From Containment To Global Leadership:

From Containment to Global Leadership? America and the World After the Cold War, 1995 This report discusses the importance of grand strategy for the United States in the post Cold War era It aims to contribute to the debate on what that grand strategy should be It should be of interest to policy makers and analysts in the realms of security and foreign policy future military forces and their roles and missions alliances burden sharing intelligence priorities and international politics generally The report identifies three potential grand strategies makes the case for choosing one of them and offers recommendations for how to pursue that strategy The three options identified and discussed are Neo isolationism This option would involve abandoning U S preeminence and turning inward to face domestic problems a return to pre World War II multipolarity This option would rely on the balance of power among several nations to preclude the emergence of a preeminent superpower and maintain U S global leadership and preclude the rise of another global rival and multipolarity The goal is the most promising for a future U S grand strategy A world in which the United States exercises leadership would be more peaceful and offer a better chance for global cooperation and minimize the likelihood of new world wars **The DTIC Review**, 1995-08 **Order and Disorder After the Cold War** Brad Roberts, 1995 This volume collates 24 articles from The Washington Quarterly The articles all centre around the order and disorder in the post Cold War era evaluating the changing roles of the major powers and the new political and military challenges to international **Wanting War** Jeffrey Record, 2010 A complete explanation of the U S decision to go to war in 2003 After Liberalism? R. Friedman, K. Oskanian, R. Pacheco Pardo, Ramon Pacheco Pardo, 2013-09-12 In this collection leading international scholars provide their perspectives on the continuing role of the liberal paradigm both as a theoretical approach to international relations and as an ordering principle of international politics *The Reagan Revolution, I* Richard C. Thornton, 2003-08-25 This is a book about the strategy and politics of the Reagan administration a watershed in U S history It is the record of how the president established and implemented the strategy that would ultimately lead to a victory over the S U in the Cold War US Foreign Policy in the Post-Cold War Era T. Onea, 2013-10-17 Why has the US proven unable to enact a foreign policy of restraint in the post Cold War era For all but a brief period in the 1990s US foreign policy is marked by an assertive appearance despite relative hegemony This book examines the causes and impact of US foreign policy measuring its successes pitfalls and what the future has in store Across Type, Time and Space Peter Dombrowski, Simon Reich, 2021-08-12 The field of grand strategy is exceptionally American centric theoretically methodologically and empirically Indeed many scholars treat the United States as a unique case and thus incomparable This Element addresses the shortcomings of this approach by developing a novel framework for the purpose of systematic comparison both within and among different countries Using the United States as a benchmark three dimensions are considered in which grand strategy can be compared first attributes of the major types commonly discussed in the literature second similarities and differences

in the implementation of grand strategies over time using US strategic relations with contemporary Russia as an example and finally across space properties of the grand strategies that are interactively employed by other major powers in relation to the United States in the Indo Pacific The Element can be used by scholars and students alike to expand analysis beyond the confines that currently dominate the field

Terror and Territory Stuart Elden, 2009 Today's global politics demands a new look at the concept of territory From so called deterritorialized terrorist organizations such as al Qaeda to U S led overthrows of existing regimes in the Middle East the relationship between territory and sovereignty is under siege Unfolding an updated understanding of the concept of territory Stuart Elden shows how the contemporary war on terror is part of a widespread challenge to the connection between the state and its territory Although the importance of territory has been disputed under globalization territorial relations have not come to an abrupt end Rather Elden argues the territory sovereignty relation is being reconfigured Traditional geopolitical analysis is transformed into a critical device for interrogating hegemonic geopolitics after the Cold War and is employed in the service of reconsidering discourses of danger that include failed states disconnection and terrorist networks Looking anew at the war on terror the development and application of U S policy the construction and demonization of rogue states events in Lebanon Somalia and Pakistan and the wars continuing in Afghanistan and Iraq *Terror and Territory* demonstrates how a critical geographical analysis informed by political theory and history can offer an urgently needed perspective on world events

Empire's Ally Jerome Klassen, Greg Albo, 2013-01-10 The war in Afghanistan has been a major policy commitment and central undertaking of the Canadian state since 2001 Canada has been a leading force in the war and has spent hundreds of millions of dollars on aid and reconstruction After a decade of conflict however there is considerable debate about the efficacy of the mission as well as calls to reassess Canada's role in the conflict An authoritative and strongly analytical work *Empire's Ally* provides a much needed critical investigation into one of the most polarizing events of our time This collection draws on new primary evidence including government documents think tank and NGO reports international media files and interviews in Afghanistan to provide context for Canadian foreign policy to offer critical perspectives on the war itself and to link the

conflict to broader issues of political economy international relations and Canada's role on the world stage Spanning academic and public debates *Empire's Ally* opens a new line of argument on why the mission has entered a stage of crisis

The Atlantic Alliance Under Stress David M. Andrews, 2005-07-21 Can the political institutions of the transatlantic alliance endure the demise of the Soviet enemy Did the Iraq crisis of 2002-3 signal the final demise of the Atlantic partnership If so what are the likely consequences In this book a distinguished group of political scientists and historians from Europe and the United States tackle these questions The book examines the causes and consequences of the crisis in Atlantic relations that accompanied the invasion of Iraq in March 2003 The authors collective focus is not on the war itself or how it was conducted or even the situation in Iraq either before or after the conflict Instead the crisis over Iraq is the starting point for an examination of transatlantic relations and specifically the Atlantic alliance an examination that is cross national in scope and multi disciplinary in approach

When the Stakes Are High Vesna Danilovic, 2010-06-04 When the Stakes Are High is based on the premise that powers have continually played a decisive role in international conflicts Consequently one of the key questions concerns the conditions that are likely to trigger or abate dispute escalation into major power conflicts In this book Vesna Danilovic provides a rigorous theoretical and empirical analysis of these conditions Since the most precarious and common form of dispute between major powers arises over third nations the author's primary focus is on so called extended deterrence In this type of deterrence one side attempts to prevent another side from initiating or escalating conflict with a third nation When the Stakes Are High addresses such questions as When is extended deterrence likely to be effective What happens if deterrence fails In what circumstances is war likely to result from a deterrence failure The author's main argument is that a major power's national interests which shape the inherent credibility of threats and which are shaped by various regional stakes set the limits to the relevance of other factors which have received greater scholarly attention in the past Strongly supported by the empirical findings the arguments in this work draw important implications for conflict theory and deterrence policy in the post Cold War era This book will appeal to the reader interested in international relations in general and in theories of international conflict deterrence causes of wars great power behavior and geopolitics in particular Vesna Danilovic is Assistant Professor of Political Science Texas A M University

Bush in 2000 *The Rift Between America and Old Europe* Peter Merkl, 2005-11-17 This new book explains the recent rift between America and some of her oldest European allies especially with Germany and France Particular attention is devoted to the several competing interpretations of the Euro American rift for example that Europeans were taken aback when American neo conservative leaders scornfully rejected their well meant offers of post 9 11 assistance with expressions of disdain for the allies backward military technology and budgets The Bush administration s rejection of the Kyoto Treaty its environmental stance and its position on international treaties are also examined in detail Merkl s interpretation emphasizes America s neo imperial unilateralist posture and policies as contrasted to the Wilsonian internationalism that created the United Nations and established international rule of law backed up by the Security Council a web of international treaties and international courts including the International Court of Criminal Justice Today s American leaders thus oppose European champions of an American initiated international order while identifying themselves with the imperialist European doctrines and practices of another age **Imperial Designs** Gary Dorrien, 2013-01-11 This work argues that the influence of neoconservatives has been none too small and all too important in the shaping of this monumental doctrine and historic moment in American foreign policy Through a fascinating account of the central figures in the neoconservative movement and their push for war with Iraq he reveals the imperial designs that have guided them in their quest for the establishment of a global Pax Americana **Energy in American History** Jeffrey B. Webb, Christopher R. Fee, 2024 Contextualizes and analyzes the key energy transitions in U S history and the central importance of energy production and consumption on the American environment and in American culture and politics **The Iraq War Reader** Christopher Cerf, 2003-05-15 Despite the torrent of coverage devoted to war with Iraq woefully little attention has been paid to the history of the region the policies that led to the conflict and the daunting challenges that will confront America and the Middle East once the immediate crisis has ended In this collection Micah L Sifry and Christopher Cerf coeditors of the acclaimed Gulf War Reader have assembled essays and documents that present an eminently readable up to the moment guide from every imaginable perspective to the continuing crisis in the Gulf and Middle East Here in analysis and commentary from some of the world s leading writers and opinion makers and in the words of the key participants themselves is the engrossing saga of how oil economics power politics dreams of empire nationalist yearnings and religious fanaticism not to mention naked aggression betrayal and tragic miscalculation have conspired to bring us to the fateful collision of the West and the Arab world over Iraq Contributors include Fouad Ajami George W Bush Richard Butler John le Carr Noam Chomsky Ann Coulter Thomas Friedman Al Gore Seymour Hersh Christopher Hitchens Arianna Huffington Saddam Hussein Terry Jones Robert Kagan Charles Krauthammer William Kristol Nicholas Lemann Kanan Makiya Kevin Phillips Kenneth Pollack Colin Powell Condoleezza Rice Arundhati Roy Edward Said William Safire Jonathan Schell Susan Sontag George Will
