## **Froissart Historian:**

**Chronicles** Jean Froissart, 1378-1400 The Chronicles of Froissart 1337-1400 are one of the greatest contemporary records of fourteenth century England and France. Depicting the great age of Anglo-French rivalry from the deposition of Edward II to the downfall of Richard II, Froissart powerfully portrays the deeds of knights in battle at Sluys, Crécy, Calais, and Poitiers during the Hundred Years War. Yet they are only part of this vigorous portrait of medieval life which also vividly describes the Peasants' Revolt, trading activities, and diplomacy against a backdrop of degenerate nobility. Written with the same sense of curiosity about character and customs that underlies the works of Froissart's contemporary Chaucer, the Chronicles are a magnificent evocation of the age of chivalry. **Froissart, Historian** John Joseph Norman Palmer, 1981

**Fifty Key Thinkers on History** Marnie Hughes-Warrington, 2014-09-04 Fifty Key Thinkers on History is an essential guide to the most influential historians, theorists, and philosophers of history. The entries offer comprehensive coverage of the long history of historiography, ranging from ancient China, Greece, and Rome through the Middle Ages to the contemporary world. This third edition has been updated throughout and features new entries on Machiavelli, Ranajit Guha, William McNeil, and Niall Ferguson. Other thinkers who are introduced include Herodotus, Bede, Ibn Khaldun, E. H. Carr, Fernand Braudel, Eric Hobsbawm, Michel Foucault, Edward Gibbon. Each clear and concise essay offers a brief biographical introduction, a summary and discussion of each thinker's approach to history, and how others have engaged with it, a list of their major works, and a list of resources for further study. Encyclopedia of Historians and Historical Writing Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries, ranging from Lord Acton and Anna Comnena to Howard Zinn, and from Herodotus to Simon Schama. Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day, including individuals from related disciplines like Jürgen Habermas and Clifford Geertz, whose theoretical contributions have informed historical debate. Additionally, the Encyclopedia includes some 200 essays treating the development of national, regional, and topical historiographies from the Ancient Near East to the history of sexuality. In addition to the Western tradition, it includes substantial assessments of African, Asian, and Latin American historians and debates on gender and subaltern studies. *Journal of Medieval Military History* Clifford J. Rogers, Kelly DeVries, John France, 2010-11-18 A collection which highlights the range and richness of scholarship on medieval warfare, military institutions, and cultures of conflict that characterize the field. History 95, 2010. The journal's hallmark of a broad chronological, geographic, and thematic coverage of the subject is underlined in this volume. It begins with an examination of the brief but fascinating career of an armed league of mostly commoners who fought to suppress mercenary bands and to impose a reign of peace in southern France in 1182-1184. This is followed by a thorough re-examination of Matilda of Tuscany's defeat of Henry IV in 1090-97. A Short History of French Literature George Saintsbury, 1884     **A Cumulative Bibliography of Medieval Military History and Technology** Kelly DeVries, 2001-11-01 There is perhaps no other more lively area for study in medieval history than medieval military history with its attendant and complementary field the history of medieval military technology In the past twenty years it seems that more major scholarly inroads have been made in this field than in any other historical genre of medieval studies or chronological period of military history What this has meant is that it is now more difficult to keep up with all of the trends and sources in the field than ever before Hence the need for a reference work which covers what has previously been written and which in turn can assist the scholar both the more experienced academic and the beginner to improve his or her work in medieval military history or the history of medieval military technology Utilizing library

catalogues bibliographies and footnotes this bibliography has compiled the most complete list of secondary references to works in medieval military history and the history of military technology It keeps fairly strictly to a geography which centers on conventional medieval boundaries Europe Byzantium and the Middle East However the chronology does differ from the conventional medieval dates Because of its influence on the early Middle Ages references to Late Antiquity especially to the military history and technology of the third and fourth century Roman Empire have been included For the opposite reason the influence of the Middle Ages on the sixteenth and early seventeenth centuries references to military history and technology up to 1648 have been included as well This is especially important in the study of the Ottoman Turkish Wars and Arms and Armor where the end of the fifteenth century as a chronological terminus makes little sense Jan van Naaldwijk's Chronicles of Holland Sjoerd Levelt, 2011 The little known author Jan van Naaldwijk whose two early sixteenth century Dutch chronicles of Holland are preserved in autograph manuscripts in the British Library wrote at a moment reputed to be the turning point between medieval and Renaissance modes of historical writing While he primarily relied on the medieval historical tradition of Holland he expanded it in ways that allow us to appreciate the broader impact of innovations occurring at the same time in more professional scholarly circles This is the first in depth study of these chronicles and their relation to their sources placed in the wider context of history writing running from the mid fourteenth century into the eighteenth providing new insights into the continuities and transitions that characterized the historical tradition of Holland from the late middle ages well into the early modern period An accompanying cd rom contains transcriptions of both Jan's chronicles Winner of the Society for Renaissance Studies Book Prize 2012 Short listed for the Royal Historical Society Gladstone Prize 2012 **A History of French Literature from the Earliest Times to the Great War** William Albert Nitze, Edwin Preston Dargan, 1922 **Arthurian Writers** Laura Lambdin, Robert Thomas Lambdin, 2007-11-30 King Arthur is perhaps the central figure of the medieval world and the lore of Camelot has captivated literary imaginations from the Middle Ages to the present Included in this volume are extended entries on more than 30 writers who incorporate Arthurian legend in their works Arranged chronologically the entries trace the pervasive influence of Arthurian lore on world literature across time Entries are written by expert contributors and discuss such writers as Geoffrey of Monmouth Boccaccio Chaucer Mark Twain John Steinbeck and Margaret Atwood Each entry provides biographical information a discussion of the author's use of Arthurian legend and contribution to the Arthurian literary tradition and a bibliography of primary and secondary material The volume begins with an introductory overview and concludes with suggestions for further reading The central figure of the medieval world King Arthur has captivated literary imaginations from the Middle Ages to the present This book includes extended entries on more than 30 writers in the Arthurian tradition Arranged chronologically and written by expert contributors the entries trace the pervasive influence of Arthurian legend from the Middle Ages to the present Each entry provides biographical information a discussion of the writer's use of
