**Ground War Vietnam:**

Air Power And The Ground War In Vietnam, Ideas And Actions Dr Donald J. Mrozek,2015-11-06 Ultimately this study is about a smaller Vietnam War than that which is commonly recalled It focuses on expectations concerning the impact of air power on the ground war and on some of its actual effects but it avoids major treatment of some of the most dramatic air actions of the war such as the bombing of Hanoi To many who fought the war and believe it ought to have been conducted on a still larger scale or with fewer restraints this study may seem almost perverse emphasizing as it does the utility of air power in conducting the conflict as a ground war and without total exploitation of our most awe inspiring technology Although the chapters in this study are intended to form a coherent and unified argument each also offers discrete messages The chapters are not meant to be definitive They do not exhaust available documentary material and they often rely heavily on published accounts Nor do they provide a complete chronological picture of the uses of air power even with respect to the ground war Nor is coverage of areas in which air power was employed South Vietnam Laos Cambodia and North Vietnam evenly distributed nor necessarily proportionate to the effort expended in each place during the war Lastly some may find one or another form of air power either slightly or insufficiently treated Such criticisms are beside the point for the objectives of this study are to explore a comparatively neglected theme the impact of air power on the ground and to encourage further utilization of lessons drawn from the Vietnam experience **Ground War - Vietnam** Jim Mesko,1992-01-01 *Air Power and the Ground War in Vietnam* Donald J. Mrozek,1988 Dr Mrozek focuses on expectations concerning the impact of airpower on the ground war He describes some of the actual effects but avoids treatment of some of the most dramatic air actions of the war such as the bombing of Hanoi He observes that the application of airpower is influenced by factors far beyond the battlefield Air Power and the Ground War in Vietnam Donald J. Mrozek,2002 Dr Donald J Mrozeks research sheds considerable light on how the use of air power evolved in the Vietnam War Much more than simply retelling events Mrozek analyzes how history politics technology and the complexity of the war drove the application of air power in a long and divisive struggle Mrozek delves into a wealth of original documentation and his scholarship is impeccable His analysis is thorough and balanced His conclusions are well reasoned but will trouble those who have never seriously considered how the application of air power is influenced by factors far beyond the battlefield Wether or not the reader agrees with Mrozek the quality of his research and analysis makes his conclusions impossible to ignore John C Fryer Jr Brigadier General United States Air Force Commander Center for Aerospace Doctrine Research and Education **The U.S. Ground War in Vietnam 1965-1973** Christopher Chant,2018 **Autopsy of an Unwinnable War: Vietnam** William C. Haponski,Jerry J. Burcham,2019-06-11 A military studies professor and former combatant rationally dissects the strategies and mindsets on both sides of this thirty year conflict New York Journal of Books Since the fall of Saigon in 1975 there have been much discussion of why and whether America lost the war in Vietnam The common belief is that the war was lost not on the

battlefield but in Washington DC The stark facts though are that the Vietnam War was lost before the first American shot was fired In fact it was lost before the first French Expeditionary Corps shot almost two decades earlier and was finally lost when the South Vietnamese fought partly then entirely on their own Offering an informed narrative of the entire thirty year war this book seeks to explain why Written by a combatant in six large battles and many smaller firefights who was also a leader with a full range of pacification duties a commander who lost forty three wonderful young men Autopsy of an Unwinnable War is the result of a quest for answers by one who after decades of wondering what it was all about turned to a years long search of French American and Vietnamese sources This is a story lived and revealed mainly by the people inside Vietnam who were directly involved in the war from leaders in high positions down to the jungle boots and sandals level of the fighters and among the Vietnamese who were living it Because of what was happening inside Vietnam itself no matter what policies and directives came out of Paris or Washington or the influences in Moscow or Beijing it is about a Vietnamese idea that would eventually triumph over bullets Includes photographs <u>Air War Vietnam. Plans and Operations 1961 - 1968</u> Jacob van Staaveran,Stuart Slade,2012-10-19 During the middle and late 1970s the United States Air Force Historical Research Center Maxwell Air Force Base Alabama produced a series of 17 monographs that detailed the history of the Vietnam War These studies were classified as being Top Secret for many years and were only recently released to the public The core of these monographs is the series that deal with the political operational and technical development of the Air Force participation in the Vietnam War These remarkable documents contain a wealth of historical data that explain the background and reasoning behind many controversial decisions This compilation has taken these monographs and assembled them into a single narrative The documents have been painstakingly remastered and reset to the printed page but their editorial integrity has been scrupulously preserved *Insurgencies and Counterinsurgencies* Beatrice Heuser,Eitan Shamir,2016 A study of the evolving national styles of conducting insurgencies and counter insurgency as influenced by transnational trends ideas and practices **McNamara, Clifford, and the Burdens of Vietnam 1965-1969** Edward J. histories this volume synthesizes the perspectives to explore both dimensions of the struggle in greater depth elucidating more of the complexities of the U S Vietnam entanglement It explains why Americans tried so hard for so long to stop the spread of Communism into Indochina and why they failed In this new edition George Donelson Moss expands and refines key moments of the Vietnam War and its aftermath including the strategic and diplomatic background for United States involvement in Indochina during World War II how the French with British and American support regained control in southern Vietnam Saigon and the vicinity in the fall 1945 the account for the formation of SEATO and the account of the Sino Vietnamese War of 1979 The text has also been revised and updated to align with recently published monographic literature on the time period The accessible writing will enable students to gain a solid understanding of how and why the United States went to war against The Democratic Republic of Vietnam and why it lost the long bitter conflict This book will be of interest to students and scholars of American history the history of foreign relations and the Vietnam War itself   *History of the Office of the Secretary of Defense* ,1984   **Vietnam, 1964-1973** Elwood L. Willbanks,1993   *Why Vietnam* Margaret Colbert Brown,2025-03-30 Explores the complex reasons behind the USA s involvement in Vietnam analyzing political social and military factors The reasons behind the USA s involvement in Vietnam remain a subject of extensive debate Initially America supported the French until their defeat at Dien Bien Phu which then shifted to backing the South Vietnamese government due to fears of communism spreading throughout Southeast Asia Why Vietnam delves into the myriad reasons for US involvement examining theories that date back to 1918 when Woodrow Wilson ignored Ho Chi Minh s plea for independence at the Treaty of Versailles through to Johnson s full commitment to the undeclared war which restrained the military to a defensive role in protecting South Vietnam instead of an offensive one that would send troops across the DMZ into Laos and Cambodia The questions of why the USA became involved whether their involvement was justified and if the war was ever winnable have been fiercely debated for over 50 years This book seeks to address these whys by providing a thorough examination of all contributing factors from presidential actions to foreign policy and the social and political climates of the war era   **History of the Office of the Secretary of Defense** Alfred Goldberg,1984   **Air War Vietnam Plans and Operations 1969 - 1975** Elizabeth Hartsook,Stuart Slade,2013-03-31 During the middle and late 1970s the United States Air Force Historical Research Center produced a series of 17 monographs that detailed the history of the Vietnam War These remarkable documents contain a wealth of historical data that explain the background and reasoning behind many controversial decisions Air War Vietnam is a compilation of these monographs that casts new light on why the Vietnam war was fought the way it was and why a war that could and should have been won was instead lost   Vietnam, 1964-1973 ,1990
