Goodwill to Grunge Jennifer Le Zotte, 2017-02-02 In this surprising new look at how clothing style and commerce came together to change American culture Jennifer Le Zotte examines how secondhand goods sold at thrift stores flea markets and garage sales came to be both profitable and culturally influential Initially selling used goods in the United States was seen as a questionable enterprise focused largely on the poor But as the twentieth century progressed multimillion dollar businesses like Goodwill Industries developed catering not only to the needy but increasingly to well off customers looking to make a statement Le Zotte traces the origins and meanings of secondhand style and explores how buying pre owned goods went from a signifier of poverty to a declaration of rebellion Considering buyers and sellers from across the political and economic spectrum Le Zotte shows how conservative and progressive social activists from religious and business leaders to anti Vietnam protesters and drag queens shrewdly used the exchange of secondhand goods for economic and political ends At the same time artists and performers from Marcel Duchamp and Fanny Brice to Janis Joplin and Kurt Cobain all helped make secondhand style a visual marker for youth in revolt *In the Shadow of Boone and Crockett* Ian C. Hartman, 2024-01-12

Well researched and well argued provocative and imaginative *In the Shadow of Boone and Crockett* examines the image of the pure Appalachian Anglo Saxons who furnished hope for the future and the less flattering image of the degenerate poverty stricken mountaineers with blood on their hands In a wide ranging exploration that reaches from Teddy Roosevelt to JFK Ian C Hartman examines the idea of Appalachian exceptionalism over time and what that has meant for the region and for America James C Klotter state historian of Kentucky and professor of history Georgetown College Extending from the southern Appalachians through the rolling hills of Kentucky and Tennessee to the Ozarks of Arkansas and Missouri the upland South emerged in American lore as the setting where Daniel Boone David Crockett and other rugged frontiersmen forged a modern nation and headed west to become the progenitors of what some viewed as a new and superior American race Others however saw this region as the breeding ground of poor debased whites the hillbillies and white trash of popular stereotypes These conflicting identities have long dominated public discourse about the region as well as fostered a deep fascination with it In this compelling study part political and part cultural history Ian C Hartman probes the late nineteenth century context from which this paradox arose and the array of personalities expressions and policies that sought to resolve

it or at least make sense of it in the decades that followed He begins by investigating the writings of race theorists including future president Theodore Roosevelt whose multivolume *The Winning of the West* 1889 96 furthered the tale of a heroic and distinctly American stock who with axe and rifle conquered a continent Hartman relates these myths to the rise of the early twentieth century eugenics movement which sought to regenerate and purify a once proud but now impoverished and degraded people through policies that included forced sterilization to weed out imbeciles Hartman goes on to showcase the surprising ways in which the contradictory identity of the upland South affected broader national debates about imperialism crime and punishment poverty and inequality and the growth and decline of the postwar welfare state Whether considering the racial implications of a 1930s Appalachian folk festival the stereotypical but often sympathetic portrayals of rural southerners in sitcoms like *The Beverly Hillbillies* and *The Andy Griffith Show* or the shifting perceptions of President Lyndon B Johnson's War on Poverty In the Shadow of Boone and Crockett is a consistently provocative book that invites readers to ponder a fresh a set of ideas about America's race history that have shown remarkable traction for more than a century Ian C Hartman is an assistant professor of history at the University of Alaska Anchorage His articles and reviews have appeared in the *Journal of Southern History* *Cultural Studies* *Critical Methodologies* *Appalachian Journal* and *Multicultural America* A Multimedia Encyclopedia among other publications

East German Film and the Holocaust Elizabeth Ward, 2021-04-01 East Germany's ruling party never officially acknowledged responsibility for the crimes committed in Germany's name during the Third Reich Instead it cast communists as both victims of and victors over National Socialist oppression while marginalizing discussions of Jewish suffering Yet for the 1977 Academy Awards the Ministry of Culture submitted Jakob der L gner a film focused exclusively on Jewish victimhood that would become the only East German film to ever be officially nominated By combining close analyses of key films with extensive archival research this book explores how GDR filmmakers depicted Jews and the Holocaust in a country where memories of Nazi persecution were highly prescribed tightly controlled and invariably
