Making Joyful Noise Andrew Malekoff, Robert Salmon, Dominique Moyse Steinberg, 2014-01-02 This diverse collection of articles by group work professionals who work in the classroom and in the field captures not only the art and science of social work with groups but also its soul highlighting practice teaching and writing ideas that promote the power of group work and the people who do it *Making Joyful Noise*

reinforces the value and uniqueness of group work as a positive optimistic empowering and affirming way of working with people. The articles presented here cover a wide range of age groups, populations and settings and include examples on the use of activity and discussion in groups: a poetry club for children, the meaning of camp for preadolescents, a boxing group for adolescents who live in the inner city, self-defense classes for adults, and caregiver support for the elderly. The book also steps into the classroom to promote the teaching of social group work and the education of advanced group work practitioners and to encourage practitioners to write about their group work practice. Finally, the book presents and illustrates a number of concepts that are unique to group work and that encourage front-line practitioners to be bold and to stay in the mess. While organized as a tribute to the late Dr. Roselle Kurland, *Making Joyful Noise* is in and of itself an important collection of articles and essays on social group work and one that is certain to provide all practitioners who are interested in group work with a spark, a smile, and some needed inspiration for their important work. *Making Joyful Noise* includes essentials for preserving, promoting, and portraying group work practice; the critical relationship between human and professional ethics in group work; six common mistakes that practitioners make in regard to group purpose; using organizational analysis to improve group work practice; creatively blending activity and discussion in diverse settings; cultivating collegiality to reduce isolation and enhance practice; developing a capacity to stay in the mess in group work with people of all ages; skills for effectively working with transitions, separation, and loss in group guidelines for practitioners wishing to write for publication; and much more. This book is a rich and diverse collection that is required reading for anyone working to promote social work with groups.

Group Work Practice to Advance Social Competence Norma Lang, 2010-10-14. Small social groups are fundamental for achieving personal growth, social development, socialization, and the skills of sustaining relevant relationships and connections to society. Unfortunately, those who would benefit most from small groups often find themselves unable to achieve membership. Lacking the necessary skills for entry, these individuals may never enjoy the advantages of group membership. Advancing a practice methodology that specifically targets the socially unskilled, Norma C. Lang provides much needed guidance to practitioners helping individuals become part of group life. Grounded in extensive practice, Lang's methodology addresses the special needs and anomalous functioning of individuals who lack the skills to form and use groups. She outlines the unique pregroup processes of socially unskilled populations and provides a methodology for advancing social competence. She also identifies the professional and agency requirements for working with presocial processes. Widely applicable to practice with social work groups, Lang's method greatly expands the literature on social work theory and practice with individuals and groups.
