Your dog spends more time between the obstacles running with you on the flat than he does performing the obstacles. It's on the flat, after all, that you set up your dog's approach to the next obstacle. It's on the flat where you as handler do most of your job guiding the dog. Performing flatwork successfully requires excellent communication between dog and handler. Flatwork Foundation for Agility is also about developing a communication system with your dog as you teach him each agility maneuver without the distraction of obstacles. As you follow this training program, you will develop a set of cues and movements that indicate specific behaviors to the dog, and you will become aware of exactly what your body is really saying to your dog. Flatwork is your agility foundation, teaching you how to handle and how to make all your body language clear, consistent, coherent, and timely while also teaching your dog how to take direction and stay with you on course. **100 Exercises for Showjumping** Sarah Tubbs, 2025-02-18 From guiding the showjumping horse through flatwork and the initial stages of training to the collecting ring and competitions, 100 Exercises for Showjumping aims to cover all aspects of training with a wide range of exercises for all types of showjumping horses and ponies.
