From Flintlock To Rifle:

From Flintlock to Rifle Steven T. Ross,1996 Old Regime armies recruited from a narrow social base and armed with slow firing short range inaccurate weapons relied upon harsh discipline and formalized evolutions to attain tactical proficiency When the French Royal Army collapsed it was replaced with a mass citizen army This contained elements of the old tactical system but placed a new emphasis on mobility flexibility and individual initiative Napoleon s rivals either imitated aspects of the French system or sought to copy the spirit of the new tactics engineering social reforms from above and creating their own citizen armies *From Flintlock to M 1* ,1954 **American Firearms Makers** Arthur Merwyn Carey,1953 American Firearms Makers is without question the most complete reference work of its kind in print It is a cyclopedia of firearms makers of both long and short arms custom made and arms made under federal and state government contracts It covers the period from the Colonial era to the end of the nineteenth century American Firearms Makers contains more than 2100 entries arranged in alphabetical order from Andrew Agnew to John Zuendorff All the great makers such as Colt Derringer Drepperd Pomeroy Whitney etc have considerable material to cover a complete summary of their activities and their place in American firearms history not to mention the hundreds and hundreds of other makers whose names may be puzzling to collectors Each entry will tell you the correct spelling of the maker s name the span of years he was active the town or city and state in which he was located and the type of arms he produced The data are intentionally concise but where it is appropriate other information is abundantly supplied patent dates descriptive markings calibers and dimensions of the arms etc Other books have covered sections of the country and limited periods of the subject s history This is the first book covering the entire United States during the flintlock percussion and metallic cartridge cycles of arms The material in American Firearms Makers represents thirty three years of collecting researching and inspecting old firearms both in the United States and abroad The author has one of the best reference libraries in this field This volume has been awaited by collectors antique dealers libraries and museums American Firearms Makers is illustrated with authentic contemporary pictures together with photographs from the author s collection It contains in addition a chronology and a bibliography Jacket flap **The Rifle Musket in Civil War Combat** Earl J. Hess,2008 Challenges the longstanding view that the rifle musket revolutionized warfare during the Civil War arguing instead that its actual impact was real but limited and specialized **The Pattern 1853 Enfield Rifle** Peter Smithurst,2011-07-20 The Pattern 1853 Enfield Rifle was the first rifled firearm issued to every soldier in the British Army and gave the infantry a revolutionary increase in firepower First issued in 1853 the Enfield proved itself worthy during both the Crimean War and the Indian Mutiny where its long range durability and interchangeable parts made it a perfect campaign rifle However it was during the American Civil War that the Enfield saw the greatest use with over a million rifles being sold to the armies of both the North and South This title takes an in depth look at the design the history the mechanics and the use of one of the most important firearms of the 19th century

Sharpshooting Rifles of the American Civil War Martin Pegler, 2017-08-24 At the outset of the American Civil War the Union Army s sharpshooters were initially equipped with the M1855 Colt revolving rifle but it was prone to malfunction Instead the North s sharpshooters preferred the Sharps rifle an innovative breech loading weapon capable of firing up to ten shots per minute more than three times the rate of fire offered by the standard issue Springfield 58 caliber rifled musket Other Union sharpshooters were equipped with the standard issue Springfield rifled musket or the 56 56 caliber Spencer Repeating Rifle Conversely the Confederacy favoured the Pattern 1853 Enfield rifled musket for its sharpshooters and also imported from Britain the Whitworth Rifle a 45 caliber single shot muzzle loading weapon distinguished by its use of a twisted hexagonal barrel Featuring specially commissioned artwork this is the engrossing story of the innovative rifles that saw combat in the hands of sharpshooters on both sides during the Civil War
