Settlement conducted between the Habsburg monarch Francis Joseph and the Hungarian political ruling class The whole story has usually been narrated from a plainly Cisleithanian viewpoint The present volume the product of Hungarian historians gives an insight into both the domestic and the international historical discourses about the Dual Monarchy It also reveals the process of how the 1867 Compromise was conducted and touches upon several of the key issues brought about by establishing a constitutional dual state in place of the absolutist Habsburg Monarchy The emphasis is laid not on describing and explaining the path leading to the final and inevitable break up of the Dual Monarchy but on what actually held it together for half a century The local outcomes of self maintaining mechanisms were no less obvious in the Hungarian part of the Dual Monarchy despite the many manifestations of an overt adversity toward it The Creation of the Austro Hungarian Monarchy will appeal to historians dealing especially with 19th century European history and is also essential reading for university students **Bibliographic**

Index ,2008 **The Shaping of Western Civilization: Volume Two From the Reformation to the Present** Michael Burger, **Revolution** Rosemary H. T. O'Kane,2000 All of the major work on the subject of revolutions is collected in this useful set Including work from seminal figures such as Hatto and Gottschalk in the 1940s as well as the most important literature all the way through 1998 the articles reprinted here consider the concept theory and causes of revolution revolutionary state building and the outcomes of revolutions case studies of great revolutions and much more

Enlightenment and Reform in Eighteenth-century Europe Derek Beales,2005-03-24 The 18th century was a unique period of global and fundamental change Britain conquered India and much of America the American Revolution produced the USA and Russia expanded vastly In the field of ideas the Scientific Revolution was consolidated and followed by the Enlightenment Nationalism flourished populations surged and the Commercial and Industrial Revolutions with Western technology eclipsed the East Few centuries have inspired such a galaxy of historians and their groundbreaking work has been drawn upon by Derek Beales in his collection of articles and special lectures He covers the whole European kaleidoscope but focuses especially on Joseph II and the Hapburg monarchy asserting that Enlightened Despotism was the emodiment of the century s revolution in ideas politics government and administration *The Cumulative Book Index* ,1992 A world list of books in the English language Censorship Derek Jones,2001-12-01 Censorship A World Encyclopedia presents a comprehensive view of censorship from Ancient Egypt to those modern societies that claim to have abolished the practice For each country in the world the history of censorship is described and placed in context and the media censored

are examined art cyberspace literature music the press popular culture radio television and the theatre not to mention the censorship of language the most fundamental censorship of all Also included are surveys of major controversies and chronicles of resistance Censorship will be an essential reference work for students of the many subjects touched by censorship and for all those who are interested in the history of and contemporary fate of freedom of expression **A History of Western Public Law** Bruno Aguilera-Barchet,2014-12-31 The book outlines the historical development of Public Law and the state from ancient times to the modern day offering an account of relevant events in parallel with a general historical background establishing and explaining the relationships between political religious and economic events **The Middle East Today** Dona J. Stewart,2013 This revised and updated volume highlights the major issues and challenges that define the Middle East today and places them within their historical and geographical context **Western Civilization: Its Genesis and Destiny: From 1650 to the present day** Norman F. Cantor,1969 **Voices in the Legal Archives in the French Colonial World** Nancy Christie,Michael Gauvreau,Matthew Gerber,2020-09-24 Voices in the Legal Archives in the French Colonial World The King is Listening offers through the contribution of thirteen original chapters a sustained analysis of judicial practices and litigation during the first era of French overseas expansion The overall goal of this volume is to elaborate a more sophisticated social history of colonialism by focusing largely on the eighteenth century extending roughly from 1700 until the conclusion of the Age of Revolutions in the 1830s By critically examining legal practices and litigation in the French colonial world in both its Atlantic and Oceanic extensions this volume of essays has sought to interrogate the naturalized equation between law and empire an idea premised on the idea of law as a set of doctrines and codified procedures originating in the metropolis and then transmitted to the colonies This book advances new approaches and methods in writing a history of the French empire one which views state authority as more unstable and contested Voices in the Legal Archives proposes to remedy the under theorized state of France s first colonial empire as opposed to its post 1830 imperial expressions empire which have garnered far more scholarly attention This book will appeal to scholars of French history and the comparative history of European empires and colonialism
