Growing Up Agreeably:

The Anthropology of Childhood David F. Lancy, 2022-03-10 Enriched with findings from anthropological scholarship this book provides a guide to childhood in different cultures past and present Childhood Courtney L. Meehan, Alyssa N. Crittenden, 2016-05-01 This collection is the first to specifically address our current understanding of the evolution of human childhood which in turn significantly affects our interpretations of the evolution of family formation social organization cultural transmission cognition ontogeny and the physical and socioemotional needs of children Moreover the importance of studying the evolution of childhood has begun to extend beyond academic modeling and into real world applications for maternal and child health and well being in contemporary populations around the world Combined the chapters show that what we call childhood is culturally variable yet biologically based and has been critical to the evolutionary success of our species the significance of integrating childhood into models of human life history and evolution cannot be overstated This volume further demonstrates the benefits of interdisciplinary investigation and is sure to spur further interest in the field

The Anthropology of Learning in Childhood David F. Lancy, John Bock, Suzanne Gaskins, 2010 The Anthropology of Learning in Childhood offers a portrait of childhood across time culture species and environment Anthropological research on learning in childhood has been scarce but this book will change that It demonstrates that anthropologists studying childhood can offer a description and theoretically sophisticated account of children s learning and its role in their development socialization and enculturation Further it shows the particular contribution that children s learning makes to the construction of society and culture as well as the role that culture acquiring children play in human evolution Book jacket

Childhood and Adolescence Uwe P. Gielen, Jaipaul L. Roopnarine, 2016-01-11 This comprehensive reference analyzes psychological and anthropological studies concerning child and adolescent development across cultures digging into often forgotten topics like street children child soldiers and parenting in war torn countries Traditionally research on child and adolescent development has focused on American youth inadvertently neglecting 96 percent of the world s children This all encompassing volume introduces global perspectives on young people across the globe focusing on such topics as parenting and childcare gender roles violence against girls adolescence in poor and rich countries and developmental psychopathology across cultures Recently updated the second edition includes the latest findings in the field additional content and new photos and charts With contributions from leading psychological and anthropological scholars chapters address worldwide changes in children s lives parent child relationships sibling relationships immigrant children and their families and adolescents in both industrialized and developing nations A special section discusses children living in difficult circumstances including street children child soldiers global nomads and children suffering from various internalizing and externalizing disorders This book is the perfect introduction to the latest trends in developmental psychology *Human Development from Middle Childhood to Middle Adulthood* Lea Pulkkinen, 2017-06-26 This seminal work focuses on human development

from middle childhood to middle adulthood through analysis of the research findings of the groundbreaking Jyväskylä Longitudinal Study of Personality and Social Development JYLS The JYLS project which began in 1968 has generated extensive publications over many years but this is the first comprehensive summary that presents the conceptual framework the research design and methodology and the findings The study looks at the development over time of issues related to personality identity health anti social behavior and well being and is unparalleled in its duration intensity comprehensiveness and psychological richness The thorough synthesis of this study illustrates that there are different paths to adulthood and that human development cannot be described in average terms The 42 year perspective that the JYLS provides shows the developmental consequences of children's differences in socioemotional behavior over time and the great significance of children's positive socioemotional behavior for their further development until middle age Not only will the book be an invaluable tool for those considering research methods and analysis on large datasets it is ideal reading for students on lifespan courses and researchers methodologically interested in longitudinal research

A Most Agreeable Murder Julia Seales, 2024-04-30 NATIONAL BESTSELLER A delightful cocktail that mixes elements of the Bridgerton series Jane Austen's *Pride and Prejudice* and Agatha Christie's Miss Marple mysteries The payoff is a wealth of wit hilarity and suspense People's Book of the Week When a wealthy bachelor drops dead at a ball a young lady takes on the decidedly improper role of detective in this action packed debut comedy of manners and murder This edition includes a reader's guide and a sneak peek at Beatrice Steele's return in *A Terribly Nasty Business* Feisty passionate Beatrice Steele has never fit the definition of a true lady according to the strict code of conduct that reigns in Swampshire her small English township She is terrible at needlework has absolutely no musical ability and her artwork is so bad it frightens people Nevertheless she lives a perfectly agreeable life But she harbors a dark secret She is obsessed with true crime If anyone in her etiquette obsessed community found out she'd be deemed a morbid creep and banished from respectable society forever For her family's sake she's vowed to put her obsession behind her Eligible bachelor Edmund Croaksworth is set to attend the approaching autumnal ball and the Steele family hopes that younger daughter Louisa will steal his heart So Beatrice must be on her best behavior a difficult challenge when a disgraced yet alluring detective inexplicably shows up to the ball Beatrice is just holding things together when Croaksworth drops dead in the middle of a minuet As a storm rages outside the evening descends into a frenzy of panic fear and betrayal as it becomes clear that the guests are trapped with a killer Contending with competitive card games tricky tonics and Swampshire's infamous squelch holes Beatrice must rise above decorum and decency to pursue justice and her own desires before anyone else is murdered A PUBLISHERS WEEKLY BEST BOOK OF THE YEAR

Early Intervention Pnina S. Klein, 2014-01-14 First published in 1996 This book presents a new theoretical and practical model for early intervention the Mediational Intervention for Sensitizing Caregivers MISC Aid agencies including the World Health Organization WHO UNICEF and Redd Barna supported research projects on the implementation of this approach with poor

high risk children in various countries This book presents reasons for implementation processes of intervention and some outcomes of the MISC approach in six countries Israel Sweden USA Ethiopia Sri Lanka and Indonesia Agreeable Connexions Alexander Broadie,2012-11-05 Scotland has played an immense role in European high culture through the centuries and among its cultural links none have been greater than those with France This book shows that the links with France stretch back deep into the Middle Ages and continue without a break into the eighteenth century the Age of Enlightenment In one way or another all of the major figures of the Scottish Enlightenment were in close relation to France and though this book attends to the broad picture of the cultural links binding the two countries the focus is on certain individuals especially David Hume Thomas Reid Adam Smith and Adam Ferguson and certain of their French counterparts such as Montesquieu Madame de Condorcet Victor Cousin and Theodore Jouffroy Prominent among the areas under discussion are scepticism and common sense morality and the role of sympathy and civil society and the question of what constitutes good citizenship The book should appeal to all with an interest in the broad sweep of Scottish cultural history and more particularly in the country s Age of Enlightenment and its links with France **A Performative Feel for the Game** Trygve B. Broch,2019-12-21 Applying a cultural sociology of performance this book interrogates how the meaning of sport intersects with gender Trygve B Broch points out uncertainties in the causal arguments made by key figures in the cultural studies tradition instead advancing a meaning centered study of sports as involving both a social and an athletic performance Sports not only reflect or reverse social realities but capture and keep our attention when we use and experience them as a means to reflect on social life injustice and hierarchy More specifically blending approaches from media studies with ethnography Broch explores the women dominated sport of handball in Norway a country that considers gender equality a basis of democracy As such the analyses here show how broadly available meanings about sameness and equality are mediated and experienced through a performative feel for the game **Fields of Play** Noel Dyck,2012-01-01 At a time when people are living into their tenth decade the longest longitudinal study of human development ever undertaken offers welcome news for old age our lives evolve in our later years and often become more fulfilling Reporting on all aspects of male life Triumphs of Experience shares a number of surprising findings *Environmental Movements in Asia* Arne Kalland, Gerard Persoon,2013-10-31 This volume paints a general picture of the environmental situation in Asia backing it up with several case studies Two major points are made in this general picture The first is that environmental campaigns in Asia tend to have a local focus they react to very concrete problems in the immediate neighbourhood and as such usually people are engaged in a cause for practical rather than idealistic reasons Such can be seen in case studies from the volume dealing with campaigns against logging and tree plantations tourist facilities and factories and in support or defence of nature reserves This pattern is in marked contrast to the profile of the most successful Western movements in terms of fund raising at least for whom the focus is on perceived problems in distant parts of the world The second point is evidence in several of

the case studies in the volume namely that environmental campaigns cannot be understood in terms of environmental issues alone Rather they should be regarded as a form of cultural critique and frequently are a form of political resistance in situations where open political action is too risky Sport, Dance and Embodied Identities Noel Dyck, Eduardo P. Archetti, 2020-08-20 Sport and dance command the passions and devotion of countless athletes dancers and fans worldwide Although conventionally thought to reside within separate social realms these two embodied cultural forms are revealed in this benchmark volume to share a vital capacity to constitute and express identities through their practiced movements and scripted forms Thus the work of choreographers and coaches along with the performances of dancers and athletes offer not merely entertainment and aesthetic accomplishment but also powerful means for celebrating existing social arrangements and cultural ideals or alternately for imagining and advocating new ones Drawing on a wide selection of sport and dance activities from around the world this book elucidates the ways in which embodied performances both mirror and reshape social life It traces for example how football salsa and tango can each be employed to articulate or rewrite national and gender identities Also examined are children s sport and the dynamics by which immigration and cultural integration along with the socialization of children and youth may be directed through the organization of community sport The volume investigates the marshalling of sport and dance in settings from Africa to Ireland as vehicles for framing moral issues that revolve around the appropriate use protection and exhibition of the body This innovative study establishes the paradoxical fashion in which dance and sport can unite certain people and communities while at the same time serving exclusionary and nationalistic purposes Imagining the Course of Life Nancy Eberhardt, 2006-01-01 Imagining the Course of Life offers a rich portrait of rural life in contemporary Southeast Asia and an accessible introduction to the complexities of Theravada Buddhism as it is actually lived and experienced It is both an ethnography of indigenous views of human development and a theoretical consideration of how any ethnopsychology is embedded in society and culture Drawing on long term fieldwork in a Shan village in northern Thailand Nancy Eberhardt illustrates how indigenous theories of the life course are connected to local constructions of self and personhood In the process she draws our attention to contrasting models in the Euro American tradition and invites us to reconsider how we think about the trajectory of a human life Moving beyond the entrenched categories that can hamper our understanding of other views Imagining the Course of Life demonstrates the real life connections between the religious and the psychological Eberhardt shows how such beliefs and practices are used sometimes strategically in people s constructions of themselves in their interpretations of others behavior and in their attempts at social positioning Individual chapters explore Shan ideas about the overall course of human development from infancy to old age and beyond and show how these ideas inform people s understanding of personhood and maturity gender and social inequality illness and well being emotions and mental health How to Make Herself Agreeable to Everyone Cameron Russell, 2024-03-28 The realities of the fashion industry exposed in this devastating account of the life of a successful

by a mono cultural or WEIRD Western educated industrialized rich and democratic perspective Within the field of anthropology however a contrasting and more varied view is emerging While the phenomenon of children as workers is ephemeral in WEIRD society and in the literature on child development there is ample cross cultural and historical evidence of children making vital contributions to the family economy Children s labor is of great interest to researchers but widely treated as extra cultural an aberration that must be controlled Work as a central component in children s lives development and identity goes unappreciated Anthropological Perspectives on Children as Helpers Workers Artisans and Laborers aims to rectify that omission by surveying and synthesizing a robust corpus of material with particular emphasis on two prominent themes the processes involved in learning to work and the interaction between ontogeny and children s roles as workers
