From Nation To Diaspora:

From Nation to Diaspora Curdella Forbes, 2005 Situating Selvon's and Lamming's work within the wider field of West Indian social thought and practice Forbes demonstrates that gender is foundational within West Indian revolutionary action from slavery onwards and that these writers' treatment of gender belongs to a revolutionary poetics compromised by the nationalist engagements of the 1950s-1970s Nation, Diaspora, Trans-nation Ravindra K. Jain, 2012-03-12 A premier debate in the present conjuncture of globalization has been the prospect of post nation and the obsolescence of patriotism at the horizon of transnationalism In an ethnographically rich and discursively sharp intervention R K Jain articulates the contribution that diaspora studies can make to this debate In this anthropological narrative both nation and trans nation are moving targets their positionality shifts and changes according to the geo political location of the analyst and the frame of comparison brought to bear on the objects/subjects of study In Jain's case the locus happens to be India but the discussion in this book does not foreclose perspectives from other nations Indeed as his own examples from countries of the Indian Ocean zone the Asia Pacific region and the Caribbean amply demonstrate the methodology of ethno cultural relativism built in these diasporic comparisons is the surest guarantee for tracing the juxtaposed dialectic of nation and trans nation from whichever existential location one begins The rootedness of this particular discourse in India provides coherence in the nature of a case study of globalization from a prominent diaspora node of our times At the same time it unravels dimensions of Indian social institutions viewed from the vantage point of diaspora The book therefore is an invitation to further multi disciplinary and multi sited collaboration in the exploration of globalization diaspora nationalism and patriotism as well as transnationalism from diverse perspectives **Diaspora and Nation in the Indian Ocean** Ned Bertz, 2015-09-30 The vibrant Swahili coast port city of Dar es Salaam literally the Haven of Peace hosts a population reflecting a legacy of long relations with the Arabian Peninsula and a diaspora emanating in waves from the Indian subcontinent By the 1960s after decades of European imperial intrusions Tanzanian nationalist forces had peacefully dismantled the last British colonial structures of racial segregation and put in place an official philosophy of nonracial nationalism Yet today more than five decades after independence race is still a prominent and publicly contested subject in Dar es Salaam What makes this issue so dizzyingly elusive for government bureaucrats and ordinary people alike is East Africa's location on the Indian Ocean a historic crossroads of diverse peoples possessing varied ideas about how to reconcile human difference social belonging and place of origin Based on a range of archival oral and newspaper sources from Tanzania and India this book explores the history of cross cultural encounters that shaped regional ideas of diaspora and nationhood from the earliest days of colonial Tanganyika when Indian settlement began to expand dramatically to present day Tanzania a nation always under construction The book focuses primarily on two prominent city spaces schools and cinemas the one a site of education the other a site of leisure one typically a programmatic entity of government the other usually a bastion of commercial enterprise Nonetheless the forces

shaping schools and cinemas as they developed into busy centers of urban social interaction were surprisingly similar the state community organizations nationalist movements economic change and the transnational winds of Indian Ocean culture and capital Whether in the form of institutional apparatuses like networks of Indian teacher importation and curricula adoption or through the market predominance of the Indian film industry schools and cinemas in East Africa historically were influenced by actions and ideas from around the Indian Ocean Diaspora and Nation in the Indian Ocean argues that an Indian Ocean wide perspective enables an examination of the transnational production of ideas about race against a backdrop of changing relationships and claims of belonging as new notions of nationhood and diaspora emerged It bridges an academic divide because historians often either focus on the Indian diaspora in isolation or write it out of the story of African nation building Further in contrast to the swell of publications on global Indian or South Asian diasporas that highlight longings for and contacts with the homeland the book also demonstrates that much of the creative production of diasporic Indian identities formed in East Africa was a result of local albeit cosmopolitan encounters across cities like Dar es Salaam

Homelands and Diasporas Andreh Le'i, Alex Weingrod, 2005 This collection focuses fresh attention on the relationships between homeland and diaspora communities in today's world Based on in depth anthropological studies by leading scholars in the field the book highlights the changing character of homeland diaspora ties Homelands and Diasporas offers new understandings of the issues that these communities face and explores the roots of their fascinating yet sometimes paradoxical interactions The book provides a keen look at how homeland and diaspora appear in the lives of both Israeli Jews and Israeli Palestinians and also explores how these issues influence Pakistanis who make their home in England Armenians

in Cyprus and England Cambodians in France and African Americans in Israel The critical views advanced in this collection should lead to a reorientation in diaspora studies and to a better understanding of the often contradictory changes in the relationships between people whose lives are led both at home and away Diaspora Criticism Sudesh Mishra,2006-10-27 The first introduction to the field of Diaspora criticism that serves both as a timely guide and a rigorous critique Diaspora criticism takes the concept diaspora as its object of inquiry and provides a framework for discussing displaced communities in a way that takes contemporary social cultural and economic pressures into account It also offers an alternative to Postcolonial Studies This book is the first to provide an accessible overview of the critical trends in Diaspora criticism and to critically evaluate the major Diaspora critics and their models with the aim of adding to the debate on methodology

Asian Diasporas ,2007-11-30 This collection of essays examines the worldwide dispersal of Asian populations and links these seemingly disparate movements through the category of Asian diasporas **Transnational Negotiations in Caribbean Diasporic Literature** Kezia Page,2010-09-13 Taking an interdisciplinary approach Page casts light on the role of citizenship immigration and transnational mobility in Caribbean migrant and diaspora fiction Page s historical socio cultural study responds to the general trend in migration discourse that presents the Caribbean experience as unidirectional and uniform across the geographical spaces of home and diaspora She argues that engaging the Caribbean diaspora and the massive waves of migration from the region that have punctuated its history involves not only understanding communities in host countries and the conflicted identities of second generation subjectivities but also interpreting how these communities interrelate with and affect communities at home In particular Page examines two socio economic and political practices remittance and deportation exploring how they function as tropes in migrant literature and as ways of theorizing such literature Democracy, Diaspora, Territory Olga Oleinikova,Jumana Bayeh,2019-10-14 This volume offers a profoundly new interpretation of the impact of modern diasporas on democracy challenging the orthodox understanding that ties these two concepts to a bounded form of territory Considering democracy and diaspora through a deterritorialised lens it takes the post Euromaidan Ukraine as a central case study to show how modern diasporas are actively involved in shaping democracy from a distance and through their political activity are becoming increasingly democratised themselves An examination of how power sharing democracies function beyond the territorial state Democracy Diaspora Territory Europe and Cross Border Politics compels us to reassess what we mean by democracy and diaspora today and why we need to focus on the deterritorialised dimensions of these phenomena if we are to adequately address the crises confronting numerous democracies As such it will appeal to scholars of sociology and politics with interests in migration and diaspora political theory citizenship and democracy *Diaspora and Citizenship* Claire Sutherland,Elena Barabantseva,2013-09-13 This collection of papers discusses the impact of diasporas on the articulations and practices of legal political cultural and social citizenship in their country of origin While the majority of current citizenship debates focus on the challenges and directions

in which diasporic and migrant communities impact on the citizenship regime in their country of settlement the papers in this volume approach the study of citizenship from the perspective of the link between the sending state and its diasporic communities abroad The papers discuss the role of language religion kinship and other ethnic markers in diaspora politics and trace their implications for the articulations and practices of citizenship Through discussing cases across political and geographical spectrums and from different historical epochs the book broadens and enriches the debate on citizenship by demonstrating important ways in which diasporas impact on the delineation of citizenship regimes and the politics of national identity in their homeland This links to the continued use of language as an ethnic marker but also one which may be learned allowing a certain degree of choice and shifting affiliations amongst putative members of a diaspora This book was published as a special issue of *Nationalism and Ethnic Politics*

Cultural Grammars of Nation, Diaspora, and Indigeneity in Canada Christine Kim, Sophie McCall, Melina Baum Singer, 2012-05-09 *Cultural Grammars of Nation Diaspora and Indigeneity in Canada* considers how the terms of critical debate in literary and cultural studies in Canada have shifted with respect to race nation and difference In asking how Indigenous and diasporic interventions have remapped these debates the contributors argue that a new cultural grammar is at work and attempt to sketch out some of the ways it operates The essays reference pivotal moments in Canadian literary and cultural history and speak to ongoing debates about Canadian nationalism postcolonialism migrancy and transnationalism Topics covered include the Asian race riots in Vancouver in 1907 the cultural memory of internment and dispersal of Japanese Canadians in the 1940s the politics of migrant labour and the domestic labour scheme in the 1960s and the trial of Robert Pickton in Vancouver in 2007 The contributors are particularly interested in how diaspora and indigeneity continue to contribute to this critical reconfiguration and in how conversations about diaspora and indigeneity in the Canadian context have themselves been transformed *Cultural Grammars* is an attempt to address both the interconnections and the schisms between these multiply fractured critical terms as well as the larger conceptual shifts that have occurred in response to national and postnational arguments

Politics of Rightful Killing Sima Shakhsari, 2020-01-17 In the early 2000s mainstream international news outlets celebrated the growth of Weblogistan the online and real life transnational network of Iranian bloggers and depicted it as a liberatory site that gave voice to Iranians As Sima Shakhsari argues in Politics of Rightful Killing the common assumptions of Weblogistan as a site of civil society consensus and resistance to state oppression belie its deep internal conflicts While Weblogistan was an effective venue for some Iranians to practice democracy it served as a valuable site for the United States to surveil bloggers and express anti Iranian sentiment and policies At the same time bloggers used the network to self police and enforce gender and sexuality norms based on Western liberal values in ways that unwittingly undermined Weblogistan s claims of democratic participation In this way Weblogistan became a site of cybergovernmentality where biopolitical security regimes disciplined and regulated populations Analyzing online and off line ethnography Shakhsari provides an account of digital citizenship that raises questions about the internet s relationship to political engagement militarism and democracy

Kurdish Diaspora Online Jowan Mahmood, 2016-09-13 The argument offered in this book is that new technology as opposed to traditional media such as television radio and newspaper is working against the national grain to weaken its imagined community Online activities and communications between people and across borders suggest that digital media has strong implications for different articulations of identity and belongingness which open new ways of thinking about the imagined community The findings are based on transnational activities by Kurdish diaspora members across borders that have pushed them to rethink notions of belonging and identity

Through a multidisciplinary and comparative approach and multifaceted online offline methodologies the book unveils tensions between new and old media and how the former is not only changing social relations but also exposing existing ones Living in two or more cultures speaking multiple languages and engaging in transnational practices diaspora individuals may have created a momentum that discloses how the imagined nation is diminishing in this digital era **Feenin** Alexander Ghedi Weheliye,2023-09-29 In Feenin Alexander Ghedi Weheliye traces R B music s continuing centrality in Black life since the late 1970s Focusing on various musical production and reproduction technologies such as auto tune and the materiality of the BlackFem singing voice Weheliye counteracts the widespread popular and scholarly narratives of the genre s decline and death He shows how R B remains a thriving venue for the expression of Black thought and life and a primary archive of the contemporary moment Among other topics Weheliye discusses the postdisco evolution of house music in Chicago and techno in Detroit Prince and David Bowie in relation to appropriations of Blackness and Euro whiteness in the 1980s how the BlackFem voice functions as a repository of Black knowledge the methods contemporary R B musicians use to bring attention to Black Lives Matter and the ways vocal distortion technologies such as the vocoder demonstrate Black music s relevance to discussions of humanism and posthumanism Ultimately Feenin represents Weheliye s capacious thinking about R B as the site through which to consider questions of Blackness technology history humanity community diaspora and nationhood

The Unfamiliar Abode Kathleen Moore,2010-03-18 Today there are more Muslims living in diaspora than at any time in history This situation was not envisioned by Islamic law which makes no provision for permanent as opposed to transient diasporic communities Western Muslims are therefore faced with the necessity of developing an Islamic law for Muslim communities living in non Muslim societies In this book Kathleen Moore explores the development of new forms of Islamic law and legal reasoning in the US and Great Britain as well the Muslims encountering Anglo American common law and its unfamiliar commitments to pluralism and participation and to gender family and identity The underlying context is the aftermath of 9 11 and 7 7 the two attacks that arguably recast the way the West views Muslims and Islam Islamic jurisprudence Moore notes contains a number of references to various abodes and a number of interpretations of how Muslims should conduct themselves within those worlds These include the dar al harb house of war dar al kufr house of unbelievers and dar al salam house of peace How Islamic law interprets these determines the debates that take shape in and around Islamic legality in these spaces Moore s analysis emphasizes the multiplicities of law the tensions between secularism and religiosity She is the first to offer a close examination of the emergence of a contingent legal consciousness shaped by the exceptional circumstances of being Muslim in the U S and Britain in the 1990s and the first decade of the 21st century
