From Emperor To Citizen Volume 1:

Gold Warriors Peggy Seagrave, Sterling Seagrave, 2020-05-05 In 1945 US intelligence officers in Manila discovered that the Japanese had hidden large quantities of gold bullion and other looted treasure in the Philippines President Truman decided to recover the gold but to keep its riches secret These combined with Japanese treasure recovered during the US occupation and with recovered Nazi loot would create a worldwide American political action fund to fight communism This Black Gold gave Washington virtually limitless unaccountable funds providing an asset base to reinforce the treasuries of America's allies to bribe political and military leaders and to manipulate elections in foreign countries for more than fifty years

Legacies of Childhood Jon L. Saari, 2020-03-17 Jon L Saari defines the generation of educated Chinese born around the turn of the twentieth century as the last to have the world of Confucian learning etched into their memories as schoolboys yet the first as a group to confront the intrusive Western world The legacies of growing up in a changing environment deeply affected this generation's responses to the further changes in the world they confronted as adults In the collapse of the Ch'ing dynasty and the chaos of the early twentieth century traditional ideas of the self the nature of relationships in society and ethical behavior had to be reexamined and redefined To reconstruct what those who lived through and shaped this extraordinary period felt needed thought and became as children and adults Saari draws on autobiographical writings and his own interviews among the elderly on Taiwan and Hong Kong He interprets this material within its Chinese context but brings Western sociological anthropological and psychological insights to bear on it

Constructing Empire Bill Sewell, 2019-02-15 Civilians play crucial roles in building empires *Constructing Empire* shows how Japanese urban planners architects and other civilians contributed often enthusiastically to constructing a modern colonial enclave in northeast China their visions shifting over time Japanese imperialism in Manchuria before 1932 developed in a manner similar to that of other imperialists elsewhere in China but the Japanese thereafter sought to surpass their rivals by transforming the city of Changchun into a grand capital for the puppet state of Manchukuo putting it on the cutting edge of Japanese propaganda Providing a thematic assessment of the evolving nature of planning architecture economy and society in Changchun Bill Sewell examines the key organizations involved in developing Japan's empire there as part of larger efforts to assert its place in the world order This engaging book sheds light on evolving attitudes toward empire and perceptions of national identity among Japanese in Manchuria in the first half of the twentieth century

The World According to Colour James Fox, 2021-10-07 Extraordinary An intellectual feast as well as a visual one Edmund de Waal author of *The Hare with Amber Eyes* The world comes to us in colour But colour lives as much in our imaginations as it does in our surroundings as this scintillating book reveals Each chapter immerses the reader in a single colour drawing together stories from the histories of art and humanity to illuminate the meanings it has been given over the eras and around the globe Showing how artists scientists writers philosophers explorers and inventors have both shaped and been shaped by these

wonderfully myriad meanings James Fox reveals how through colour we can better understand their cultures as well as our own Each colour offers a fresh perspective on a different epoch and together they form a vivid exhilarating history of the world We have projected our hopes anxieties and obsessions onto colour for thousands of years Fox writes The history of colour therefore is also a history of humanity *China Resurrected* Frans-Paul van der Putten,2025-06-12 China s rise to superpower is seemingly a modern phenomenon but it has a long history This book follows China s geopolitical transformation on the world stage from struggling to defend herself against the British in the Opium Wars to rivalling the United States for supremacy What started as a response to Europe s colonial influence has gradually become China s quest to take a leading role on the word stage But how did this happen And what kind of actor is China as a global great power The answers to these questions lie in how China has been shaped by its changing relationships with major world powers over the last two centuries Arguing that a series of military defeats in the Opium Wars Boxer Crisis and Japanese occupation led to a deep rooted national sense of geopolitical vulnerability van der Putten shows how this imbalance of power has resulted in Chinese distrust and uncertainty even after it ceased to be prey to imperialist powers Tracing China s relations with other major powers over the last 185 years *China Resurrected* shows how they have influenced the way in which China itself has become a leading power and what this means for its relations with the West **China Voyager** Willliam J. Haas,2016-09-16 A biography of an important but little known American scientist that evokes the issues of religious and secular beliefs and the evolution of Chinese scientific and educational institutions during the early 1900s *The World According to Color* James Fox,2022-04-12 A kaleidoscopic exploration that traverses history literature art and science to reveal humans unique and vibrant relationship with color We have an extraordinary connection to color we give it meanings associations and properties that last millennia and span cultures continents and languages In *The World According to Color* James Fox takes seven elemental colors black red yellow blue white purple and green and uncovers behind each a root idea based on visual resemblances and common symbolism throughout history Through a series of stories and vignettes the book then traces these meanings to show how they morphed and multiplied and ultimately how they reveal a great deal about the societies that produced them reflecting and shaping their hopes fears prejudices and preoccupations Fox also examines the science of how our eyes and brains interpret light and color and shows how this is inherently linked with the meanings we give to hue And using his background as an art historian he explores many of the milestones in the history of art from Bronze Age gold work to Turner Titian to Yves Klein in a fresh way Fox also weaves in literature philosophy cinema archaeology and art moving from Monet to Marco Polo early Japanese ink artists to Shakespeare and Goethe to James Bond By creating a new history of color Fox reveals a new story about humans and our place in the universe second only to language color is the greatest carrier of cultural meaning in our world Eastern Horizon ,1965 **Eastern World** ,1965 **Comment** ,1965 T.L.S. ,1965 **Transnational Intellectual Property Law** Robert P. Merges,Seagull Haiyan Song,2018-04-27 As

companies and organisations increasingly operate across national boundaries so the incentive to understand how to acquire deploy and protect IP rights in multiple national jurisdictions has rapidly increased Transnational Intellectual Property Law meets the need for a book that introduces contemporary intellectual property as it is practiced in today's global context Focusing on three major IP regimes the United States Europe and China the unique transnational approach of this textbook will help law students and lawyers across the world understand not only how IP operates in different national contexts but also how to coordinate IP protection across numerous national jurisdictions International IP treaties are also covered but in the context of an overall emphasis on transnational coordination of legal rights and strategies

Inside the World of the Eunuch Melissa S. Dale, 2018-11-01 The history of Qing palace eunuchs is defined by a tension between the role eunuchs were meant to play and the life they intended to live This study tells the story of how a complicated and much maligned group of people struggled to insert a degree of agency into their lives Rulers of the Qing dynasty were determined to ensure the eunuchs subservience and to limit their influence by imposing a management style based upon strict rules corporal punishment and collective responsibility Few eunuchs wielded significant political power or lived in a lavish style during the Qing dynasty Emasculation and employment in the palace placed eunuchs at the center of the empire yet also subjected them to servile status and marginalization by society Seeking more control over their lives eunuchs serving the Qing repeatedly tested the boundaries of subservience to the emperor and the imperial court This portrait of eunuch society reveals that Qing palace eunuchs operated within two parallel realms one revolving around the emperor and the court by day and another among the eunuchs themselves by night where they recreated the social bonds through drinking gambling and opium smoking denied them by their palace service Far from being the ideal servants eunuchs proved to be a constant source of anxiety and labor challenges for the Qing court For a long time eunuchs have simply been cast as villains in Chinese history Inside the World of the Eunuch goes beyond this misleadingly one dimensional depiction to show how eunuchs actually lived during the Qing dynasty This book is a thorough and responsible account of eunuch life during the Qing dynasty which takes us deep inside the Forbidden City and introduces the often underclass families who provided servants to the Qing monarchs R Kent Guy University of Washington This is a unique study of Chinese eunuchs in which Melissa Dale proves that they were a necessary and vital presence in the palace of the last dynasty in China She explores all aspects of their life to the end of their existence while avoiding the temptation to sensationalize them Keith McMahon University of Kansas **From emperor to citizen : the autobiography of Aisin-Gioro Pu Yi. 1** ,1964 **Tang China** Edmund Capon, 1989 *China on the Sea* Zheng Yangwen, 2011-10-14 Generations of Chinese scholars have made China synonymous with the Great Wall and presented its civilization as fundamentally land bound This volume challenges this perspective demonstrating that China was not a Walled Kingdom certainly not since the Yongjia Disturbance in 311 China reached out to the maritime world far more actively than historians have acknowledged while the seas and what came from the seas from Islam fragrances and Jesuits to maize opium

and clocks significantly changed the course of history and have been of inestimable importance to China since the Ming This book integrates the maritime history of China especially the Qing period a subject which has hitherto languished on the periphery of scholarly analysis into the mainstream of current historical narrative It was the seas that made Tang China a Cosmopolitan Empire Mark Lewis the Song dynasty China s Greatest Age John Fairbank China at 1600 the largest and most sophisticated of all unified realms on earth Jonathan Spence and the reign of the three Qing emperors Kangxi Yongzheng and Qianlong China s last golden age Charles Hucker [The Siege of Tsingtau](#) Charles Stephenson,2017-06-30 A well written modern narrative of the political and military events leading up to during and after the German Japanese War of 1914 The Australian Naval Institute The German Japanese War was a key yet often neglected episode in the opening phase of the First World War It had profound implications for the future particularly in respect of Japan s acquisition of Germany s Micronesian islands Japan s naval perimeter was extended and threatened the United States naval strategy of projecting force westward The campaign to relieve Germany of Tsingtau the port and naval base in China and its hinterland posed a grave threat to Chinese independence The course of the Second World War in China and the Pacific cannot be explained without reference to these events Charles Stephenson s account makes fascinating reading The siege of Tsingtau by the Japanese with token British participation forms the core of his story He draws on Japanese and German primary sources to describe the defenses the landings the course of the siege and eventual German surrender His study will be absorbing reading for anyone interested in the campaigns of the First World War outside of Europe in German colonial expansion and the rise to power of Japan Overall the volume delivers a much needed interesting and often highly detailed overview of operations in the Pacific and the siege of Tsingtau The volume excels especially in its detailed narrative of naval and land operations in the Pacific and in China The geopolitical background provides a most useful introduction to the history of the region International Journal of Maritime History [A Testimony of Jesus Christ - Volume 1](#) Anthony Charles Garland,2007 A Commentary on the Book of Revelation Volume 2 The author presents a detailed study of the Book of Revelation emphasizing prophetic themes from the rest of the Bible which find their fulfillment in Revelation To understand this controversial book the author explores the many connections between the visions seen by the Apostle John and previous prophetic revelation given to Old Testament prophets such as Daniel Ezekiel and others It is the author s conviction that an understanding of related passages elsewhere in the Bible is the most important key to unlocking the bewildering variety of interpretations which often accompany the study of the last book of the Bible The commentary is linked to a free companion internet course providing an additional 70 hours of audio instruction linked to almost 1 000 slides **The Natural History of Pliny (Vol. 1-6)** Pliny the Elder,2023-12-24 In The Natural History of Pliny Vol 1 6 Pliny the Elder presents an expansive and systematic exploration of the natural world melding empirical observation with a philosophical perspective This monumental work composed in the first century AD serves as one of the earliest encyclopedias encompassing a vast array of topics from astronomy to botany geography to

zoology Pliny's literary style is characterized by its encyclopedic ambition and meticulous detail offering insights enriched by the knowledge of his time while integrating anecdotes and personal reflections that breathe life into cold data This scholarly narrative not only catalogues nature but also reflects the Roman intellectual zeitgeist where the pursuit of knowledge was paramount Pliny himself was a multifaceted individual serving as a naval and army commander an imperial official and a naturalist all of which influenced his inquiry into the natural phenomena surrounding him His keen observations often informed by firsthand experiences across the Roman Empire enrich his analysis Notably the tragedy of his untimely death during the eruption of Mount Vesuvius serves as a poignant testament to his relentless curiosity about nature encapsulating the spirit of inquiry that permeates his writings This foundational text is highly recommended for scholars historians and enthusiasts of natural history alike As a cornerstone of scientific literature Pliny's Natural History invites readers to traverse the complexities of the natural world through the lens of one of antiquity's most astute observers Engage with this timeless work to appreciate the legacy of knowledge that continues to influence the disciplines of science and natural philosophy

The Search for a Vanishing Beijing M.A. Aldrich, 2008-03-01 The Search for a Vanishing Beijing weaves the genres of travel essays and travel guides into a comprehensive narrative about the cultural mosaic of the capital of China
