From Death To Birth:

Of Death and Birth Barbara Schuler, 2009 Scholars of popular Hindu religion in India have always been fascinated by oral texts and rituals but surprisingly only few attempts have as yet been made to analyse the relationship between rituals and texts systematically This book contributes to the filling of this gap Focusing on the dynamics of a local non Brahmanical ritual its modular organisation and inner logic the interaction between narrative text and ritual and the significance of the local versus translocal nature of the text in the ritual context the study provides a broad range of issues for comparison It demonstrates that examining texts in their context helps to understand better the complexity of religious traditions and the way in which ritual and text are programmatically employed The author offers a vivid description of a hitherto unnoticed ritual system along with the first translation of a text called the Icakkiamman Katai IK Composed in the Tamil language the IK represents a substantially longer and embellished form of a core versio which probably goes as far back as the seventh century C E Unlike the classical source this text has been incorporated into a living tradition and is being constantly refashioned A range of text versions have been encapsulated in the form of a conspectus which will shed light on the text s variability or fixity and will add to our knowledge of bardic creativity Includes a film by the author on DVD Physicians'

The Medicalization of Birth and Death Lauren K. Hall, 2019-12-17 Improving how individuals give birth and die in the United States requires reforming the regulatory reimbursement and legal structures that centralize care in hospitals and prevent the growth of community based alternatives In 1900 most Americans gave birth and died at home with minimal medical intervention By contrast most Americans today begin and end their lives in hospitals The medicalization we now see is due in large part to federal and state policies that draw patients away from community based providers such as birth centers and hospice care and toward the most intensive and costliest kinds of care But the evidence suggests that birthing and dying people receive too much even harmful medical intervention In *The Medicalization of Birth and Death* political scientist Lauren K Hall describes how and why birth and death became medicalized events While hospitalization provides certain benefits she acknowledges it also creates harms limiting patient autonomy driving up costs and causing a cascade of interventions many with serious side effects Tracing the regulatory legal and financial policies that centralize care during birth and death Hall argues that medicalization reduces competition stifles innovation and prevents individuals from accessing the most appropriate care during their most vulnerable moments She also examines the profound implications of policy enforced medicalization on informed consent and shows how medicalization challenges the healthcare community s most foundational ethical commitments Drawing on interviews with medical and nonmedical healthcare providers as well as surveys of patients and their families Hall provides a broad overview of the costs benefits and origins of medicalized birth and death *The Medicalization of Birth and Death* is

required reading for academics patients providers policymakers and anyone else interested in how policy shapes healthcare options and limits patients and providers during life s most profound moments

From Jesus to Marx - Birth and death of a civilization Marcello Caroti,2023-12-22 This book is an educational text written to introduce our readers to Western Civilization How it was born and how it grew to become the world s leading civilization in the last century for better or for worse The text tells the story of the genesis and decline of our civilization through two revolutionary figures Jesus of Nazareth and Karl Marx The thesis on which the book is based is that just as Christianity erased Greco Roman civilization from the face of the earth Socialism transformed into Progressivism is killing Western Civilization dragging it toward suicide The disease that is overwhelming us is nihilism We affirm that Progressives are the new Christians because as the first Christians did they are the bearers of a disease that is terminal for our society nihilism This book is the history of nihilism starting from Jesus of Nazareth and ending with our Progressives We must point out that although Jesus vision included nihilistic elements it also laid the ethical foundations that shaped Western Civilization In contrast Marx s revelation deeply nihilistic influenced modern Progressivism leading to existential challenges for our civilization In other words our future is a black hole

From Jesus to Marx by Marcello Caroti is a profound historical and anthropological exploration that starts from the revolutionary figure of Jesus Christ to arrive at the modern ideologies of Karl Marx In this intriguing journey through the centuries the author sheds light on how the teachings and actions of Jesus influenced not only religious thought but also the social and political currents that have shaped the modern world The book begins by analysing Jesus mission in detail exploring his differences with John the Baptist and how his message of hope and salvation stood out in an era of rigid social and religious divisions The author then traces an intellectual and historical path that connects the doctrines of Jesus with the theories of Marx highlighting how Christianity influenced and shaped Marxist thought With clear language and engaging narrative **From Jesus to Marx** is not only essential reading for history and anthropology buffs but also for anyone interested in understanding the roots of modern thought and its impact on society The book offers a unique and thought provoking perspective on two of the most influential figures in human history and their lasting impact

The Wages Of Sin: Book Four. The Birth Of Death L.E. Parker,2018-06-04 When an unstable power is unleashed upon the worlds the Earth is left to tremble under the weight of deception as the pieces move across the board towards an inevitable and destructive war with only the hands of evil to play with them Deceit is unmasked mistrust begins to fester and curiosity that rises in so few risks being torn away as everything is left without the protection of the light As lies begin to be untold the passage of death is born to the Earth in silent horror as the fingers of the Devil reach into each and every soul of humankind with no sign of peace to lead them to safety It matters only to one being that there is salvation and yet with his will broken beyond repair the Earth faces the birth of never ending darkness entirely alone with only dust to suffocate their fragile hope for deliverance

Giving Birth Margaret L. Hammer,1994-01-01 The birth of a child is important in the lives of women families and

communities But as a metaphor for pastoral practice it is a sadly underdeveloped theme in theology and ministry The author offers a remedy for this lack with this unique work urging the incorporation into worship of Scripture with allusions to birthing which would enliven the church's theology

Ihejiro, 2018-12-21 The Existence By Theodore Ihejiro The Existence is a book of love and life that talks about the world as the existence of human beings and tells human beings to understand that the world is the love and the life It is a book of Planet Earth which the Planet Earth gave to the author because the author asked the Planet Earth for the book of the world The author is a human being who lost faith in God and called on Planet Earth to do work and save human beings from evil and death in the world This is a book of a human being who was challenged by evil and death in the world and the human being called on his existence for help and protection The author did not like to die in the world and told his existence that he did not want to die because the author believed that Planet Earth has the power to save human beings in the world The Existence is the faith the hope and the charity that God challenged human beings to find and tell the mountain of evil and death to move away from human beings

A stochastic process X_t on S with discrete state space S is said to be stochastically increasing decreasing on an interval T if the probabilities $Pr\{X_t \in E\}$ are increasing decreasing with t on T Stochastic monotonicity is a basic structural property for process behaviour It gives rise to meaningful bounds for various quantities such as the moments of the process and provides the mathematical groundwork for approximation algorithms Obviously stochastic monotonicity becomes a more tractable subject for analysis if the processes under consideration are such that stochastic monotonicity on an interval T

The New Birth Austin Phelps, 1878 **Materialities of Passing** Peter Bjerregaard, Anders Emil Rasmussen, Tim Flohr Sørensen, 2016-03-17 Passing is a common euphemism for the death of

a person as he or she is said to pass away or pass on This open ended saying has at its heart a notion of transformation from one state to another which in turn grants the possibility of grasping or approximating the passage of time and the materiality of death and decay This book begins with the idea that since all material things whether animals human beings objects or buildings undergo some form of passing then the specific transformation in these passages and the materiality actively given to it can offer us a grasp of otherwise precarious temporalities It examines how human beings strive to relate to the temporal dimension of death and decay by giving new shape and direction to being and by examining its natural transformations Focusing on the materiality of passing and thereby the relationship between embodiment temporality and death Materialities of Passing offers rich case studies from Europe Papua New Guinea South Africa and the Russian Far East for exploring the material spatial and directional aspects of the very interface between life and death As such it will appeal to scholars of anthropology death studies archaeology philosophy and cultural studies
