Causality and Containment in Seventeenth-Century Chinese Fiction McMahon, 2023-07-31 A number of features characterize late Ming vernacular fiction as part of the general cultural expansion of that period These features centrally include the exposition of sexual transgression and the function of containment by which is meant the ideology of the control of desires The late Ming writers are studiously devoted to illustrating minute obscene or erotic details that belie the decorum of the orthodox surface However this subversiveness of detail decreases in intensity from the late Ming to the early Qing when values of containment are reinvoked Related topics are the theme of causality and its role in the story's mapping of the logic of adultery adultery as an emblem of the woman's escape from containment and the use of the narrative topos of the gap in the wall as a locus of sexual transgression

Coxinga and the Fall of the Ming Dynasty Jonathan Clements, 2011-10-24 From humble origins Coxinga's father became the richest man in China and Admiral of the Emperor's navy during the Ming Dynasty As his eldest son Coxinga was given the best education and developed a love of poetry and the study of Confucius From this unlikely beginning it took the invasion of south China by the Manchu and the subsequent loss of both his parents his father defected to the Manchu and his mother a Japanese Samurai died in battle to turn Coxinga from scholar to warrior Fiercely loyal to his exiled Emperor Coxinga fought against overwhelming odds until his defeat drove him out to sea and over to Taiwan at the time a lawless set of islands inhabited by cannibals Self-styled king of Taiwan Coxinga died at the moment of his triumph His descendants ruled the island for two decades

State, Peasant, and Merchant in Qing Manchuria, 1644-1862 Christopher Mills Isett, 2007 This study seeks to lay bare the relationship between the sociopolitical structures that shaped peasant lives in Manchuria northeast China during the Qing dynasty and the development of that region's economy The book is written in three parts It begins with an analysis of the ideological political and economic interests of the Qing ruling house in defending its homeland in the northeast against occupation by non Manchus and examines how these interests informed state policy and the reconfiguration of the region's social landscape in the first decades of the dynasty The book then addresses how this agrarian configuration unraveled under challenge from settler peasant communities and gives an account of the resulting property and labor regimes The study ends with an account of how that social formation configured peasant economic behavior and in so doing established the limits of economic change and trade growth

The Military Collapse of China's Ming Dynasty, 1618-44 Kenneth M. Swope, 2014-01-23 This book examines the military collapse of China's Ming Dynasty to a combination of foreign and domestic foes The Ming's defeat was a highly surprising development not least because as recently as in the 1590s the Ming had managed to defeat a Japanese force considered to be perhaps the most formidable of its day when the latter attempted to subjugate Korea en route to a planned invasion of China In contrast to conventional explanations for the Ming's collapse which focus upon political and socio economic factors this book shows how the military collapse of the Ming state was intimately connected to the deterioration of the personal relationship between the Ming throne and the military establishment that had served as the cornerstone of the Ming military renaissance of the previous decades Moreover it examines the broader process of the militarization of late Ming society as a whole to arrive at an understanding of how a state with such tremendous military resources and potential could be defeated by numerically and technologically inferior foes It concludes with a consideration of the fall of the Ming in light of contemporary conflicts and regime changes around the globe drawing attention to climatological factors and

developments outside state control Utilizing recently released archival materials this book adds a much needed piece to the puzzle of the collapse of the Ming Dynasty in China

The Manchu Way Mark C. Sea Rovers, Silver, and Samurai Tonio Andrade,Xing Hang,2016-03-31 Sea Rovers Silver and Samurai traces the roots of modern global East Asia by focusing on the fascinating history of its seaways The East Asian maritime realm from the Straits of Malacca to the

Sea of Japan has been a core region of international trade for millennia but during the long seventeenth century 1550 to 1700 the velocity and scale of commerce increased dramatically Chinese Japanese and Vietnamese smugglers and pirates forged autonomous networks and maritime polities they competed and cooperated with one another and with powerful political and economic units such as the Manchu Qing Tokugawa Japan the Portuguese and Spanish crowns and the Dutch East India Company Maritime East Asia was a contested and contradictory place subject to multiple legal political and religious jurisdictions and a dizzying diversity of cultures and ethnicities with dozens of major languages and countless dialects Informal networks based on kinship ties or patron client relations coexisted uneasily with formal governmental structures and bureaucratized merchant organizations Subsistence based trade and plunder by destitute fishermen complemented the grand dreams of sea lords profit maximizing entrepreneurs and imperial contenders Despite their shifting identities East Asia's mariners sought to anchor their activities to stable legitimacies and diplomatic traditions found outside the system but outsiders even those armed with the latest military technology could never fully impose their values or plans on these often mercurial agents With its multilateral perspective of a world in flux this volume offers fresh wide ranging narratives of the rise of the West or the Great Divergence European mariners who have often been considered catalysts of globalization were certainly not the most important actors in East and Southeast Asia China's maritime traders carried more in volume and value than any other nation and the China Seas were key to forging the connections of early globalization as significant as the Atlantic World and the Indian Ocean basin Today as a resurgent China begins to assert its status as a maritime power it is important to understand the deep history of maritime East Asia

Wang Fuzhi's Reconstruction of Confucianism Mingran Tan, 2021-09-17 Wang Fuzhi 1619 1692 a Ming loyalist was forced to find solutions for both cultural and political crises of his time In this book Mingran Tan provides a comprehensive review of Wang Fuzhi's understanding of historical events and his interpretation of the Confucian classics Tan explains what kind of Confucian system Wang Fuzhi was trying to construct according to his motto The Six Classics require me to create something new He sought a basis for Confucian values such as filial piety humanity and ritual propriety from political moral and cosmological perspectives arguing that they could cultivate a noble personality beatify political governance and improve social and cosmological harmony This inspired Wang Fuzhi's attempt to establish a syncretic blend

of the three branches of Neo Confucianism i.e. Zhu Xi's 1130-1200 philosophy of principle, Wang Yangming's 1472-1529 philosophy of mind, and Zhang Zai's 1020-1077 philosophy of qi (material force). The most thorough work on Wang Fuzhi available in English, this study corrects some general misunderstanding of the nature of Wang Fuzhi's philosophy and helps readers to understand Wang Fuzhi from an organic perspective. Building upon previous scholars' research on Wang Fuzhi's notion of moral cultivation, Tan gives a comprehensive understanding of how Wang Fuzhi improves social and cosmological harmony through compliance with Confucian rituals.

Suzhou Michael Marmé, 2005. This book shows how, though Suzhou entered the Ming defeated, and suspect interactions between the imperial state and local elites gave rise to a network of markets centered on Suzhou that fostered high quality local specialization.
