nature indoors Recent research has also shown that artificialia and naturalia were displayed side by side in early modern Europe sometimes in the company of scientifica and that the exhibition set up often included a complex arrangement of stables kennels aviaries art gallery and library Villas and country houses displayed favourite horses as well as paintings and antiquities Botanical gardens and gardens of simples at monastic foundations and universities imposed order and intellectual scope to the cultivation of many new species imported to Europe during the age of exploration Of particular interest to the mission of this working group is the fact that so many collections of naturalia were displayed in close proximity to other collecting categories according to a similar choreography as well as according to a similar logistical set up Thus the collections outdoors as well as indoors resemble one another in terms of labels adopted and discussions conducted on the respective merits of order and categorisation The essays in the present volume therefore connect art nature and science by tracing objects as well as the practices of collecting and display from the early kunst und wunderkammern to the more scientific aspirations and publications of the eighteenth century Indoor as well as outdoor locations of collecting are considered as well as the dissemination of objects and knowledge in the form of books during a period which gradually led from an intrinsic if untidy connection between art and nature towards a new world of clear if unhappy divisions
