Massacres to Mining Janine Roberts,1981 The racism and discrimination practised by whites towards aborigines genocide aboriginal resistance government and mission reserves life on cattle stations effect of mining on aborigines

Aboriginals and the Mining Industry David Cousins,2020-08-09 In 1973 Peter Rogers concluded that Australia has not done itself justice in the handling of modern industry versus Aborigines conflict the lack of preparation is a disgrace to government private organisations and unions alike What has happened since then Aboriginals and the mining industry reviews three main questions to what extent have Aboriginals shared in the fruits of the mining boom Have new land rights helped Aboriginals protect their interests as affected by mining And what has been the contribution of mining to the economic development of remote Aboriginal communities These are vital questions for all concerned with the impact of mining expansion on Aboriginal communities This book reviews the participation of Aborigines in the mining company employment It examines the contribution of the recent land rights legislation to protecting Aboriginal interests And it asks how far the growth of mining in remote parts of Australia has aided the economic development of Aboriginal groups living there Detailed case studies of mining projects included **Aboriginal Australians** KEITH D. STEARMAN,1988-07-01 Reclaiming the Land The indigenous Aboriginal peoples of Australia once inhabited the whole continent For over 50 000 years their rich and varied culture revolved around the land In 1788 began the white invasion of Australia which destroyed many Aboriginal communities Thousands of Aborigines died of disease from poisons and in frontier wars when their land was stolen and used for agriculture grazing and mining Aboriginal rights were unrecognized in law Two centuries later Aborigines have achieved legal equality But their rights are often disregarded and they suffer massive inequalities in housing education employment and health compared to other Australians They are more likely to be arrested and imprisoned Since 1980 over 100 young Aboriginal men have died while in police custody But the greatest loss has been of land and it is the need to regain and protect the land which has been the impetus behind contemporary Aboriginal political activity a struggle which many Aborigines believe has been betrayed by successive governments In the Northern Territory and South Australia large areas have come under Aboriginal ownership but other states have conceded little or nothing Today an historic High Court judgment has opened the way to a new relationship between Aboriginal and non Aboriginal Australians Aboriginal Australians gives a concise and factual account of the major problems currently facing Aborigines This updated edition traces developments into the 1990s including the Mabo judgment and its consequences A useful and detailed report on a unique people and their fight for justice it should prove an invaluable resource for teachers students the media and all those interested in racism and Australia *Genocide and Settler Society* A. Dirk Moses,2005-03-01 Colonial Genocide has been seen increasingly as a stepping stone to the European genocides of the twentieth century yet it remains an under researched phenomenon This volume reconstructs instances of Australian genocide and for the first time places

them in a global context Beginning with the arrival of the British in 1788 and extending to the 1960s the authors identify the moments of radicalization and the escalation of British violence and ethnic engineering aimed at the Indigenous populations while carefully distinguishing between local massacres cultural genocide and genocide itself These essays reflect a growing concern with the nature of settler society in Australia and in particular with the fate of the tens of thousands of children who were forcibly taken away from their Aboriginal families by state agencies Long considered a relatively peaceful settlement Australian society contained many of the pathologies that led to the exterminatory and eugenic policies of twentieth century Europe

When Ancestors Weep James A. Houck Jr. Ph.D., 2018-11-08 We are all beautiful souls made in the image of God full of inherent value dignity and worth Yet we may struggle to accept this truth because our attention is often diverted to focus solely on outward appearances and behaviors In other words we all live with some degree of ignorance of our soul consciousness We may get glimpses of it but we never attain the full extent because physical emotional and psychological issues cloud our vision of who we truly are For example diseases and illnesses do afflict us in the body We do feel physical and emotional pain with so much intensity at times that we believe it is going to break us in two At times our lungs may struggle to take a breath or hunger and diseases cause our stomach intestines bones muscles and blood to scream in agony These experiences might make us question whether or not we are the soul whom God has created However this illusion lies not in the suffering pain and agony we experience but rather it is in the perception that there is nothing more to us than an emotional intellectual and physical body Indeed physical and emotional pain and suffering can temporarily drown out the cry of our soul but our soul is never silenced Furthermore the truth is that the greatest strength of who we are as souls lies in our ability to transform and transcend physical emotional and psychological limitations The greatest effect hearing the cries of our ancestors has on us not only comes from getting in touch with our own soul's voice but also awakens us to hear the cries of those who have no voice today There has always existed in society a pattern of disenfranchising the weak and wounded people who have been labeled as unlovable untouchable and therefore unreachable For some disenfranchisement was due to their disease or illness For others it was due to their poverty Still for others it was due to their gender race religion politics or social class Many in society preferred such people not to be seen let alone heard from However just as the cries of our ancestors and those who have been the victims of crimes against humanity can never be silenced and so too are the cries of the disenfranchised heard above the din of everyday life Their cries are not only heard deep within the soul but their pain is also given a voice through those who speak for them

Psychoanalytic Perspectives on Identity and Difference Brent Willock, Lori C. Country, Mine Country Benedict Scambary,2013-05-01 Agreements between the mining industry and Indigenous people are not creating sustainable economic futures for Indigenous people and this demands consideration of alternate forms of economic engagement in order to realise such futures Within the context of three mining agreements in north Australia this study considers Indigenous livelihood aspirations and their intersection with sustainable development agendas The three agreements are the Yandi Land Use Agreement in the Central Pilbara in Western Australia the Ranger Uranium Mine Agreement in the Kakadu region of the Northern Territory and the Gulf Communities Agreement in relation to the Century zinc mine in the southern Gulf of Carpentaria in Queensland Recent shifts in Indigenous policy in Australia seek to de emphasise the cultural behaviour or imperatives of Indigenous people in undertaking economic action in favour of a mainstream conventional approach to economic development Concepts of value identity and community are key elements in the tension between culture and economics that exists in the Indigenous policy environment Whilst significant diversity exists within the Indigenous polity Indigenous aspirations for the future typically emphasise a desire for alternate forms of economic engagement that combine elements of the mainstream economy with the maintenance and enhancement of Indigenous institutions and livelihood activities Such aspirations reflect ongoing and dynamic responses to modernity and typically concern the interrelated issues of access to and management of country the maintenance of Indigenous institutions associated with family and kin access to resources such as cash and vehicles the establishment of robust representative organisations and are integrally linked to the derivation of both symbolic and economic value of livelihood pursuits

before the late 1960s in revealing how many of today's environmental laws from pollution control to nature conservation emerged from precedents or events much earlier in the 20th century. This history however reveals a discrepancy between lawmakers' greater efficacy to exploit rather than protect the environment, a discrepancy that grew as nature's backlash intensified in a rapidly degrading continent colonised to build the Australian nation. In exploring these dynamics, the book offers a rich tapestry of case studies illustrated with historic photographs that show the origins of Australia's environmental laws and how they borrowed from international precedents or furnished lessons for other nations. Through its multidisciplinary enquiry, the book offers scholars and students of environmental law, legal history and the environmental humanities a unique story about the failures and successes in the making of environmental law. Valerie Chapman, 2020-09-02. A fine beginning for those intent on understanding the colonial past that shaped black and white Australia. Richard Broome, author of *Aboriginal Australians*, *Terrible Hard Biscuits* introduces the main themes in the history of Aboriginal Australia: the complexity of Aboriginal-European relations since 1788; how Aboriginal identity and cultures survived invasion, dispossession and dislocation; and how indigenous Australians have survived to take their place in today's society. Each essay in *Terrible Hard Biscuits* has been chosen for the clarity of its writing and for its depth of understanding. The Aboriginal and non-Aboriginal authors range across Australia's post-invasion history, and their accounts focus on the more traditionally oriented communities in remote areas as well as on urban and fringe dwellers. For twenty years, the journal *Aboriginal History* has attracted the best writing on Australia's Aboriginal past. Each essay in *Terrible Hard Biscuits* was selected from this journal to provide essential reading for students of Aboriginal studies and Australian studies. The chronological and geographic range of the contents will prove invaluable in surveying a crucial element of Australia's past and present. *Aboriginal History*, 1987.
