Peterborough and the Soke Ron Baxter, Jackie Hall, Claudia Marx, 2019-07-03 The British Archaeological Association Conference held at Peterborough in 2015 provided a welcome opportunity for a new analysis of the cathedral's architecture sculpture and artistic production and a reassessment of the relationship between the former abbey the city and its institutions and the Soke over which it held sway This ambitious volume casts new light on the Roman occupation of the Nene valley and the rich Anglo Saxon sculptural and manuscript context that preceded the construction of the present cathedral as well as exploring the vital Romanesque tradition of the Soke and the essential contribution of the Barnack quarries But inevitably the most exciting new disclosures concern the church its high quality building campaigns during the 12th to 16th centuries its abbots tombs and the reconstruction of the lost 14th century High Altar screen from descriptions and loose fragments Peterborough has attracted the attention of antiquarian scholars since its sacking by Cromwell's men during the Civil War and as its secrets are gradually revealed it continues to stimulate the historical imagination

Memorials of Old Lincolnshire Edward Mansel Simpson, 1911 **Mission San Xavier del Bac** Yvonne Lange, Richard E. Ahlborn, 2004-11-01 Unique among mission churches of the northern borderlands of colonial Mexico for its ornate architecture and rich iconography San Xavier del Bac south of Tucson is a pilgrimage destination for countless devotees and tourists Passing through the facade entry to stand in the nave one is dazzled by the transept and sanctuary altarpieces of sculpture niches and baroque pilasters as well as the expanse of the frescoed ceiling This book is the first study of the iconography at San Xavier since its restoration in the 1990s by an international team of professional conservators It expands our understanding of the numerous Catholic images and emblems of San Xavier through a close analysis of the newly revealed iconographic elements and an interpretation of the significance of their placement It also proposes that the selection of specific religious themes and their locations was determined by an unfamiliar convention based on a tree like design in which the founder of a religious Order appears as the root and followers above in later branchings an inversion of the more familiar top to bottom hierarchy Historians Lange and Ahlborn identify all the saintly images and religious elements that adorn San Xavier and suggest how and why they are so arranged They examine the sculptures and paintings of the church from the facade throughout the cruciform interior in order to determine the organizational concepts that underlie their placement They note that the selection of images in this Franciscan mission follows traditional Roman Catholic practice for decorating churches in order to instruct novices and reinforce the teaching of conversion in a pictographic catechism of Church doctrine In short the book is a dictionary of religious personages and symbols that will help the visitor identify the biblical stories and people portrayed as well as associated signs and symbols Entries include a description of the subject its

location appropriate cross references and a bibliography Recent illustrations by photographer Helga Teiwes and a floor plan facilitate the location of images by visitors A handsome large format book featuring more than one hundred photographs and supporting line illustrations Lange and Ahlborn s work confirms the significance of San Xavier s iconography for art historians students of religion and visitors alike It is both an incomparable guide and valuable reference source for the famed mission s magnificent artistic heritage **El Camino Real de Tierra Adentro** ,1999 **A Record of All Works**
