Far Time:

The Far Horizons of Time H. Chris Ransford, 2015-04-24 What is Time Assuming no prior specialized knowledge by the reader the book raises specific hitherto overlooked questions about how time works such as how and why anyone can be made to be at the very same instant simultaneous with events that are actually days apart It examines abiding issues in the physics of time or at its periphery which still elude a full explanation such as delayed choice experiments the brain's perception of time during saccadic masking and more and suggests that these phenomena can only exist because they ultimately obey applicable mathematics thereby agreeing with a modern view that the universe and everything within it including the mind are ultimately mathematical structures It delves into how a number of conundrums such as the weak Anthropic Principle could be resolved and how such resolutions could be tested experimentally All its various threads converge towards a same new vision of the ultimate essence of time seen as a side effect from a deeper reality **"This Time We Went Too Far"** Norman G. Finkelstein, 2011 For the Palestinians who live in the narrow coastal strip of Gaza the Israeli invasion of December 2008 was a nightmare of unimaginable proportions In the 22 day long action 1 400 Gazans were killed several hundred on the first day alone And yet while nothing should diminish Palestinian suffering through those frightful days it is possible something redemptive is emerging from the tragedy of Gaza For as Norman Finkelstein details in a concise work that melds cold anger with cool analysis the profound injustice of the Israeli assault was widely recognized by bodies that it is impossible to brand as partial or extremist Amnesty International Human Rights Watch and the UN investigation headed by Richard Goldstone in documenting Israel's use of indiscriminate and intentional force against the civilian population during the invasion 100 Palestinians died for every one Israeli have had an impact on longstanding support for Israel Jews in both the United States and the United Kingdom for instance have begun to voice dissent and this trend is especially apparent among the young Such a shift Finkelstein contends can create new pressure capable of moving the Middle East crisis towards a solution one that embraces justice for Palestinians and Israelis alike This new paperback edition has been revised throughout and includes an extensive afterword on the Israeli attack on the Gaza Freedom Flotilla which resulted in the deaths of nine activists and further strained the loyalty of many of Israel's traditional allies around the world It also contains a brand new appendix in which Finkelstein dissects the official Israeli investigation of the flotilla attack

Once Upon a Time in a Forest Far Away Jay Singh, 2015-12-30 A butterfly and a dove save the Forest from the abuses and excesses of the caterpillars **The Far Shore of Time** Frederik Pohl, 2000-03-15 Federal agent Dan Dannerman is captured by aliens cloned twice and made to undergo painful experiments Dannerman all three of him escapes to Earth and mounts an attack to avenge his inhuman treatment A look at relations between clones by the author of *The Siege of Eternity* From a Far Distant Time & Place Thomas Peter Glass, 2005-11-01 This book is the genealogical history of the ancestry of Jacob Stephen Gruben and Maria Emilie Krmer who came to the United States from Germany in the early 1880's The book traces

each of their ancestries back through German civil registration records and the earlier Catholic Church records to the 17th century The book includes information about the first generation born in the United States Similarly the book traces the family of Johann Gottfried Godfrey Nienhaus a nephew of Jacob Stephen Gruben who also came to the United States at about the same time The book contains information on the first generation of the Nienhaus family that was born in the United States The book is of wider interest because there is a discussion of the nature of and idiosyncrasies of the German civil registration and Catholic records available in the Dsseldorf Cologne area of Germany There is an extensive discussion of a method of determining a family line when faced with the sometimes scant information available in the early Catholic Church records There are large numbers of collateral relatives listed in the lines of descendants contained in the book with over 1800 people listed most of whom were born lived and died in the Dsseldorf Cologne area of Germany There is a surname index to the lines of descendants in the Gruben section and a surname index to the lines of descendants in the Krmer section of the book

The Far Edges of the Fourth Genre Sean Prentiss, Joe Wilkins, 2014-03-01 Though creative nonfiction has been around since Montaigne St Augustine and Seneca we ve only just begun to ask how this genre works why it functions the way it does and where its borders reside But for each question we ask another five or ten questions roil to the surface And each of these questions it seems requires a more convoluted series of answers What s more the questions students of creative nonfiction are drawn to during class discussions the ones they argue the longest and loudest are the same ideas debated by their professors in the hallways and at the corner bar In this collection sixteen essential contemporary creative nonfiction writers reflect on whatever far dark edge of the genre they find themselves most drawn to The result is this fascinating anthology that wonders at the historical and contemporary borderlands between fiction and nonfiction the illusion of time on the page the mythology of memory poetry process and the use of received forms the impact of technology on our writerly lives immersive research and the power of witness a chronology and collage and what we write and why we write Contributors Nancer Ballard H Lee Barnes Kim Barnes Mary Clearman Blew Joy Castro Robin Hemley Judith Kitchen Brenda Miller Ander Monson Dinty W Moore Sean Prentiss Lia Purpura Erik Reece Jonathan Rovner Bob Shacochis and Joe Wilkins

The Day Is Now Far Spent Robert Sarah, Nicolas Diat, 2019-09-01 Robert Cardinal Sarah calls The Day Is Now Far Spent his most important book He analyzes the spiritual moral and political collapse of the Western world and concludes that the decadence of our time has all the faces of mortal peril A cultural identity crisis he writes is at the root of the problems facing Western societies The West no longer knows who it is because it no longer knows and does not want to know who made it who established it as it was and as it is Many countries today ignore their own history This self suffocation naturally leads to a decadence that opens the path to new barbaric civilizations While making clear the gravity of the present situation the cardinal demonstrates that it is possible to avoid the hell of a world without God a world without hope He calls for a renewal of devotion to Christ through prayer and the practice of virtue
