**Farm Communities at the Crossroads** University of Regina. Canadian Plains Research Center, 2003 This book is an outgrowth of a conference that analyzed transformations in farming farm communities and discussed what might be done to achieve a more socially responsible development It contains papers that address the pace of change in work rural society which has proceeded so rapidly that every new development appears to be a cross roads in which something precious is in danger of being left behind but something valuable may be gained by taking the right route Topics of the papers include the importance of work the family farm community building knowledge skills in the farm community coping with the farm crisis land reform short line railways farm co operatives agricultural chemicals agribusiness sustainable alternatives for agriculture game farming co operative intervention in the farm machinery sector conservation tillage globalization agricultural policy agrarian radicalism on the prairies and farm income support systems Includes index *Transforming the Prairies* Shannon Stunden Bower, 2024-11-01 Transforming the Prairies proposes a new understanding of Canada s Prairie Farm Rehabilitation Administration PFRA complicating common views of the agency as a model of effective government environmental management Between 1935 and 2009 the PFRA promoted agricultural rehabilitation in and beyond the Canadian Prairies with mixed and equivocal results The promotion of strip farming as a soil conservation technique for example left crops susceptible to sawfly infestations The PFRA s involvement in irrigation development in Ghana increased the local population s vulnerability to various illnesses And PFRA infrastructure construction intended to serve the public good failed to account for the interests of affected Indigenous peoples The PFRA is revealed as being a high modernist state agency that produced varied environmental outcomes and that contributed to consolidating colonialism and racism This investigation affirms the importance of engaging historical perspectives to help ensure that contemporary environmental management efforts support more just and sustainable futures *Practicing Care in Rural Congregations and Communities* Jeanne Hoeft, L. Shannon Jung, Joretta Marshall, L Shannon Jung, 2013-07-01 Pastoral care in rural communities is different from care in other locales Despite these differences rural churches and communities also hold a particular wisdom from which the rest of the church might benefit Small towns and rural areas have particular challenges and in seeking to live out the Christian life in the midst of those local churches have unique and useful insights into what it means to care for one another *The Forgotten Church* Glenn Daman, 2018-05-01 Winner of Christianity Today s Award of Merit for The Church Pastoral Leadership 2018 Whether it s because of the 2016 Presidential election or books like Hillbilly Elegy Americans are beginning to understand the tremendous influence people in rural areas have in our nation But rural America not urban America is also the new center of poverty Thus the rural church stands at the crossroads of strength and struggle It carries the gospel the very hope and power needed Yet its ministry efforts are hamstrung because urban and suburban churches often don t realize their need for rural churches and the rural church itself rarely understands its unique assets and values The Forgotten Church addresses these

problems and provides an overview of rural ministry explores opportunities recent trends provide showcases the remarkable benefits of suburban urban and rural churches working together This book is essential for any pastor whether from the city or the sticks because we are one body and we need each other Managing Changing Prairie Landscapes University of Regina. Canadian Plains Research Center,2005 Articles originating in the Plain as the Eye Can See Public Forum Conference held in Regina May 15 17 2003 Divided JoAnn Jaffe,Patricia W. Elliott,2021-10-08T00:00:00Z Divided looks at the last fifteen years in Saskatchewan during which time the Saskatchewan Party government sought to reforge the province s image into the New Saskatchewan brash materialistic highly competitive and aggressively partisan In the process a climate of polarization and hyper partisanship swept the province into a near perpetual state of anger and social division These actions are not without consequences In Divided diverse voices describe the impact on their lives and communities when simmering wedge issues burst open on social media and in public spaces The collection dives deep into the long set up to this moment from the colonial past to the four decades of neoliberal economics that have widened social and economic gaps across all sectors Divided positions Saskatchewan as a fascinating case study of the global trends of division and provides testament to the resiliency of a vision of social solidarity against all odds Work in Tumultuous Times Vivian Shalla,Wallace Clement,2007 Offering a critique of how social structures and relations as well as ideologies shape workplaces labour markets and households in contemporary Canada this work exposes the uncertainty insecurity and instability that characterise both paid and unpaid work It also proposes alternative policies and practices Qualitative Analysis Margaretha Järvinen,Nanna Mik-Meyer,2020-02-06 Introducing eight analytical approaches that are key to successful social science research this book helps you get to grips with theory and apply it to qualitative analysis With two matched chapters dedicated to each approach it provides a balance between theory and analytical method The first chapter grounds the approach in theory and the second uses real world examples to show how to conduct your own analysis using the approach Drawing on the contributing authors wealth of experience the book Highlights how analysis relates to the entire research process and helps you position your analysis within the larger context of your research Provides a strong theoretical foundation for building good qualitative analysis Guides you through translating theory into real world practice in your own research Detailed clear and accessible this book is perfect for students who want to understand the theory behind qualitative analysis before conducting their own research or develop their understanding of specific approaches Transforming Gender and Food Security in the Global South Jemimah Njuki,John Parkins,Amy Kaler,2016-11-25 Drawing on studies from Africa Asia and South America this book provides empirical evidence and conceptual explorations of the gendered dimensions of food security It investigates how food security and gender inequity are conceptualized within interventions assesses the impacts and outcomes of gender responsive programs on food security and gender equity and addresses diverse approaches to gender research and practice that range from descriptive and analytical to strategic and transformative The

chapters draw on diverse theoretical perspectives including transformative learning feminist theory deliberative democracy and technology adoption As a result they add important conceptual and empirical material to a growing literature on the challenges of gender equity in agricultural production A unique feature of this book is the integration of both analytic and transformative approaches to understanding gender and food security The analytic material shows how food security interventions enable women and men to meet the long term nutritional needs of their households and to enhance their economic position The transformative chapters also document efforts to build durable and equitable relationships between men and women addressing underlying social cultural and economic causes of gender inequality Taken together these combined approaches enable women and men to reflect on gendered divisions of labor and resources related to food and to reshape these divisions in ways which benefit families and communities Co published with the International Development Research Centre

**The Trajectories of Rural Life** University of Regina. Canadian Plains Research Center, Saskatchewan Institute of Public Policy, 2003 Rural communities have been profoundly affected by recent political economic demographic and cultural change In Canada the impacts of these changes are all about us in the absolute population declines in Saskatchewan and Newfoundland in the crises of the east and west coast fisheries in the farm crisis in serious ecological problems and in the reorientation of rural social services There is a tendency to view these problems in stark terms as part of a qualitatively new era in Canadian history triggered perhaps by the forces of globalization or urbanization or the rise of the service sector economy In important ways however the problems of rural Canada are not particularly new Rural migration pollution wildlife conservation and other matters have been long standing persistent concerns of rural Canadians This book attempts to both resist the seemingly persistent urge to romanticize and prognosticate about rural Canada and the people who live geographically outside the urban environment and suggest different ways of looking at rural life In this sense its goal is to build upon an increasingly strong base of research and writing on rural Canada to suggest different perspectives on the countryside the small town the environment and the landscape

*The Prairie Agrarian Movement Revisited* Kenneth Murray Knuttila, 2007 The formation of the Territorial Grain Growers Association in 1901 was not the only important event in the early history of what has come to be known broadly as the agrarian movement in the Canadian prairies but it was a defining moment in some respects Arguably it signalled the formation of an agrarian class but at least it was an indicator of an awakening of a democratic consciousness among family farmers Ultimately the Association provided a venue for analysis and critique the development of strategies and tactics and of course the nurturing of leadership and organizational forms that would have a profound influence upon politics and the state in the three prairie provinces and the Dominion as well as the creation of co operatives and other forms of direct action These eighteen essays honouring the 100th anniversary in 2001 of the formation of the TGGA explore important aspects of the historical legacy of the agrarian movement and contemplate their relevance to the current setting for the rural prairies pub desc

**Second Promised Land** Harry H. Hiller, 2009

Explosive economic growth in resource rich Alberta has led to a stunning increase in its population In contrast to Ontario and British Columbia which have grown primarily through international migration Alberta has become a magnet for internal migrants contributing to population redistribution within Canada with significant national social and economic consequences Combining statistical analysis and ethnographic study Harry Hiller uncovers two waves of in migration to Alberta His innovative approach begins with the individual migrant and analyzes the relocation experience from origin to destination Through interviews with hundreds of migrants Hiller shows that migration is complex and dynamic shaped not just by what Alberta offers but also prompted by a process that begins in the region of origin that makes migration possible and helps determine whether migrants stay or return home By combining a social psychological approach with structural factors such as Alberta s transition from a regional hinterland province to its emerging role the global system discussions of gender The internet and folk culture Second Promised Land provides a multi dimensional and deeply human account of a contemporary Canadian phenomenon

**The End of Food** Thomas F. Pawlick,2012-01-06 An in depth expos of how the modern food system is putting our food supply in serious danger with startling new evidence and guidance on what we can do to reclaim control of what we eat

**Rural Women's Health** Beverly D. Leipert,Belinda Leach,Wilfreda E. Thurston,2012-01-01 The well being of rural communities affects the well being of those who reside in towns and cities because of rural urban connections through food drinking water infectious disease extreme environmental events recreation and for many retirement residence In rural areas themselves women play a critical role in the health of their families and communities yet women s health is often marginalized or ignored There have been limited studies to date about rural women and health in Canada Filling an important gap in scholarship this collection identifies priority issues that must be addressed to ensure these women s well being and offers innovative theoretical and methodological ideas for improvement Rural Women s Health integrates perspectives from rural practitioners residents and scholars in a variety of fields including nursing sociology anthropology and geography to tackle issues relevant to diverse settings across the country As such it presents a national perspective on the nature of women s health while respecting internal and regional diversity as well as viewpoints from international scholarship

**The Rural Nurse** Deana Molinari,Angeline Bushy,2011-11-18 Transitioning to rural practice can be daunting for both experienced nurses and new graduates who have an urban orientation and are accustomed to specialized practice with abundant health care resources Since most nursing education programs and practicing nurses are located in urban settings programs are needed to prepare nurses who choose rural practice In their book Dr Molinari and Dr Bushy provide excellent examples of practice models from North America New Zealand and Australia with curricula that address transition issues The text makes a significant contribution to the discussion about how to best prepare nurses for rural practice and will be of interest to administrators educators and clinicians From the Foreward by Charlene A Winters PhD APRN ACNS BC Associate Professor Montana State University College of Nursing This is the only volume to address the

pressing need for practical information about transitioning from an urban based nursing education or practice to a rural health care environment It provides successful strategies that nurses in rural settings can use to develop implement and evaluate innovative programs that will meet the needs of individual rural communities The book details current rural nursing transition to practice trends and issues national standards and evidence based model programs worldwide Rural practice culture is described along with professional education issues competency patient care and safety Chapters are presented in easy to access formats that offer ready solutions for problems commonly encountered in rural practice such as nurse recruitment and retention In addition to health care delivery issues for specific rural populations the book presents program descriptions from local to state levels including locally developed education programs urban hospital systems outreach to rural facilities universities collaborating with rural businesses city based workshops statewide competencies tracked by employers and a distance education program customized by rural agencies Case studies demonstrate how rural facilities even the smallest and most isolated are advancing health care through nurse support The text will be of value to rural nursing staff developers critical access hospitals and community clinic administrators rural professional organizations small urban health facilities continuing education providers nursing workforce centers and graduate programs

**Key Features** The first transition from academia to practice guide for rural nursing Charts evidence based successes and offers model programs in different rural settings Provides rural specific information to facilitate statewide health mandates Features residency program development processes with tips and tools that work

**Gender and Rural Migration** Glenda Tibe Bonifacio, 2013-11-20 Gender and Rural Migration Realities Conflict and Change explores the intersection of gender migration and rurality in 21st century Western and non Western contexts In a world where heightened globalization is making borders increasingly porous rural communities form part of the migration nexus While rural out migration is well documented the gendered dynamics of rural in migration including return rural migration and the connectivity of rural urban global local spaces are often overlooked In this collection well grounded case studies involving diverse groups of people in rural communities in Australia Austria Brazil Canada China Norway the United States and Uzbekistan are organized into three themes contesting rurality and belonging women s empowerment and social relations and sexualities and mobilities As demonstrated in this anthology rural areas are contested sites among queer youth same sex couples working women young mothers migrant farm workers temporary foreign workers in migrants and return migrants The rich expositions of various narratives and statistical data in multidisciplinary perspectives by emerging and established scholars claim gender and rurality as nodal points in contemporary migration discourse

**Adaptive Governance of Disaster** Margot A. Hurlbert, 2017-08-07 This book provides a comparative analysis of policy instruments designed to respond to climate change drought and floods in connection with agricultural producers and their communities in four case study areas Alberta and Saskatchewan Canada Coquimbo Chile and Mendoza Argentina Assessed from the standpoint of effectiveness and adaptive

governance instruments for improving the livelihood capitals of agricultural producers are identified and recommendations to improve the suite of policy instruments are put forward

*Remaining Loyal* David McGrane, 2014-10-01 When social democratic politicians in the 1990s moderated their ideas and policies as part of a turn towards the third way they were assailed as traitors to the cause *Remaining Loyal* demonstrates that while third way social democrats in Quebec and Saskatchewan supplemented certain social democratic ideas with more right wing economic programs their public policies remained true to the original spirit of social democracy Drawing on a range of archival resources David McGrane traces the evolution of social democracy in Quebec and Saskatchewan from their respective origins in social Catholic thought and agrarian protest movements at the turn of the twentieth century to the most recent Parti Qu b cois and New Democratic Party governments In doing so he reconstructs the public policies of traditional social democracy from the postwar era and the third way in the 1990s and early 2000s and finds both differences and continuities McGrane contends that remaining loyal to core social democratic values is exactly what differentiates the third way from neo liberalism in Saskatchewan and Quebec The first historical comparison of social democracy in Saskatchewan and Quebec *Remaining Loyal* challenges how we think about the recent ideological evolution of left wing parties in Canada and the rest of the world

*The Neoliberal Regime in the Agri-Food Sector* Steven A. Wolf, Alessandro Bonanno, 2013-12-04 For the last three decades the Neoliberal regime emphasising economic growth through deregulation market integration expansion of the private sector and contraction of the welfare state has shaped production and consumption processes in agriculture and food These institutional arrangements emerged from and advanced academic and popular beliefs about the virtues of private market based coordination relative to public state based problem solving This book presents an informed constructive dialogue around the thesis that the Neoliberal mode of governance has reached some institutional and material limits Is Neoliberalism exhausted How should we understand crisis applied to Neoliberalism What are the opportunities and risks linked to the construction of alternatives The book advances a critical evaluation of the evidence supporting claims of rupture of or incursions into the Neoliberal model It also analyzes pragmatic responses to these critiques including policy initiatives social mobilization and experimentation at various scales and points of entry The book surveys and synthesizes a range of sociological frames designed to grapple with the concepts of regimes systemic crisis and transitions Contributions include historical analysis comparative analysis and case studies of food and agriculture from around the globe These highlight particular aspects of crisis and responses including the potential for continued resilience a neo productivist return as well as the emergence and scaling up of alternative models

*Women in Agriculture Worldwide* Amber Fletcher, Wendee Kubik, 2016-07-01 Over the past two decades existing documentation of women in the agricultural sector has surveyed topics such as agricultural restructuring and land reform international trade agreements and food trade land ownership and rural development and rural feminisms Many studies have focused on either the high income countries of the global North or the low income

countries of the global South This separation suggests that the North has little to learn from the South or that there is little shared commonality across the global dividing line Fletcher and Kubik cross this political economic and ideological division by drawing together authors from 5 continents They discuss the situation for women in agriculture in 13 countries worldwide with two chapters that cover international contexts The authors blur the boundaries between academic and organizational authors and their contributors include university based researchers gender experts development consultants and staff of agricultural research centers and international organizations i e Oxfam the United Nations World Food Program The common thread connecting these diverse authors is an emphasis on practical and concrete solutions to address the challenges such as lack of access to resources and infrastructure lack of household decision making power and gender biases in policymaking and leadership still faced by women in agriculture around the world Ongoing issues in climate change will exacerbate many of these issues and several chapters also address environment and sustainability This book is of great interest to readers in the areas of gender studies agriculture policy studies environmental studies development and international studies
