improvement over time to reach a desired goal whether it's weight loss, career change, battling addiction, or success in relationships. We've been told since toddlerhood that the tortoise beats the hare. But through compelling science and powerful stories, James Fell shows us that the hare has the edge: overwhelming desire can be awakened fast and furiously. When you learn to become attuned to that sensation of sudden awakening, a new path can be followed almost effortlessly because it feels like destiny. Everyone has the ability to experience the lightning strike. The Holy Shit Moment will teach you how to create a life-changing epiphany and go directly from intention to action. The Last Muster John Daniel Strong, 2011

We only have the frozen Mississippi to cross if we get through this. Virginia continued to walk beside the wagon as she trudged through the snow, her hand in Allen's, her thoughts lingering on her dead sister buried outside Gallatin just yesterday. Then she stopped and looked back. Joseph Smith was not with them this time. He was in the hands of the mob, awaiting execution for treason. It had been a long time since those desperate days in Missouri. The temple in Salt Lake City had taken forty years to build. Virginia looked up at the granite structure and thanked God she had been allowed to live to see it finished. Today her grandson would be sealed there. Back cover. *Unsettling Native Art Histories on the Northwest Coast* Kathryn Bunn-Marcuse, Aldona Jonaitis, 2020-07-20

Inseparable from its communities, Northwest Coast art functions aesthetically and performatively beyond the scope of non-Indigenous scholarship, from demonstrating kinship connections to manifesting spiritual power. Contributors to this volume foreground Indigenous understandings in recognition of this rich context and its historical erasure within the discipline of art history. By centering voices that uphold Indigenous priorities, integrating the expertise of Indigenous knowledge holders about their artistic heritage, and questioning current institutional practices, these new essays unsettle Northwest Coast art studies. Key themes include discussions of cultural heritage protections and Native sovereignty, re-centering women and their critical role in transmitting cultural knowledge, reflecting on decolonization work in museums, and examining how artworks function as living documents. The volume exemplifies respectful and relational engagement with Indigenous art and advocates for more accountable scholarship and practices. Dance, Drugs and Escape Stan Beeler, 2007-06-05

In the late 1980s, the rave phenomenon swept the youth culture of the United Kingdom, incorporating the generation's two newest social stimulants: modern electronic dance music and a notorious designer drug known as Ecstasy. Although the movement began in rebellion against mainstream culture, its underground dynamism soon attracted the interest of novelists, screenwriters, and filmmakers who attempted to reflect the phenomenon in their works. Through artistic and commercial popularization, the once obscure subculture was transformed into a pop culture behemoth with powerful links to the entertainment industry. This study deals with the transformative effects of film, television, and literature on club culture. Chapters furthermore reflect club culture's own effect on crime, ethnicity, sexuality, and drug use. As the study traces artistic depictions of club culture's development, each chapter focuses on individual books, films, and television shows that reflect the transformation of the club culture into what it is today.
