Growing Up Again Jean Illsley Clarke, Connie Dawson, 1989. Many adults lack the necessary skills for parenting their children. Here is a reassuring guide that can help every parent gain those skills and the confidence to parent effectively. Illustrations by *Twenty Five* Babawale Babatunde, 2021-02-12. Youth is a valuable phase of one's life recognized by traits of curiosity, heroism, strength, agility, restlessness, and even much more. It is a golden phase of one's life even though majorly occupied with fantasies, freedom, and the power to choose, all must be cautiously exercised. There are certain fundamental understandings that every youth needs to develop to improve their ability to make good choices as they go through life. The constant balancing between enjoying our youth and preparing for the future ahead is a major issue with young persons. Many persons struggle to get that balance right while some spend so much time looking for ways to make progress. However, this book enlightens every young person to see beyond their current situations and take control of their destiny. It also illustrates the role of young people and the development of society. This book also contains facts everyone should know before turning age twenty-five as opposed to the myths and heresies about the age. Every age has its charm, but something is unique about age twenty-five. **TWENTY FIVE** is a book that provides learning experiences for young people as we work to develop our understanding of how to plan and manage our lives. **TWENTY FIVE** is written by a youth with a youthful spirit to stimulate the youthful minds. **J.
