Coming Out Jewish Jon Stratton, 2003-09-02 Like many Jews of our generation Jon Stratton grew up in a family more concerned about assimilation than about preserving Jewish tradition While he could easily pass among non Jews he found himself increasingly torn between his fear of not belonging and a deeply felt commitment to his family s past Coming Out Jewish examines the unique challenge of constructing an identity amid the clash between ethnicity and conformity For many Jews the idea of full assimilation ended with the Holocaust But the pressure to adapt to the mainstream Stratton eloquently argues remains

powerful especially for those with anglicized names assimilationist parents a history of recent immigration or ambivalent experiences of themselves as Jews With reference to the work of Daniel Boyarin Ien Ang and Homi Bhabha among others Stratton offers fresh analysis on a wide range of topics including the Jewish origins of pluralism in the US anti Semitism in Germany the Jewishness of sitcoms like Seinfeld and the Yiddishization of American culture since World War II More than a book about Jews and Jewishness Coming Out Jewish smartly and accurately mines the Jewish experience in the West to give voice to the issues of migration Diaspora assimilation and identity that affect those displaced and othered around the world

Congressional Record United States. Congress,1968 The Complete Kerner Report National Advisory Commission on Civil Disorders,2024-10 Given the present day threats to American democracy and the deep political divisions ahead of the 2024 presidential election Teachers College Press is publishing this federal report with a new introduction The Kerner Commission Report was issued by the National Advisory Commission on Civil Disorders a presidential commission established by President Lyndon B Johnson to determine the causes of urban riots during the summer of 1967 and to provide suggestions for improving race relations After 7 months of investigation a groundbreaking report was released that sent shockwaves through the nation Contrary to commonly held beliefs that largely blamed young Black men for the riots the report pointed to a lack of economic opportunity disastrous social service programs white racism police violence and a biased national media This federal report is being reissued to accompany the new book edited by Alan Curtis Creating Justice in a Multiracial Democracy which is a collection of essays by seminal scholars and activists on how the United States has or has not progressed since the Kerner Commission Report New York City Public Schools from Brownsville to Bloomberg Heather Lewis,2015-04-26 When New York City mayor Michael Bloomberg centralized control of the citys schools in 2002 he terminated the citys 32 year experiment with decentralized school control dubbed by the mayor and the media as the Bad Old Days Decentralization grew out of the community control movement of the 1960s which was itself a response to the bad old days of central control of a school system that was increasingly segregated and unequal In this probing historical account Heather Lewis draws on new archival sources and oral histories to argue that the community control movement did influence school improvement in particular African American and Puerto Rican communities in the 1970s and 80s Lewis shows how educators with unique insights into the relationships between the schools and the communities they served enabled meaningful change with a focus on instructional improvement and equity that would be familiar to many observers of contemporary education reform With a resurgence of local organizing and potential challenges to mayoral control this informative history will be important reading for todays educational and community leaders **Jewish and Romani Families in the Holocaust and its Aftermath** Eliyana R. losses and rebuilt their lives with a distinct focus on family Yet this perspective is lacking in academic analyses In this work scholars from the United States Israel and across Europe bring a variety of backgrounds and disciplines to their study of the Holocaust and its aftermath from the family perspective Drawing on research from Belarus to Great Britain and examining both Jewish and Romani families they demonstrate the importance of recognizing how people continued to function within family units broadly defined throughout the war and afterward *Community Anticrime Assistance Act of 1973* United States.
