Nkhoma,2021-10-29 The first four essays in Mission in Malawi reassess the meaning nature and place of mission in a postmodern world Subsequent essays examine various issues that missionaries and the Church in Malawi have and continue to struggle with These range from the problem of administering church discipline the challenge of Bible translation the question of how to deal with corruption in the corridors of power to the challenges of dealing with initiation rites HIV AIDS patriarchy gender inequality the exercise of the Church s prophetic role lack of contextualized theology and the difficult task of creating an inclusive church and society The last three essays are an attempt to describe a contextual theology appropriate for the African church construct a theology for Malawi and project a future for mission in Malawi in the context of a changing world These essays offer a rare window into the life and struggles of the Malawian Church even as it faces the postmodern future The essays are not only informative but also challenging and thought provoking Scholars students and other readers who share an interest in mission and the life of the Church in Malawi will find this collection of essays indispensable in the many years to come      **The Great Transformation of Japanese Capitalism** Sébastien Lechevalier,2014-02-05 In the 1980s the performance of Japan s economy was an international success story and led many economists to suggest that the 1990s would be a Japanese decade Today however the dominant view is that Japan is inescapably on a downward slope Rather than focusing on the evolution of the performance of Japanese capitalism this book reflects on the changes that it has experienced over the past 30 years and presents a comprehensive analysis of the great transformation of Japanese capitalism from the heights of the 1980s through the lost decades of the 1990s and well into the 21st century This book posits an alternative analysis of the Japanese economic trajectory since the early 1980s and argues that whereas policies inspired by neo liberalism have been presented as a solution to the Japanese crisis these policies have in fact been one of the causes of

the problems that Japan has faced over the past 30 years Crucially this book seeks to understand the institutional and organisational changes that have characterised Japanese capitalism since the 1980s and to highlight in comparative perspective with reference to the neo liberal moment the nature of the transformation of Japanese capitalism Indeed the arguments presented in this book go well beyond Japan itself and examine the diversity of capitalism notably in continental Europe which has experienced problems that in many ways are also comparable to those of Japan The Great Transformation of Japanese Capitalism will appeal to students and scholars of both Japanese politics and economics as well as those interested in comparative political economy
