Guide to Historical Research at the National Agriculture Library Susan Chapman,1994 **Fireside Politics** Douglas B. Craig,2003-05-01 An impressively researched and useful study of the golden age of radio and its role in American democracy Journal of American History In Fireside Politics Douglas B Craig provides the first detailed and complete examination of radio s changing role in American political culture between 1920 and 1940 the medium s golden age when it commanded huge national audiences without competition from television Craig follows the evolution of radio into a commercialized networked and regulated industry and ultimately into an essential tool for winning political campaigns and shaping American identity in the interwar period Finally he draws thoughtful comparisons of the American experience of radio broadcasting and political culture with those of Australia Britain and Canada The best general study yet published on the development of radio broadcasting during this crucial period when key institutional and social patterns were established Technology and Culture Invisible Stars Donna Halper,2015-02-11 Invisible Stars was the first book to recognize that women have always played an important part in American electronic media The emphasis is on social history as the author skillfully explains how the changing role of women in different eras influenced their participation in broadcasting This is not just the story of radio stars or broadcast journalists but a social history of women both on and off the air Beginning in the early 1920s with the emergence of radio the book chronicles the ambivalence toward women in broadcasting during the 1930s and 1940s the gradual change in status of women in the 1950s and 1960s the increased presence of women in broadcasting in the 1970s and the successes of women in broadcasting in the 1980s and 1990s The second edition is expanded to include the social and political changes that occurred in the 2000s such as the growing number of women talk show hosts changing attitudes about women in leadership roles in business more about minority women in media and women in sports and women sports announcers The author addresses the question of whether women are in fact no longer invisible in electronic media She provides an assessment of where progress

for women in society as well as broadcasting can be seen and where progress appears totally stalled *9XM Talking* Randall Davidson, 2007-02-26 Randall Davidson provides a comprehensive history of the innovative work of Wisconsin's educational radio stations Beginning with the first broadcast by experimental station 9XM at the University of Wisconsin followed by WHA through the state owned affiliate WLBL to the network of stations that in the years following WWII formed the Wisconsin Public Radio network Davidson describes how with homemade equipment and ideas developed from scratch public radio became a tangible example of the Wisconsin Idea bringing the educational riches of the university to all the state's residents Marking the centennial year of Wisconsin Public Radio this paperback edition includes a new foreword by Bill Siemering National Public Radio's founding director of programming **American Agriculture in the Twentieth Century** Bruce L. Gardner, 2006-03-31 Looking at U S farming over the past century Gardner searches out explanations for both the remarkable progress and the persistent social problems that have marked the history of American agriculture Wilderness Forever Mark W. T. Harvey, 2009-11-23 Winner of the Forest History Society's 2006 Charles A Weyerhaeuser Book Award As a central figure in the American wilderness preservation movement in the mid twentieth century Howard Zahniser 1906 1964 was the person most responsible for the landmark Wilderness Act of 1964 While the rugged outdoorsmen of the early environmental movement such as John Muir and Bob Marshall gave the cause a charismatic face Zahniser strove to bring conservation's concerns into the public eye and the preservationists plans to fruition In many fights to save besieged wild lands he pulled together fractious coalitions built grassroots support networks wooed skittish and truculent politicians and generated streams of eloquent prose celebrating wilderness Zahniser worked for the Bureau of Biological Survey a precursor to the Fish and Wildlife Service and the Department of the Interior wrote for *Nature* magazine and eventually managed the Wilderness Society and edited its magazine *Living Wilderness* The culmination of his wilderness writing and political lobbying was the Wilderness Act of 1964 All of its drafts included his eloquent definition of wilderness which still serves as a central tenet for the Wilderness Society an area where the earth and its community of life are untrammelled by man where man himself is a visitor who does not remain The bill was finally signed into law shortly after his death Pervading his tireless work was a deeply held belief in the healing powers of nature for a humanity ground down by the mechanized hustle bustle of modern urban life Zahniser grew up in a family of Methodist ministers and although he moved away from any specific denomination a spiritual outlook informed his thinking about wilderness His love of nature was not so much a result of scientific curiosity as a sense of wonder at its beauty and majesty and a wish to exist in harmony with all other living things In this deeply researched and affectionate portrait Mark Harvey brings to life this great leader of environmental activism
