**Stuffed Shark** Don Thompson, 2012-02-21 Why would a smart New York investment banker pay 12 million for the decaying stuffed carcass of a shark By what alchemy does Jackson Pollock's drip painting No 5 1948 sell for 140 million Intriguing and entertaining *The 12 Million Stuffed Shark* is a Freakonomics approach to the economics and psychology of the contemporary art world Why were record prices achieved at auction for works by 131 contemporary artists in 2006 alone with astonishing new heights reached in 2007 Don Thompson explores the money lust and self aggrandizement of the art world in an attempt to determine what makes a particular work valuable while others are ignored This book is the first to look at the economics and the marketing strategies that enable the modern art market to generate such astronomical prices Drawing on interviews with past and present executives of auction houses and art dealerships artists and the buyers who move the market Thompson launches the reader on a journey of discovery through the peculiar world of modern art Surprising passionate gossipy revelatory *The 12 Million Stuffed Shark* reveals a great deal that even experienced auction purchasers do not know

**The Global Rules of Art** Larissa Buchholz, 2022-11-22 A trailblazing look at the historical emergence of a global field in contemporary art and the diverse ways artists become valued worldwide Prior to the 1980s the postwar canon of international contemporary art was made up almost exclusively of artists from North America and Western Europe while cultural agents from other parts of the world often found themselves on the margins *The Global Rules of Art* examines how this discriminatory situation has changed in recent decades Drawing from abundant sources including objective indicators from more than one hundred countries multiple institutional histories and discourses extensive fieldwork and interviews with artists critics curators gallerists and auction house agents Larissa Buchholz examines the emergence of a world spanning art field whose logics have increasingly become defined in global terms Deftly blending comprehensive historical analyses with illuminating case studies *The Global Rules of Art* breaks new ground in its exploration of valuation and how cultural

hierarchies take shape in a global context The book s innovative global field approach will appeal to scholars in the sociology of art cultural and economic sociology interdisciplinary global studies and anyone interested in the dynamics of global art and culture

**Everyday Genius** Gary Alan Fine, 2006-08-01 From Henry Darger s elaborate paintings of young girls caught in a vicious war to the sacred art of the Reverend Howard Finster the work of outsider artists has achieved unique status in the art world Celebrated for their lack of traditional training and their position on the fringes of society outsider artists nonetheless participate in a traditional network of value status and money After spending years immersed in the world of self taught artists Gary Alan Fine presents *Everyday Genius* one of the most insightful and comprehensive examinations of this network and how it confers artistic value Fine considers the differences among folk art outsider art and self taught art explaining the economics of this distinctive art market and exploring the dimensions of its artistic production and distribution Interviewing dealers collectors curators and critics and venturing into the backwoods and inner city homes of numerous self taught artists Fine describes how authenticity is central to the system in which artists often poor elderly members of a minority group or mentally ill are seen as having an unfettered form of expression highly valued in the art world Respected dealers he shows have a hand in burnishing biographies of the artists and both dealers and collectors trade in identities as much as objects Revealing the inner workings of an elaborate and prestigious world in which money personalities and values affect one another Fine speaks eloquently to both experts and general readers and provides rare access to a world of creative invention both by self taught artists and by those who profit from their work Indispensable for an understanding of this world and its workings Fine s book is not an attack on the Outsider Art phenomenon But it is masterful in its anatomization of some of its contradictions conflicts pressures and absurdities Eric Gibson Washington Times

[Anthropology, Art and Cultural Production](#) Maruska Svasek, 2007-02-20 This book provides an introduction to anthropological perspectives on art Svasek defines art as a social process We study not only the artefacts themselves and the values attributed to them but also the process of production and its wider context Providing a critical overview of various anthropological theories of art Svasek offers a new perspective which centres on the analysis of commoditisation aestheticisation and object agency She explores the process of collecting and exhibiting art works and how this relates to art s production distribution and consumption in an increasingly global market The book outlines the significance of art and aesthetics in everyday life and examines the shifting boundaries between art and other categories such as kitsch souvenirs propaganda and pornography Finally Svasek argues for an anthropological perspective that links the production and consumption of artefacts to political religious and other cultural processes Ideal as a teaching text this book gives a detailed overview of themes that are central to the fields of art history art sociology and cultural studies

[Art Market Research](#) Tom McNulty, 2013-12-27 This book is for art market researchers at all levels A brief overview of the global art market and its major stakeholders precedes an analysis of the various sales venues auction commercial gallery etc Library research skills are reviewed and advanced methods are explored

**Foreign Currency Volatility and the Market for French Modernist Art** David Challis,2021-08-04 Foreign Currency Volatility and the Market for French Modernist Art examines how the collapse of the French franc in the decades following the First World War activated powerful push and pull economic forces that compelled French art collectors to monetise their collections while simultaneously elevating the purchasing power of international art collectors These factors are shown to have played a significant and previously under recognised role in the large scale translocation of French modernist art that radically accelerated its commercial and critical reception across the globe and positioned it at the apex of the newly established hierarchy of modern art

*Art of the Deal* Noah Horowitz,2014-08-31 An eye opening look at collecting and investing in today s art market Art today is defined by its relationship to money as never before Prices have been driven to unprecedented heights conventional boundaries within the art world have collapsed and artists think ever more strategically about how to advance their careers Art is no longer simply made but packaged sold and branded In *Art of the Deal* Noah Horowitz exposes the inner workings of the contemporary art market explaining how this unique economy came to be how it works and where it s headed In a new postscript Horowitz reflects on the market s continued ascent as well as its most urgent challenges

**Comparative Contract Law** Larry A. DiMatteo,Martin Hogg,2016 Bringing together leading commercial and contract law scholars from the United Kingdom and United States *Comparative Contract Law British and American Perspectives* offers an insightful and comprehensive assessment of the commonalities and divergences in the contract law of these two jurisdictions Approaching the subject area from a variety of perspectives doctrinal analysis behavioral analysis law and economics and theoretical the book examines familiar areas of contract law as practiced in the UK and US Topics include contract theory and structure contract formation and defects of consent policing contracts and the duty of good faith contract interpretation damages speciality contracts and legal reform The volume provides a thorough assessment of the current state of commercial contract law in the UK and US and addresses the strengths and weaknesses of the national and European approaches to many issues of contract law In particular it focuses on how commercial contract law should be improved and whether harmonization of the different contract law regimes is a suitable and appropriate solution

**New Class Culture** Avrom Fleishman,2002-10-30 A new class is emerging

in the wake of the information economy and is altering American culture Instead of arguing about values in aesthetic taste or morality this book sheds new light on the culture wars by examining the social sources of recent cultural developments Both opponents and defenders of the current cultural scene have neglected the class factors in culture generally and in present society If the new class is added to our picture of American society its input into the cultural marketplace helps to explain present trends in postmodernism mixtures of high and low culture and other recent developments Both opponents and defenders of the cultural scene have neglected the class factors in culture generally and in present society Instead of arguing about values in aesthetic taste or morality this book offers a new perspective on the culture wars by inquiring into the social sources of the argument When a new class is seen to have emerged in the wake of the information economy its effects on cultural taste and style will help to explain both their strengths and weaknesses The book's message is that much of the heat generated in the culture wars may be lowered and clarification obtained by observing a principle in social and aesthetic matters every class has its culture When the social functions of both high and popular cultures are acknowledged it becomes possible to criticize current offerings for their effectiveness or limitations in fulfilling those functions If the new class is added to our picture of American society its input into the cultural marketplace helps to explain present trends in postmodernism mixtures of high and low culture and other recent developments

#### **Madeleine's War** Peter

Watson, 2016-07-12 When Colonel Matthew Hammond was posted to the European theater during World War II he sustained a serious injury on the front lines that cost him a lung Now he is back in England unable to fight but continuing to serve his country by training new resistance fighters in SC2 a specialist sabotage outfit One of the recruits under his tutelage is the spellbinding Madeleine Dirac an exotic French Canadian nurse Despite protocols discouraging romance they fall deeply in love Matthew is torn about putting Madeleine's life in danger he has mixed duty and pleasure before with tragic results his former lover Celestine was killed in an attempt to assassinate a Nazi doctor But the Allies are mustering all their resources for crucial beach landings in Normandy and Matthew knows his unit will be needed to parachute its agents in behind Nazi lines Vivid and unforgettable Madeleine's War is a gripping tale of love in wartime and of men and women caught in the sweep of history

**The Faustian Bargain** Jonathan Petropoulos, 2000-03-30 Nazi art looting has been the subject of enormous international attention in recent years and the topic of two history bestsellers Hector Feliciano's *The Lost Museum* and Lynn Nicholas's *The Rape of Europa* But such books leave us wondering What made thoughtful educated artistic men and women decide to put their talents in the service of a brutal and inhuman regime This question is the starting point for *The Faustian Bargain* Jonathan Petropoulos's study of the key figures in the art world of Nazi Germany Petropoulos follows the careers of these prominent individuals who like Faust that German archetype chose to pursue artistic ends through collaboration with diabolical forces Readers meet Ernst Buchner the distinguished museum director and expert on Old Master paintings who repatriated the Van Eyck brother's Ghent altarpiece to Germany and Karl Haberstock an art dealer

who filled German museums with works bought virtually at gunpoint from Jewish collectors Robert Scholz the leading art critic in the Third Reich became an officer in the chief art looting unit in France and Kajetan Muhlmann a leading art historian was probably the single most prolific art plunderer in the war and arguably in history Finally there is Arno Breker a gifted artist who exchanged his modernist style for monumental realism and became Hitler's favorite sculptor If it is striking that these educated men became part of the Nazi machine it is more remarkable that most of them rehabilitated their careers and lived comfortably after the war Petropoulos has discovered a network of these rehabilitated experts that flourished in the postwar period and he argues that this is a key to the tens of thousands of looted artworks that are still missing today Based on previously unreleased information and recently declassified documents *The Faustian Bargain* is a gripping read about the art world during this period and a fascinating examination of the intense relationship between culture and politics in the Third Reich

**Talking Prices** Olav Velthuis, 2007-08-19 How do dealers price contemporary art in a world where objective criteria seem absent *Talking Prices* is the first book to examine this question from a sociological perspective On the basis of a wide range of qualitative and quantitative data including interviews with art dealers in New York and Amsterdam Olav Velthuis shows how contemporary art galleries juggle the contradictory logics of art and economics In doing so they rely on a highly ritualized business repertoire For instance a sharp distinction between a gallery's museumlike front space and its businesslike back space safeguards the separation of art from commerce Velthuis shows that prices far from being abstract numbers convey rich meanings to trading partners that extend well beyond the works of art A high price may indicate not only the quality of a work but also the identity of collectors who bought it before the artist's reputation was established Such meanings are far from unequivocal For some a high price may be a symbol of status for others it is a symbol of fraud Whereas sociological thought has long viewed prices as reducing qualities to quantities this pathbreaking and engagingly written book reveals the rich world behind these numerical values Art dealers distinguish different types of prices and attach moral significance to them Thus the price mechanism constitutes a symbolic system akin to language

*Art Of The Postmodern Era* Irving Sandler, 2018-05-30 Sandler discusses the major and minor artists and their works movements ideas attitudes and styles and the social and cultural context of the period He covers post modernist art theory the art market and consumer society American and European art and artists are included
