Revolutionary Keywords for a New Left Ian Parker, 2017-12-08 Revolutionary Keywords for a New Left comprises short essays on fifty revolutionary keywords each word being put to work on a contemporary political issue With keywords ranging

from academicisation to neoliberalism from postcolonial to Zionism and with subjects including Badiou North Korea sexual violence and i ek the book concludes with an essay mapping the development of progressive keywords before our century of revolution which began in 1917 keywords that emerged in the fifty years of struggle between 1917 and 1967 and revolutionary keywords for the new left today *Marx@2000* Ronaldo Munck,2002 Marx is out of fashion in intellectual circles but he is seen as an astute and relevant guide to the spread of a new raw capitalism world wide This book is a reappraisal of Marx and the socialist experience in light of political developments *A History of Modern Political Thought in East Central Europe* Balázs Trencsenyi,Michal Kopeček,Luka Lisjak Gabrijelčič,Maria Falina,Mónika Baár,2018-11-10 A History of Modern Political Thought in East Central Europe is a synthetic work authored by an international team of researchers covering twenty national cultures and 250 years It goes beyond the conventional nation centered narratives and presents a novel vision especially sensitive to the cross cultural entanglement of political ideas and discourses Its principal aim is to make these cultures available for the global market of ideas and revisit some of the basic assumptions about the history of modern political thought and modernity as such The present volume is the final part of the project following Volume I Negotiating Modernity in the Long Nineteenth Century and Volume II Part I Negotiating Modernity in the Short Twentieth Century 1918 1968 OUP 2018 Its starting point is the defeat of the vision of socialism with a human face in 1968 and the political discourses produced by the various consolidation or normalization regimes It continues with mapping the exile communities and domestic dissidents critical engagement with the local democratic and anti democratic traditions as well as with global trends Rather than achieving the coveted end of history however the liberal democratic order created in East Central Europe after 1989 became increasingly contested from left and right alike Thus instead of a comfortable conclusion pointing to the European integration of most of these countries the book closes with a reflection on the fragility of democracy in this part of the world and beyond *América Latina en el nuevo (des) orden mundial* Marc Zimmerman,2006
