## **From Myth To Reason Studies In The Development Of Greek Thought:**

*From Myth to Reason?* Richard G. A. Buxton, 2023 It is commonly thought that Greek civilisation underwent a transition from myth to reason But what does this mean and how much truth is there in it This text reconsiders the issues involved

**Allegory in Early Greek Philosophy** Jennifer Lobo Meeks, 2020-10-20 Allegory in Early Greek Philosophy examines the role that allegory plays in Greek thought particularly in the transition from the mythic tradition of the archaic poets to the philosophical traditions of the Presocratics and Plato It explores how a mode of speech that says one thing but means another is integral to philosophy which otherwise seeks to achieve clarity and precision in its discourse By providing the early Greek thinkers with a way of defending and appropriating the poetic wisdom of their predecessors allegory enables philosophy to locate and recover its own origins in the mythic tradition Allegory allows philosophy simultaneously to move beyond mythos and express the whole in terms of logos a rational account in which reality is represented in a more abstract and universal way than myth allows

**Deification in Classical Greek Philosophy and the Bible** James Bernard Murphy, 2024-06-30 The goal of human life according to Plato Aristotle and the Bible is to become as much like god as possible This book written in vivid and lucid English illuminates Greek philosophy by showing how it grows out of ancient Greek religion and how it compares to biblical religion

**Plots of Epiphany** John B. Weaver, 2013-02-06 Past scholarship on the prison escapes in the Acts of the Apostles has tended to focus on lexical similarities to Euripides Bacchae going so far as to argue for direct literary dependence Moving beyond such explanations the present study argues that miraculous prison escape was a central event in a traditional and culturally significant story about the introduction and foundation of cults a story discernable in the Bacchae and other ancient texts When the mythic quality and cultural diffusion of the prison escape narratives are taken into account the resemblance of Lukan and Dionysian narrative episodes is seen to depend less on specific literary borrowing and more on shared familiarity with cultural discourses involving the legitimating portrayal of new cults in the ancient world

**How Women Became Poets** Emily Hauser, 2025-11-04 How the idea of the author was born in the battleground of gender When Sappho sang her songs the only word that existed to describe a poet was a male one aoidos or singer man The most famous woman poet of ancient Greece whose craft was one of words had no words with which to talk about who she was and what she did In How Women Became Poets Emily Hauser rewrites the story of Greek literature as one of gender arguing that the ways the Greeks talked about their identity as poets constructed played with and broke down gender expectations that literature was for men alone Bringing together recent studies in ancient authorship gender and performativity Hauser offers a new history of classical literature that redefines the canon as a constant struggle to be heard through and sometimes despite gender Women as Virginia Woolf recognized need rooms of their own in order to write So too have women writers through history needed a name to describe what it is they do Hauser traces the invention of that name in ancient Greece exploring the archaeology of the gendering of the poet She follows ancient Greek poets philosophers and historians as they developed and debated the vocabulary for authorship on the battleground of gender building up and reinforcing the word for male poet then in response creating a language with which to describe women who write Crucially Hauser reinserts women into the traditionally all male canon of Greek literature arguing for the centrality of their role in shaping ideas around authorship and literary production

Boethius' Consolation of Philosophy as a Product of Late Antiquity Antonio Donato, 2013-09-12 In the last fifty years the field of Late Antiquity has advanced significantly Today we have a picture of this period that is more precise and accurate than before However the study of one of the most significant

texts of this age Boethius Consolation of Philosophy has not benefited enough from these advances in scholarship Antonio Donato aims to fill this gap by investigating how the study of the Consolation can profit from the knowledge of Boethius cultural political and social background that is available today The book focuses on three topics Boethius social political background his notion of philosophy and its sources and his understanding of the relation between Christianity and classical culture These topics deal with issues that are of crucial importance for the exegesis of the Consolation The study of Boethius social political background allows us to gain a better understanding of the identity of the character Boethius and to recognize his role in the Consolation Examination of the possible sources of Boethius notion of philosophy and of their influence on the Consolation offers valuable instruments to evaluate the role of the text s philosophical discussions and their relation to its literary features Finally the long standing problem of the lack of overt Christian elements in the Consolation can be enlightened by considering how Boethius relies on a peculiar understanding of philosophy s goal and its relation to Christianity that was common among some of his predecessors and contemporaries

Valuing the Past in the Greco-Roman World Christoph Pieper, James Ker, 2014-05-28 The classical tradition is no invention of modernity Already in ancient Greece and Rome the privileging of the ancient played a role in social and cultural discourses of every period A collaboration between scholars in diverse areas of classical studies this volume addresses literary and material evidence for ancient notions of valuing or disvaluing the deep past from approximately the fifth century BCE until the second century CE It examines how specific communities used notions of antiquity to define themselves or others which models from the past proved most desirable what literary or exegetic modes they employed and how temporal systems for ascribing value intersected with the organization of space the production of narrative or the application of aesthetic criteria

*Host or Parasite?* Allen J. Romano, John Marincola, 2019-10-21 Building upon the explosion of recent work on mythography contributions to this volume direct attention to less frequently explored questions of how ancient poets historians and philosophers themselves adopted and adapted the work of mythographers Study of the way that mythographers and their contemporaries take on positions of alternately host or parasite in relation to the other exposes the richness mythographic practice and the roles that mythographers played in the evolving Greco Roman discourse of myth From among others the seeds of mythographic discourse in Pindar and Plato to the mythography of the Peripatetics the

in between mythography of Diodorus Siculus and the mythographic topography of Pausanias this volume invites a reappraisal of the role that mythography played at every stage of Greek thought about myth Through contributions that explore both mythographers distinctive style of studying myth to other contributions that focus primarily on the how and why of non mythographers use of mythographic techniques what emerges is a picture of mythography that broadens our conception of mythography while at the same time inviting scholars to seek out more such echoes of mythographic discourse in the work of poets historians philosophers at large
