*Heaven* Paula Gooder,2011-09-12 Heaven is one of those great mysteries that somehow symbolize what we don't know about ourselves and the world around us At the same time it lifts our vision from the mundane realities of our everyday lives and reminds us that beyond the daily grind of our existence there is another unseen reality A reality that is as real if not more so than our everyday lives Heaven suggests an answer to the familiar human feeling that there must be more than this and prompts us to wonder whether there is indeed more in heaven and earth than can be dreamt of in all our philosophies Paula Gooder from the Introduction

What's Really Going On? Peter Durbin,2024-03-19 Is the end near I have documented in this book what happened before the earth was created and how it was developed into its current state I continue with a chronological summary of the almost 6000 years since mankind has occupied the earth and explore the forces that have caused many of the world's battles including the past and current wars in the Middle East This book also compares the historic fall of Israel to the potential downfall of the United States and discusses the real reasons we are having the climate change debate and how this is being used as a platform for world control I explore how the powerful World Economic Forum is organising a total world reset of many of things that we hold dear The book provides a potential timeline of when the end times may commence and the detailed logic behind this reasoning I also provide an in depth analysis of the end times and the devastation that is ahead of us Is it probable that this will occur within the next decade I believe that this is essential reading for all who are interested in understanding what the future holds for yourself your family and for all of humanity
