From Generation To Generation Age Groups And Social Structure:

From Generation to Generation Shmuel Noah Eisenstadt, **From Generation to Generation** Shmuel Noah Eisenstadt, 1956 **From Generation to Generation** Shemu'el Noah Aizenshtadt, 1956 From Generation to Generation: Age Groups and Social Structure, by S.N. Eisenstadt Shmuel Noah Eisenstadt, 1966 *Social Structures* K. Warner Schaie, Peter Uhlenberg, 2007-03-23 Significant demographic changes are altering the structure of the American population. Larger numbers of immigrants are entering the work force, will become part of our aging population and increasingly are providing care for the elderly. Family structures and communities are evolving as marriage, childbearing, divorce and cohabitation trends are changing. The working population that supports the elderly physically and economically is also changing and will most likely become smaller and less able to support this growing population. What does this mean for the well being of our aging population and our efforts to ensure the quality of life for our elderly now and that we will want to enjoy ourselves as we become part of this older population? In this volume Drs. Schaie and Uhlenberg and a host of leading scholars look at the current structure of the American population in an effort to determine the impact it will have on the lives of the elderly and those growing older with disabilities and chronic illness. They examine the effects of the aging baby boomers on health care, migration and immigration and how it can support or tax health care networks, cultural issues regarding access to health care and changing cultural attitudes towards marriage and family that are affecting the relationships between the elderly and their communities. From Generation to Generation Shmuel N. Eisenstadt, 2017-07-12 The republication of *From Generation to Generation* almost half a century after its first appearance in 1956 constitutes a good occasion for a look at the way in which problems of youth and generations developed in contemporary societies. In this brilliant pioneering effort, different approaches in the social sciences to the analysis of these issues receive close scrutiny. Eisenstadt reexamines these issues by including in this edition several new chapters on this theme. The Sociology of Generations Jennie Bristow, 2016-06-09 This book suggests that the enduring problem of generations remains that of knowledge: how society conceptualises the relationship between past, present and future and the ways in which this is transmitted by adults to the young. Reflecting on Mannheim's seminal essay *The Problem of Generations*, the author explores why generations have become a focus for academic interest and policy developments today. Bristow argues that developments in education, teaching and parenting culture seek to resolve tensions of our present-day risk society through imposing an artificial distance between the generations. Bristow's book will be of interest to students and scholars in the fields of Sociology, Social Policy, Education, Family studies, Gerontology and Youth studies. *From Generation to Generation*, 1971 *European Integration and the Atlantic Community in the 1980s* Kiran Klaus Patel, Kenneth Weisbrode, 2013-09-02 This unique collection of essays lays the groundwork for the study of the intersection of European integration and transatlantic relations in the 1980s. With archives for this period only recently being opened, scholars are

beginning to analyse and understand what some have called a peak moment in the European project and others have called the Second Cold War How do these moments intersect and relate to one another These essays by prominent scholars from Europe and the United States examine these and related questions while challenging the 1980s itself as a useful demarcation for historical analysis *The Structure of the Life Course: Standardized? Individualized? Differentiated?* Ross Macmillan, 2005-07-14 Current debates in life course studies increasingly reference theories of individualization standardization and differentiation in the structure of the life course This volume brings together leading scholars from a variety of fields to assess the theoretical underpinnings the empirical evidence and the implications of existing arguments The contributions include comparative historical work demographic analysis and detailed survey research The topics covered include historical cross cultural and racioethnic variation in the transition to adulthood the school to work transition educational careers retirement activity characteristics over the life span and the life course context of psychological well being The various contributions expand our understanding of the contemporary life course and its implications The authors offer innovative theoretical and methodological approaches that demonstrate the utility of holistic approaches to conceptualizing the life course and understanding its implications for modern society *From Post-war To Post-wall Generations* Joyce Marie Mushaben, 2019-03-04 In 1984 Italian Foreign Minister Giulio Andreotti aptly summarized popular perception of the divided nationality of the two Germanys East and West There are two German states and two they shall remain Few would have disagreed By the 1980s both German states had come to occupy respected niches in the international community Still neither **Remembering the Holocaust** Esther Jilovsky, 2015-08-27 An intriguing analysis of how place constructs memory and how memory constructs place Remembering the Holocaust shows how visiting sites such as Auschwitz shapes the transfer of Holocaust memory from one generation to the next Through the discussion of a range of memoirs and novels including *Landscapes of Memory* by Ruth Kluger *Too Many Men* by Lily Brett *The War After* by Anne Karpf and *Everything is Illuminated* by Jonathan Safran Foer Remembering the Holocaust reveals the pivotal yet complicated role of place in each generation s writing about the Holocaust This book provides an insightful and nuanced investigation of the effect of the Holocaust upon families from survivors of the genocide to members of the second and even third generations of families involved By deploying an innovative combination of generational and literary study of Holocaust survivor families focussed on place Remembering the Holocaust makes an important contribution to the field of Holocaust Studies that will be of interest to scholars and anyone interested in Holocaust remembrance **Filial Piety** Charlotte Ikels, 2004 How have rapid industrial development and the aging of the population affected the expression of filial piety in East Asia Eleven experienced fieldworkers take a fresh look at an old idea analyzing contemporary behavior not norms among both rural and urban families in China Japan Korea and Taiwan Each chapter presents rich ethnographic data on how filial piety shapes the decisions and daily lives of adult children and their elderly parents The authors ability to speak the local languages and their

long term direct contact with the villagers and city dwellers they studied lend an immediacy and authenticity lacking in more abstract treatments of the topic This book is an ideal text for social science and humanities courses on East Asia because it focuses on shared cultural practices while analyzing the ways these practices vary with local circumstances of history economics social organization and demography and with personal circumstances of income gender and family configuration
