Mao

Tse-Tung's Theory of Dialectic F.Y.K. Soo,2012-12-06 The year 1979 ushered in a new phase in China's long and continuous revolution. Currently this new phase is being symbolically referred to by the Chinese leaders themselves as the New Long March, a continuation of the legendary and historical Long March in terms of modernization which comprises the Four Modernizations: Agriculture, Industry, Science and Technology, and Military Defense. Such an all-encompassing attempt at modernization may appear to some at least to be something new or may indicate a radical shift in her policy. But upon closer examination this decision seems only to reflect an historical continuity in terms of the two major long-term goals of the Chinese Revolution: national independence and modernization or industrialization. The former would make China strong; the latter wealthy. For ever since the Opium War in 1840 and throughout the Revolutions of 1911 and 1949, China has always pursued these two revolutionary goals, though with different emphases at different times. This has been especially true during the past three decades as this twofold goal has dictated all of China's important policies, both domestic and foreign. In other words, while the concrete policies may have appeared to be lacking in unity at times, they have been formulated with the specific intent of achieving national independence and modernization. From this perspective, the New Long March marks the passage of post-Mao China beyond the transition of succession toward the continued pursuit of the same revolutionary goals.

The China Journals Hugh Trevor-Roper,2020-02-20 These private journals made available here for the first time record Hugh Trevor Roper's visit to the People's Republic of China in the autumn of 1965, shortly before the outbreak of the Cultural Revolution, and describe the controversial aftermath of his journey on his return to England. The visit was a catalogue of frustrations which he relates with the verve and irony of a master narrator who relished the human comedy. His efforts to meet the real life and mind of China, in whose history and politics he had long been interested, were blocked at every turn by the resources of state propaganda and the claustrophobic attention of sullen Party guides. The visit was arranged by the London-based Society for Anglo-Chinese Understanding, which was ostensibly committed to the impartial interchange of culture and ideas. It proved to be run by a Communist clique whose ruthless methods of control outwitted the well-connected membership. Back in England and with help from MI5, he resolved to get to the bottom of the society's affairs. His investigations provoked a tumultuous public row which Trevor Roper, no shirker of controversy, zestfully traces in these pages. Through the book, which closes with an account of his visit to Taiwan and South East Asia in 1967, there runs the wisdom of historical perspective that he brought to contemporary events and his lifelong commitment to the defence of liberal values and practices against their ideological adversaries.

Stalinism and the Dialectics of Saturn Douglas Greene, 2023-03-20 This study examines the complicated legacy of Stalinism in the twentieth century The descent of the Russian Revolution into Stalinism has given rise to an oft accepted truism that revolutions are like Saturn and will devour their own children For anticommunists Stalinism is condemned as a bolt from blue whether an insidious contagion Big Brother or totalitarian reason that socialism cannot escape from On the other end Communists and their fellow travelers have seen Stalinism as a force of historical necessity and the only way for the working class to reach a communist society Both these twin camps accept a Dialectic of Saturn where Stalinism whether

for evil or good is the preordained fate of all socialist revolutions However there is another position that views Stalinism as the product of material circumstance and class struggle This position was represented by Leon Trotsky in his seminal work *The Revolution Betrayed* In contrast to those who accept a mystical dialectic of Saturn Trotsky argued that Stalinism can be rationally explained and was not inevitable outcome of socialism
